4 FERTILIZERS

**Kills broadleaf weeds, feeds grass in one operation**

# INGREDIENT STATEMENT

ACTIVE INGREDIENTS By Weight Dimethylamine Salt of 2,4 Dichlorophenoxyacetic Acid ..1.20%\*

\*Equivalent to 1.00% 2,4 Dichlorophenoxyacetic Acid

INERT INGREDIENTS (Relative to Herbicidal Content) ..... 98.80%

USDA REG. NO. 827-201

## CAUTION

**KEEP OUT OF REACH OF CHILDREN. HARMFUL IF SWALLOWED.** May cause irritation of eyes, nose, throat and skin. Avoid inhalation of dust. Avoid contact with skin, eyes and clothing. In case of contact with skin or eyes, flush with plenty of water; for eyes get medical attention. Wash thoroughly with soap and water after handling this material and before eating or smoking.

Keep away from animals. Do not contaminate water used for irrigation or domestic purposes. Do not apply on desired flowers, shrubs, fruits or vegetables. Do not store near and avoid contamination of foods, seeds, fungicides or fertilizers. If grass clippings from the first mowing after use of this product are removed, do not feed to livestock nor use to mulch ornamental shrubs. Wash spreader after use.

Use this product only for recommended purposes and at recommended dosages.

**SUGGESTED SPREADER SETTINGS**

# BE SURE GRASS IS MOIST BEFORE APPLYING

This fertilizer is free flowing so that a special make spreader is not required. These spreader settings are approximate. Age and condition of spreader, walking speed and evenness of lawn can cause variation in rate of flow through the spreader. Minor adjustments may be necessary in spreader setting to secure desired rate of application.

## SUGGESTED SPREADER SETTINGS

Agr. Spred #  
Lawn Beauty  
Sectts  
Modern Virginia  
Cross Country (leaf)  
Jackson

**DOUBLE LAWN BENEFITS** — the herbicide content kills dandelion, plantain, buckhorn, Shepherd's purse, mustard and similar broadleaf weeds. The nitrogen rich fertilizer gives the entire lawn a lift. For use on Lawns, Turf (not pastures) and Golf Course Fairways, Aprons, Tees and Roughs. Not a control for grass-type weeds such as crabgrass and goosegrass.

## DO NOT MOW OR WATER FOR 24 HOURS AFTER TREATMENT

### DIRECTIONS

1. Apply in Spring or Fall when weeds are actively growing.
2. Make applications on moist grass. Early morning or evening treatments are satisfactory.
3. Use only with a fertilizer spreader to assure an even, "no miss" application. Spinner-type spreaders are not recommended. Do not spread by hand.
4. Do not mow or water within 24 hours after treatment.
5. Avoid excessive applications and **DO NOT USE ON CENTIPEDE, ST. AUGUSTINE OR CARPET GRASSES.**
6. May cause temporary injury to Bent grass.
7. **CAUTION:** May injure certain sensitive trees and shrubs — particularly Willow, Locust, Dogwood. To avoid possible injury to any tree, do not apply to patches of weeds under the tree. Do not apply near or under shrubs. If new growth starts to curl, water heavily.
8. Do not apply to newly seeded areas.
9. Follow the Caution Statement on reverse side.

### WARRANTY

Asco Chemical Company, Division of Continental Oil Company, makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. The Buyer assumes all risk, including injury or damage, arising out of the storing, handling and/or use of this product when not in strict accordance with directions given herewith.
