Fortifies Your Lawn
Kills Fall Weeds
Fall Fertilizer Plus Weed Killers

ACTIVE INGREDIENTS:

Isooctyl ester of 2,4-dichlorophenoxyacetic acid*....	1.48%
Isooctyl ester of 2-(2-methyl-4-chlorophenoxy) propionic acid**.....	1.49%
INERT INGREDIENTS.....	97.03%
TOTAL:	100.00%

* Equivalent to 0.98% 2,4-dichlorophenoxyacetic acid

** Equivalent to 0.98% 2-(2-methyl-4-chlorophenoxy) propionic acid

GUARANTEED FERTILIZER ANALYSIS

Total Nitrogen (N).....	10%
6.0% Ammoniacal Nitrogen	
4.0% Urea Nitrogen	
Available Phosphoric Acid (P2O5).....	18%
Soluble Potash (K2O).....	10%
Magnesium (Mg).....	1.0%
Sulfur (S).....	2.0%
Iron (Fe).....	1.0%
Manganese (Mn).....	0.5%
Nutrient Sources: Urea, Ammonium Phosphate, Ammonium Sulfate, Muriate of Potash, Sulfates, Oxides.

Weed Killer Plus Fall Fertilizer

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

C A U T I O N

Do not allow people (other than Applicator) or pets on treatment area during application. Do not enter treatment areas until sprays have dried or dusts have settled.

When using this product, wear a long-sleeved shirt, long pants, socks and shoes. After using this product, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water.

E N V I R O N M E N T A L H A Z A R D S

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

This product contains special weed control to kill broadleaf weeds while the fertilizer fortifies your lawn for winter. The special formula helps lawns survive the rages of winter and green up lawn in the spring.

This product helps promote sturdier, deeper root growth. A stronger root system encourages rhizomes (underground creeping stems) to grow more vigorously and produce tillers. These tillers emerge a few inches from the mother plant and produce new blades of grass. This actually thickens the lawn. A deeper root system also builds resistance to drought, insects and disease.

This product kills weeds and keeps grass green right into winter.

Kills the following broadleaf weeds:

- | | | |
|------------|------------------------|---------------------|
| Chickweed | Field Bindweed | Pennywort |
| Cinquefoil | Ground Ivy | Plantain, Broadleaf |
| Clover | Henbit | Plantain, Buckhorn |
| Dock | Knotweed | Purslane |
| Dandelion | Morning Glory (annual) | Ragweed |
| | | Shepherd's Purse |
| | | Spurge |
| | | Stitchwort |
| | | Thistle |

NOTE: Should not be used on St. Augustinegrass, Centipedegrass or Carpetgrass. May damage bentgrasses -- also grass seedlings on newly-seeded lawns. Reseeding should be delayed for two weeks or more after application.

HOW TO APPLY: Follow Directions Carefully for Best Results

1. Measure lawn area to be treated. Apply evenly at the rate of one bag for each 10,000 sq. ft.
2. IMPORTANT: For most effective weed-killing action, apply when grass is moist (after a rain, sprinkling or dew). Do not water lawn after material is applied. Watering will wash off weed-killing material.
3. If possible, avoid unnecessary disturbance of treated areas for 48 hours after application.
4. Do not apply on hot, windy days or days when rain is expected. Weed-killing action will be reduced if applied when temperature is above 85 degrees Fahrenheit or less than 6 hours before a rain.
5. Avoid contact with valuable shrubs, plants or flowers. Vapors from this product may injure susceptible plants in the immediate vicinity. Do not contaminate water used for domestic or irrigation purposes.
6. The maximum number of broadcast applications per treatment site is two per year.
7. Sweep all fertilizer materials from concrete surfaces immediately after application. Do not wash materials from concrete surfaces because some fertilizers may contain iron which may cause discoloration upon oxidization.

595

WHEN TO APPLY:

This product is specially formulated for use during mid-August through November.

SPREADER SETTINGS

Show 'N Tell	5 1/2	Glorion	5 1/2
Greenfield	5 1/2	Queen Turf	5 1/2
Scott	4	Sears	5 1/2
Central	5 1/2	Jet Spred	3 1/2
MTD	3 1/2	Cyclone	3 1/2
Jackson	5 1/2	Scott Rotary	J

NOTE: Above spreader settings are approximate. Check your spreader on 100 sq. ft. and adjust to apply 5 to 6 oz. per 100 sq. ft. Rate of walk, moisture and spreader condition can vary the spreader setting necessary to apply the correct amount.

STORAGE AND DISPOSAL

STORAGE: Keep in original container in a cool, dry area, away from extreme heat and direct sunlight. Do not store near food, feed, seeds or other pesticides.

PESTICIDE DISPOSAL: Securely wrap container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse bag. Discard bag in trash.
