OFFICE OF PREVENTION, PESTICIDES AND TOXIC SUBSTANCES

Mr. Henry E. Rohland Lebanon Seaboard Corporation 1600 East Cumberland Street Lebanon, Pennsylvania 17042

Dear Mr. Rohland:

Subject: Label revision to update Lebanon's label to be consistent with Bayer Corporation EPA Registration 961-354 Lebanon Bayleton 1.0% G Turf Fungicide EPA Registration 961-353 Lebanon Bayleton .05% G Turf Fungicide

Your applications dated August 25, 1999

Common names established by the American National Standards Institute (ANSI) are acceptable. Trademark or proprietary names may not be used in the ingredient statement unless such names have been accepted as a common name by the Agency under the authority of FIFRA Section 25(c)(6).

Submit one (1) copy of your final printed labelings before you release the product for shipment.

Stamped copies of the labeling are enclosed for your records.

)

Sincerely yours,

Cynthia Giles-Parker Product Manager 22 Fungicide Branch Registration Division (7505C) Э

Enclosure!

LEBANON BAYLETON® 0.5%G TURF FUNGICIDE

For control of certain diseases on turf.

ACTIVE INGREDIENT:

Bayleton 1 (4 Chlorophonoxy) 3,3 dimethyl 1 (1H 1,2,4 triazol 1 yl) 2 butanono	0.5%
INERT INGREDIENTS:	
TOTAL	100.0%

Bayleton* is a Reg. TM of Bayer AG.

EPA Reg. No. 961-353

(L) (D) EPA Est. 961-PA-01:961-IL-01 Superscript used is first letter of iot number.

) PRECAUTIONARY STATEMENTS) HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed, inhaled or absorbed through the skin. Causes moderate eye irritation. Avoid breathing vapor or dust. Avoid contact with skin, eyes or clothing. Do not contaminate feed or food. Keep out of reach of children.

Wash thoroughly with soap and warm water after handling. Wash contaminated clothing with soap and hot water before reuse.

STATEMENTS OF PRACTICAL TREATMENT FIRST AID

IF SWALLOWED: Administer water freely and induce vomiting by giving one dose (1/2 oz. or 15 ml.) of syrup of ipecac. If vomiting does not occur within 10 to 20 minutes, administer second dose. If syrup of ipecac is not available, induce vomiting by sticking linger down throat. Repeat until vomit fluid is clear. Never give anything by mouth to an unconscious person. Get medical attention immediately.

IF ON SKIN: Wash skin immediately with soap and warm water. If irritation occurs, get medical attention.

IF EYES ARE CONTAMINATED: Wash with plenty of water for at least 15 minutes. Get medical attention.

IF INHALED: Remove to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. Get medical attention.

TO PHYSICIAN: No specific antidote is available. Treat symptomatically.

ENVIRONMENTAL HAZARDS

Do not use on erope grown for forage. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by eleaning of equipment or disposal of equipment washwaters. Apply this product only as specified on this label. Do not make applications when weather conditions favor drift from target area.

Groundwater-Advisory: This chemical demonstrates the properties and characteristics associated with chemicals detected in ground water. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in ground water contamination.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its fabeling. IMPORTANT: Read these entire Directions and Warranty before using this product.

NOT FOR USE ON TURF BEING GROWN FOR SALE OR OTHER COMMERCIAL USE AS SOD, OR FOR COMMERCIAL SEED PRODUCTION OR FOR RESEARCH PURPOSES.

APPLICATION

This product <u>Bayleton fungicide</u> is absorbed rapidly and works systemically from within the plant. Rainfall or sprinkler irrigation soon after application will assure rapid systemic uptake. Control will be less effective on turf suffering from drought stress. Therefore, in order to achieve maximum control, plants should be maintained in a vigorously growing state through good cultural practices. Apply when the turf is fully established and actively growing. Applications should be applied at recommended intervals to maintain disease control.

Do not use on crops grown for food or forage.

.

RECOMMENDED APPLICATIONS

TURFGRASS DISEASE CONTROL

DISEASE	POUNDS OF PRODUCT PER 1,000 SQ, FT.		REMARKS	
	PREVENTATIVE	CURATIVE		
Dollar Spot <u>(Sclerotinia homosocarpa)</u>	Э		PREVENTATIVE RATE: Apply recommended rate on 30-day intervals. Protective activity of BAYLETON fungicide may extend for as long as 60 days dependent upon environmental conditions.	
	1.5		PREVENTATIVE RATE: Apply recommended rate on 14-day intervals. Protective activity of BAYLETON fungicide may extend for as long as 30 days dependent upon environmental conditions.	
		6	CURATIVE RATE: To control existing infections, apply the curative rate. Re-application should be no closer than 14 days. When infections have been controlled, refer to the preventative rate schedule for rates and timing.	
Copper Spot <u>(Gloeocercosoora sorghil</u> Powdery Mildew <u>(Erysiche graminis)</u> Corticium Red Thread (Laetisara fuciformis) Rusts <u>(Puccinia spo.)</u> 3		6	PREVENTATIVE RATE: Apply at 15- to 30-day intervals. When environmental conditions favor light to moderate disease development, use a longer interval. Protective activity of BAYLETON fungicide can be greater than 30 days depending on environmental conditions.	
Brown Patch/ <u>Phizoctonia Blight</u> (<i>Rhizoctonia solani</i>) (Suppression)			CURATIVE RATE: To control existing infections, apply the curative rate. Re-application should be no closer than 14 days. When infections have been controlled, refer to the preventative rate schedule for rates and timing.	
Anthracnose <u>(Colletotrichum graminicola)</u> Pea Annua Deeline	6		PREVENTATIVE RATE: Apply at 30-day intervals and repeat as necessary for seasonal control. Dependent upon environmen-, tal conditions, residual control may be extended to 45 days.	
	3		PREVENTATIVE RATE: Apply at 21-day intervals and repeat as necessary for seasonal control. Dependent upon environmen- tal conditions, residual control may be extended to 30 days.	
		6	CURATIVE RATE: To control existing infections, apply the curative rate. Re-application should be no closer than 14 days. When infections have been controlled, refer to the preventative rate schedule for rates and timing.

· · · · ·	PREVENTA RATES C)	
Stripe Smut (Ustilago striiformis)	6	Make a single application in spring as grass growth begins.	
Fusarium Blight (Fusarium culmorum) (Fusarium poae) Summer Patch <u>(Magnaporthe poae)</u> (Phialophoru graminicola) (Except California)	6	Apply first application in mid-June or 30 days prior to time this blight normally becomes evident. Applications should be made on 30-day intervals.	
Fusarium Blight (Fusarium culmorum) (Fusarium poae) Summer Patch <u>(Magnaporthe poae)</u> (Phislophore graminicola) (California only)	6 to 12	Apply first application in mid-June or 30 days prior to time this blight normally becomes evident. Applications should be made at the 6 lb. rate on 15-day intervals or at the 12 lb. rate on 30-day intervals.	
Zoysla patch, Large patch of zoysia (Rhizoctonia solani)	<u>6 to 12</u>	Make first application in early fall (mid-September to mid-October) prior to development of disease symptoms. A second application in early spring may be necessary in areas where disease pressure is known to be heavy.	
Gray Snow Mold/ <u>Typhula Blight</u> (Typhula incamata) (Except California)	12	Apply in the fall, 30 days prior to turf dormancy. If turf breaks dormancy during winter months a second application should be made. Do not apply over snow cover, or when turf is dormant.	
Pink Snow Mold/Fusarium Patch (Fusarium nivale) (Microdochium nivalis) Southern Blight.(Scierotium rolfsii) (Except California)	6 to 12	Apply before conditions favorable for infection occur. Re-application should be made as needed at a 60- to 90-day i Do not apply over snow cover, or when turf is dormant. Use higher rate in areas with a history of severe disease da	
Gray Snow Mold (Typhula incarnata) Pink Snow Mold (Fusarium nitate) California Only	Single Application 16 to 24	Apply in late Fall before first snow eaver. Do not apply over snow eaver. Use the high rate in areas with a history of severe- snowmaid domage.	

NOTE: Apply the specified amount of this product with a standard granular applicator accurately calibrated to uniformly apply recommended amount of product per 1,000 sq. ft. Make application when turf is dry and following the mowing operation. Do not mow until a minimum of .25 inch of water has been applied to treated area. Do not use clippings for animal feed.

SPREADER SETTINGS

Approximate spreader settings for applying this product at the rate of 3 lbs. per 1,000 sq. ft. To apply 6 lbs. per 1,000 sq. ft., repeat the 3 lbs. application over the area to be treated at right angles. (The 12 lbs. rate would require four applications at the 3 lbs. spreader setting.)

Scott Drop Type Spreader	Ortho Drop Type Spreader	Cyclone Rotary Spreader	Scott Rotary SpreaderN
Prize Lawn Spreader	Greenview Show 'N Tell	Ortho Rotary Spreader	Greenview Jet-Spred®5

These spreader settings are starting points for equipment calibration. As spreader age and condition, and terrain roughness have an effect on delivery rates, individual spreaders should be calibrated to determine the correct setting.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Keep in original containor in a cool, dry area, away from extreme heat and direct contight. Do not store near food, feed, ecode or other posticides. Store in a cool, dry place and in such a manner as to prevent cross contamination with other posticides, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

Handle and open container in a manner as to prevent spillage. If the container is leaking or material spilled for any reason or cause, carefully sweep material into a pile. Refer to Precautionary Statements on label for hazards associated with the handling of this material. Do not walk through spilled material. Material that cannot be used as directed should be disposed of as directed below. In spill or leak incidents, keep unauthorized people away. You may contact the Bayer Emergency Response Team for decontamination procedures or any other assistance that may be necessary. The Bayer Kansas City Emergency Response Telephone No. is 800-414-0244, or contact Chemtrec at 800-424-9300.

PESTICIDE DISPOSAL (Except Household): Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

HOUSEHOLD: Do not reuse empty container. Securely wrap original container in several layers of newspaper and diseard in trach put in trash collection.

CONTAINER DISPOSAL (Except Household): Do not rouse bag. Diseard bag in teach. Do not use container in connection with food, feed, or drinking water. Completely enipsy bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning, if burned, stay out of smoke.

WARRANTY

The Manufacturer warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions'under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product curritary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Manufacturer, and Buyer assumes the risk of any such use.
