Office of Pesticide Programs
Registration Division (7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg.
Number:
961-392

Date of Issuance:
NOV 14 2002

Term of Issuance:
Conditional

NOTICE OF PESTICIDE:

Registration
Reregistration

(under FIFRA, as amended)

Name of Pesticide Product:
Greenview® Green
Power® Crabgrass
Prevention and Control

Name and Address of Registrant (include ZIP Code):

Lebanon Seaboard Corporation
1600 East Cumberland Street
Lebanon, PA 17042

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Add the phrase "EPA Registration No. 961-392 to the label before you release the product for shipment.

COMMENTS CONTINUED ON PAGE 2 OF THIS NOTICE OF REGISTRATION

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product under the enclosed stamped copy of the label constitutes acceptance of these conditions.

Enclosure

Joanne I. Miller
Product Manager (23)
Herbicide Branch
Registration Division (7505C)

Signature of Approving Official:

Joanne I. Miller

Date:

NOV 14 2002

Comments Continued:

2. Submit the required Storage Stability and Corrosion Characteristics (EPA Guidelines Data 830.6317 and 830.6320, respectively) for this pesticide product within one year from the date of this Notice of Pesticide Registration.
 3. Revise the restriction on use of clippings to read: " DO NOT use clippings from treated turf for mulching vegetables, vines, or fruit trees from which feed or food products may be harvested."
 4. Delete the statement: "Applications will control existing crabgrass and prevent further emergence."
 5. The section "Suggested Spreader Settings" must be deleted.. If spreader settings are needed, you must request an amendment of this registration to add spread settings.
 6. Delete the advertising claim "selective" in the first two claims; and the claim "Contains a highly effective herbicide for crabgrass control".
 7. Submit and/or cite all data required for the registration of this product when the Agency requires all registrants of similar products to submit data; and submit acceptable responses required for reregistration of this product under FIFRA, section 4.
 8. Submit one (1) copy of the final printed labeling before you release this product for shipment.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Causes eye irritation. Harmful if inhaled. Avoid contact with eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Prolonged or frequently repeated skin contact while handling this material may cause allergic reaction in some individuals.

FIRST AID

- IF IN EYES:**
 - Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
 - Call a poison control center or doctor for treatment advice.
- IF INHALED:**
 - Move person to fresh air.
 - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.
 - Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of an emergency involving this product, call day or night (800) 424-9300.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and highly toxic to other aquatic organisms including oysters and shrimp. Use with care when applying to turf areas adjacent to any body of water. Drift and runoff from treated turf may adversely affect aquatic organisms in adjacent aquatic sites. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Store this product only in its original container in a dry, cool, secured storage area. Do not contaminate water, foodstuffs, feed or seed by storage or disposal.

DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800 CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

SPILL: In case of spill, sweep up material and dispose of material according to disposal directions listed above.

GENERAL INFORMATION FOR TURF USE

Greenview Green Power Crabgrass Prevention and Control is a premium quality combination product that provides both weed control and the required nutrients for optimum turfgrass growth - all in a single product. It contains Dimension®, a selective herbicide that can be applied up to 4 weeks later than other crabgrass preventers and still provides season-long control. Greenview Green Power Crabgrass Prevention and Control prevents crabgrass and other grass and broadleaf weeds up to 4 months, when applied prior to their germination in lawns and ornamental turfgrasses. It also provides postemergence control of seedling crabgrass for up to 4 weeks after it germinates.

Greenview Green Power Crabgrass Prevention and Control should be applied to lawns and ornamental turfgrasses that are well established (See "General Precautions and Restrictions" section below for a list of the tolerant turfgrasses). It will not harm nearby established ornamentals when used according to directions, given below.

GENERAL PRECAUTIONS AND RESTRICTIONS

NOT FOR USE ON TURF BEING GROWN FOR SALE OR OTHER COMMERCIAL USE AS SOD, OR FOR COMMERCIAL SEED PRODUCTION, OR FOR RESEARCH PURPOSES.

Use of Greenview Green Power Crabgrass Prevention and Control on lawns and ornamental turfgrasses that are not well established, or have been weakened by stress due to mechanical operations, pests, excessive temperatures, or lack of moisture may increase the chances for turfgrass injury. Do not apply to lawns or turfgrasses that are under stress.

Reseeding, overseeding, or sprigging of turfgrasses into areas that have been previously treated with this product should be delayed until after 8 weeks from the time of application. Reseeding, overseeding, or sprigging before 8 weeks or earlier after application may injure or prevent the establishment of the newly reseeded, overseeded or sprigged turfgrasses.

Do not make an application of this product later than 4 weeks after crabgrass germination. Do not expect control with applications made later than 4 weeks after crabgrass germination.

DO NOT apply more than 8.8 lbs. of this product per 1,000 sq. ft. per application, and no more than 26.4 lbs. of this product per 1000 sq. ft. per year. In the State of New York, do not exceed 4.4 lbs. product per 1000 sq. ft. (0.25 lb. active ingredient per acre) per year.

DO NOT use clippings from treated turf for mulching, vegetables or fruit trees.

Keep people and pets off treated areas until dust has settled.

WEEDS CONTROLLED AND/OR SUPPRESSED

Grass Weeds - Annual Bluegrass, Annual Ryegrass, Barnyardgrass, Crabgrass, Crowfootgrass, Goosegrass, Green Foxtail, Kikuyugrass (seedling), Perennial Ryegrass, Smutgrass (seedling), Yellow Foxtail.

Broadleaf Weeds - Bittercress, Buttercup Oxalis, Carolina Geranium, Chickweed, Common Lespedeza, Common Purslane, Corn Speedwell, Creeping Oxalis, Henbit, Parsley-piert, Pineappleweed, Prostrate Spurge, Spotted Spurge, Yellow Woodsorrel.

APPLICATION DIRECTIONS

Greenview Green Power Crabgrass Prevention and Control can be applied to the following turfgrasses when used as directed:

Cool-Season Turfgrasses - Creeping Bentgrass, Fine Fescues, Kentucky Bluegrass, Perennial Ryegrass, Tall Fescues.

Warm-Season Turfgrasses - Bahiagrass, Bermudagrass, Buffalograss, Carpetgrass, Centipedegrass, St. Augustinegrass, Zoysiagrass.

APPLICATION TIMING

Greenview Green Power Crabgrass Prevention and Control should be applied in the spring or in the fall prior to weed seed germination for control of weeds in established lawns and ornamental turfgrasses. When this product is applied in the fall, a sequential or second application must be made the following spring to provide season-long control of weeds. If this product is applied in the fall, DO NOT reseed, overseed or sprig turfgrasses before 12 weeks after application due to potential turfgrass injury to the newly reseeded, overseeded or sprigged turfgrasses.

When establishing a new lawn of Kentucky Bluegrass, Perennial Ryegrass and/or Tall Fescue, this product may be applied 2 weeks after the first sign of grass germination. For other turfgrass, wait until the grass is well established (2 mowings) before applying this product. Do not apply this product within an 8 week period prior to seeding, reseeding, overseeding or sprigging.

Improved weed control may occur when this product is applied within a few days after mowing and further mowing is delayed until the turfgrass has been watered or received rainfall to dissolve the fertilizer granules.

Length of Control -

Greenview Green Power Crabgrass Prevention and Control will provide up to 4 months of weed control if applied according to label directions. The actual length of control will vary depending on use rate, weather conditions, condition of the turfgrass, and intensity of weed pressure.

POST EMERGENCE CRABGRASS CONTROL

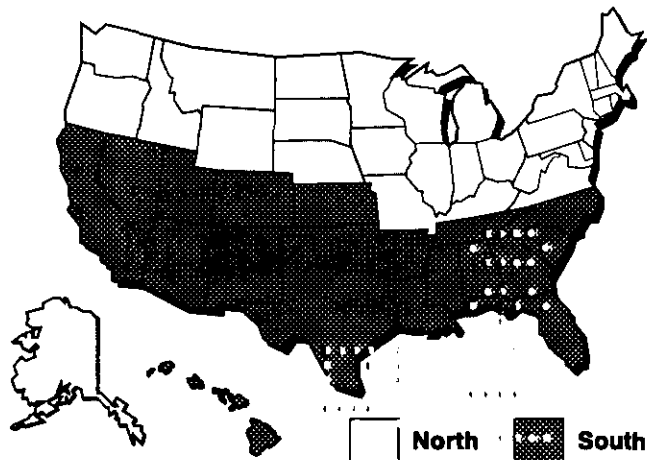

For post emergent crabgrass control, apply Greenview Green Power Crabgrass Prevention and Control when crabgrass is small (3-4 leaf). It will not control large tillered crabgrass. Applications will control existing crabgrass and prevent further emergence.

**RECOMMENDED USE RATE TABLE
(LBS. PER 1,000 SQ. FT.)**

REGION	2-3 Months Control	3-4 Months Control	Early Post Emergence Control
North	2.2	3.1	3.9 - 8.8
South	3.4	3.9 - 4.5	3.9 - 8.8

* Use the higher rate in areas of high weed pressure

USE REGIONS WITHIN THE UNITED STATES

APPLICATION EQUIPMENT AND INSTRUCTIONS

Greenview Green Power Crabgrass Prevention and Control can be applied with a drop or rotary type spreader designed to apply granular fertilizers. For best results, apply this product evenly and uniformly over the turfgrass area, avoiding streaking, skips or overlaps. Avoid the use of spreaders that would apply this product in narrow rows or concentrated bands. Before each application, calibrate the spreader according to the equipment manufacturer's directions. Adjust the spreader settings so the spreader delivers the appropriate application rate as recommended above.

A more uniform application can be made by spreading one-half of the recommended amount of this product over the turfgrass area and then applying the remaining one-half at a right angle to the previous direction. Check spreader frequently to insure it is functioning properly and distributing the granules uniformly.

SUGGESTED SPREADER SETTINGS

[Note: Registrant/Subregistrant may insert appropriate spreader setting information based on desired spreaders and recommended use rate per 1,000 sq. ft.]

GREENVIEW® GUARANTEE

Lebanon Seaboard Corporation guarantees you will be satisfied with the performance of this product when used as directed, or your money back. If not satisfied, describe the nature of your problem, and send with proof of purchase to Lebanon Seaboard Corporation, 1600 East Cumberland Street, Lebanon, PA 17042.

WARRANTY

The Manufacturer warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Manufacturer, and Buyer assumes the risk of any such use.

INHERENT RISKS OF USE

impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or other unintended consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperature, soil conditions, etc.), abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Seller. All such risks shall be assumed by Buyer. If terms are not acceptable, return the unopened container at once.

LIMITATION OF REMEDIES

The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Seller's election, one of the following:

- 1. Refund of purchase price paid by buyer or user for product bought, or
- 2. Replacement of amount of product used.

Seller shall not be liable for losses or damages resulting from handling or use of this product unless Seller is promptly notified of such loss or damage in writing. In no case shall Seller be liable for consequential or incidental damages or losses.

- A Selective Herbicide that Provides Control and Prevention of Crabgrass and Other Grass Type Weeds as well as Listed Broadleaf Weeds in Established Lawns. Apply in Spring.
- A Selective Herbicide Plus Fertilizer Combination Product that Provides Control of Crabgrass and Other Weeds in Established Lawns and Residential Landscapes.
- Premium Granular Fertilizer - Providing the Nutrients Needed for Beautiful Lawns and Ornamental Turfgrasses for Up to X* Months.
Thick Well-Fed Grass Provides a Natural Barrier to Further Weed Infestation.
 - Contains a Highly Effective Herbicide for Crabgrass Control.
- Can Be Applied Up to 4 Weeks Later Than Other Preemergence Crabgrass Preventers.

**number of months would be determined by fertilizer analysis used by manufacturer.*

Additional Labeling Requirements:

If the fertilizer guarantee contains iron, the following statement must appear:

This product contains the secondary nutrient iron. Iron may stain concrete and should not be applied on dry or water dampened concrete and should be removed from these areas promptly after application by sweeping or blowing. Do not wash off with water.

If the recommended use rate applies less than 1 pound nitrogen per 1,000 sq. ft. per application, the following statement must appear:

Additional applications of lawn fertilizer are needed to achieve a minimum 1 pound nitrogen per 1,000 sq. ft.

For products distributed in the State of Washington, the following statement must appear:

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.regulatory-info-lebsea.com>
