NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

1. The registrant shall submit to the Administrator, within 90 days of the date of this registration, a copy of the final printed label for the product for which registration is being sought. The label shall be in accordance with the requirements of the Act and the regulations thereunder, and shall be in the English language.

2. The registrant shall submit to the Administrator, within 90 days of the date of this registration, a copy of the product for which registration is being sought.

3. The registrant shall submit to the Administrator, within 90 days of the date of this registration, five (5) copies of the final printed label for the product for which registration is being sought. The label shall be in accordance with the requirements of the Act and the regulations thereunder, and shall be in the English language.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply this product only as specified on this label.

Feeds your lawn the essential food elements required for good growth, while controlling the following lawn and home pests: Chinch Bugs, and webworms (Cater Moths), Ants, Brown Dog Ticks, Fleas, Cutworms, Earthworms, Ground Squirrels, Fleas, Chiggers, Clover Mites, Grass Hoppers, Armyworms, and Hyperodes (Turf grass) Weevils. Also for control of larvae of Japanese Beetles and European Chafer.

For control of all insects named above, except Hyperodes (weevil) larvae of Japanese Beetle and European Chafer, apply at the rate of 2 lbs. 5 oz. per 1,000 sq. ft. to turf or lawn area. Treat when insects first appear, or treat as needed.

For control of Hyperodes (Turf grass) Weevils, make a double application using 4 lbs. 10 oz. per 1,000 sq. ft. Treat suspected problem areas in mid-April and again in mid-May. Consult your local Agricultural Extension Service specialist for best time to treat in your area.

For control of larvae of Japanese Beetle and European Chafer, apply at the rate of 4 lbs. 10 oz. per 1,000 sq. ft. (Use 2 successive applications per month, directions). Treat when white grubs are young and actively feeding beneath soil surface, usually during late July and August, or as recommended by your local Agricultural Extension Service Specialist.

Immediately after all applications, wash granules into the soil with 1/2 to 1 inch of water.
