expelTM lawn weed killer

GRANULAR

- Takes dandelions and these other weeds out of your lawn:
- Common Chickweed
 - Cinquefoil
 - Clovers
 - Docks
 - Purslane
 - Oxalis
 - Shepherd's Purse
 - Field Bindweed
 - Ground Ivy
 - Henbit
 - Knotted
 - Annual Morning Glory
 - Perennial
 - Broadleaf Plantain
 - Ruckhorn Plantain
 - Spotted Spurge
 - Thistles
 - Wild Carrot

WHEN TO APPLY: Apply EXPEL as soon as you see broadleaf weeds in your lawn, and anytime during the growing season. Best time is when weeds are growing rapidly. For best results do not apply on hot days (above 85°F), windy days, or days when rain is expected within 4 to 8 hours.

HOW TO APPLY:

1. Measure lawn area to be treated. Apply evenly at the rate of one bag for each 5,000 sq. ft.
2. Apply with **Show n Tell** Model 105 spreader at setting 7.
3. **IMPORTANT:** Apply when grass is moist (after rain, sprinkling or dew). Do not water lawn immediately after material is applied, since this will wash off weed control material.

TROUBLE SHOOTING: If certain persistent weeds do not die within 3 weeks, repeat the application or apply EXPEL in its liquid or aerosol form. If grass browns temporarily, water heavily.

NOTE: Do not apply weed killers to new grass until it has been mowed at least 3 times. Delay seeding for 4 weeks after application. Do not apply to dandelion or clover lawns. May cause injury to bentgrass, St. Augustine or Carpetgrass. Delay mowing 48 hours after use.

SPREADER SETTINGS

The settings listed below are calculated to apply GREENVIEW EXPEL granular lawn weed killer at the recommended rate. These settings are approximate. Check application rate of your spreader before applying. Settings vary with type, age and condition of spreader.

SPREADER	SETTING	SPREADER	SETTING
Eliowall Model 105	7	Jackson (drop type)	6
Greenfield Model 105	7	Vaughan	6
Lawn Beauty	4 1/2	Modern	3 1/2
Scotts 35, 75, 100, automatic	6	Ace (roll on hopper)	4
