WHAT INSECT CONTROL MEANS TO YOUR LAWN

Fertilizes grass and kills chinch bugs, sod webworms, ants, brown dog ticks, mole crickets, cutworms, and earwigs. 23% Nitrogen provides good green color and promotes thick grass growth. One-third of the Nitrogen is in a slow release form to last longer, save evenly. 3% Phosphorus stimulates root growth for a sturdier, thicker lawn. Helps assure hardiness during winter weather, too. 7% Potash increases resistance against disease and helps grass combat the stresses of dry, hot weather. Also helps develop springy, rugged grass blades. 30% Iron aids grass in holding a deep, rich, green color for a longer period of time than sprays alone can provide.

HOW TO USE

1. Apply Insect Control with Grass Food at the rate of 4 lbs. per 1000 sq. ft.
2. Treat when insect pest appear immediately after application. Sprinkle the soil with water to wash the granules into the zone of insect infestation.
3. Use a fertilizer spreader to insure an even application. Follow the suggested spreader settings below.
4. Retreat as necessary.
5. Keep children and pets off treated areas until the material is washed into the soil and grass is dry.
6. Do not mow for 24 hours following treatment.

SUGGESTED SPREADER SETTINGS

Following are recommended spreader settings to get approximately 4 lbs. of Agron Insect Control with Grass Food per 1000 sq. ft. of lawn.

Spreader	Setting
Agron Agri-Spacer	4 1/2
Agron Jet-Spacer, Cyclone	4 1/2
Control	7
Greenfield	7
Jordan, Bion	4 1/2
Lawn Beauty	5 1/2
M.T.D.	5
Scots	5

Walking Spread, treatment of lawn and condition of spreader may require slightly different settings for listed coverage.

CAUTION

Do not take internally. Avoid eye contact. Flush contaminated eyes with plenty of water and get medical attention if irritation persists. Harmful if swallowed.
Hazard to Fishes—Active ingredient is a chlorinated hydrocarbon. Treat symptomatically. Atropine is an antidote. Wash thoroughly after handling. Wash contaminated clothing before reuse. Keep away from food, feedstuffs and domestic water supplies.
This product is toxic to fish, birds, and other wildlife. Keep out of any body of water. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this product only as specified on this label.
Dispose of empty container and waste by burning or burial.

WARRANTY

Lebanon Chemical Corporation, the manufacturer, warrants that this product conforms to its description and is reasonably fit for the purpose stated on the label when used in accordance with the directions under normal conditions of use, but neither this warranty nor any other warranty extends to the use of this product under abnormal conditions, or under abnormal conditions not reasonably foreseeable by the buyer assumes the risk of any such use.
