**18-5-9 FERTILIZER  
WITH HERBICIDE BALAN  
FOR NORTHERN GRASSES  
FOR PROFESSIONAL USE**

A combination product that contains 18-5-9 fertilizer and a selective pre-emergence herbicide (Balansol) for the control of crabgrass, poa annua, and certain other annual seed grasses on established bluegrass, ryegrass, fescue, bermudagrass, centipedegrass, St. Augustinegrass and Zoysiagrass on ornamental turf.

### HOW TO USE

- This product fertilizes grass and controls smooth and hairy crabgrass, goosegrass, bermudagrass, green and yellow foxtail and annual bluegrass or established turf of bluegrass, ryegrass, fescue, bermudagrass, centipedegrass, St. Augustinegrass and Zoysiagrass.
- Apply this product in early spring prior to weed germination at the rate of 220 lbs. per acre or 5 lbs. per 1000 sq. ft. (1 1/2 lbs. actual fertilizer). An early fall application is also effective for control of poa annua (annual bluegrass) at the rate of 275 lbs. per acre (2 lbs. actual fertilizer).
- Do not apply in the spring to bluegrass planted the previous fall. Do not apply to newly sprouted areas until root growth is established. Do not apply to bent grass, Dickcissel, clover lawns or putting greens as possible injury may result.
- Reseeding should be delayed approximately 90 days after using benefit.

### CAUTION

May cause irritation of eyes, nose, throat, and skin. In case of contact with skin or eyes, flush with plenty of water; for eyes get medical attention.

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Avoid contamination of feeds, and food. Wash thoroughly with soap and water after use.

Destroy bag when empty. Do not reuse.

### SUGGESTED SPREADER SETTINGS

Spreader	Speed		Width of Coverage	Setting	
	Ground MPH	PTO RPM		220 lbs rate	275 lbs rate
Jet Spread	3		8 ft.	4 1/2	5 1/2
Cyclone	3		8 ft.	4 1/2	5 1/2
Ease Flow (109)	5	940	30 ft.	C3	A4
Lady (89)	5	425	39 ft.	7 1/2	8 1/2
Lady (88)	5	425	39 ft.	7 1/2	8 1/2
Scotts (Drop Type)	3		6 ft.	5 1/2	6 1/2
Scotts (Rotary)	3		6 ft.	J	K

These settings were recommended for field testing. However, speed and condition of spreader, speed of application, and condition of terrain may require slightly different settings for desired coverage.

### WARRANTY

Lebanon Chemical Corporation makes no warranty, expressed or implied, concerning the application of this product other than indicated on this label. The buyer assumes all risks including those of damage, misapplication, or use of the product in violation of the label instructions.
