Re: Notification of modification of New York State instructions and addition of Spreader Settings for the Retail Product: Greenview Green Power Crabgrass Prevention and Control, EPA Registration Number 961- 392

Dear Ms. Miller:

This is to confirm our conversation on Tuesday morning, 28 January 2003, wherein you agreed to a modification by Notification to our referenced label, accepted with conditions, 14 November 2002. As I explained, condition #5 indicated if spreader settings were needed, they should be added by amendment. As we discussed, spreaders are changed from time to time due to customers changing needs and, in the past, we have been able to adjust accordingly with out amending our labels. To amend the labels would be an undue burden for the Registrant and EPA. In addition, unless EPA had access to the various types of spreaders and materials, it would be very difficult to verify the settings. It has been our understanding that the statement we have used on the application label, "[Note: Registrant/Subregistrant may insert appropriate spreader setting information based on desired spreaders and recommended use rate per 1,000 sq. ft.]" was... sufficient for registration purposes. In fact, previous applications have been submitted with the above statement and have been accepted. We appreciate you agreeing to the Notification process for this and for the addition of the New York statement for this addition. With that, enclosed is Lebanon's labeling for the referenced modification. The changes occur on page 1 in the boxed in New York statement "Do not apply more than once per year to the same area," and the addition of the spreader settings on page 4.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Causes eye irritation. Harmful if inhaled. Avoid contact with eyes or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Prolonged or frequently repeated skin contact while handling this material may cause allergic reaction in some individuals.

FIRST AID

- IF IN EYES:**
 - Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
 - Call a poison control center or doctor for treatment advice.
- IF INHALED:**
 - Move person to fresh air.
 - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.
 - Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. In case of an emergency involving this product, call day or night (800) 424-9300.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and highly toxic to other aquatic organisms including oysters and shrimp. Use with care when applying to turf areas adjacent to any body of water. Drift and runoff from treated turf may adversely affect aquatic organisms in adjacent aquatic sites. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Store this product only in its original container in a dry, cool, secured storage area. Do not contaminate water, foodstuffs, feed or seed by storage or disposal.

DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800 CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

SPILL: In case of spill, sweep up material and dispose of material according to disposal directions listed above.

GENERAL INFORMATION FOR TURF USE

Greenview Green Power Crabgrass Prevention and Control is a premium quality combination product that provides both weed control and the required nutrients for optimum turfgrass growth - all in a single product. It contains Dimension®, a herbicide that can be applied up to 4 weeks later than other crabgrass preventers and still provides season-long control. Greenview Green Power Crabgrass Prevention and Control prevents crabgrass and other grass and broadleaf weeds up to 4 months, when applied prior to their germination in lawns and ornamental turfgrasses. It also provides postemergence control of seedling crabgrass for up to 4 weeks after it germinates.

Greenview Green Power Crabgrass Prevention and Control should be applied to lawns and ornamental turfgrasses that are well established (See "General Precautions and Restrictions" section below for a list of the tolerant turfgrasses). It will not harm nearby established ornamentals when used according to directions, given below.

GENERAL PRECAUTIONS AND RESTRICTIONS

NOT FOR USE ON TURF BEING GROWN FOR SALE OR OTHER COMMERCIAL USE AS SOD, OR FOR COMMERCIAL SEED PRODUCTION, OR FOR RESEARCH PURPOSES.

Use of Greenview Green Power Crabgrass Prevention and Control on lawns and ornamental turfgrasses that are not well established, or have been weakened by stress due to mechanical operations, pests, excessive temperatures, or lack of moisture may increase the chances for turfgrass injury. Do not apply to lawns or turfgrasses that are under stress.

Reseeding, overseeding, or sprigging of turfgrasses into areas that have been previously treated with this product should be delayed until after 8 weeks from the time of application. Reseeding, overseeding, or sprigging before 8 weeks or earlier after application may injure or prevent the establishment of the newly reseeded, overseeded or sprigged turfgrasses.

Do not make an application of this product later than 4 weeks after crabgrass germination. Do not expect control with applications made later than 4 weeks after crabgrass germination.

DO NOT apply more than 8.8 lbs. of this product per 1,000 sq. ft. per application, and no more than 26.4 lbs. of this product per 1000 sq. ft. per year. In the State of New York, do not exceed 4.4 lbs. product per 1000 sq. ft. (0.25 lb. active ingredient per acre) per year.

DO NOT use clippings from treated turf for mulching, vegetables, vines, or fruit trees from which feed or food products may be harvested. Keep people and pets off treated areas until dust has settled.

WEEDS CONTROLLED AND/OR SUPPRESSED

Grass Weeds - Annual Bluegrass, Annual Ryegrass, Barnyardgrass, Crabgrass, Crowfootgrass, Goosegrass, Green Foxtail, Kikuyugrass (seedling), Perennial Ryegrass, Smutgrass (seedling), Yellow Foxtail.

Broadleaf Weeds - Bittercress, Buttercup Oxalis, Carolina Geranium, Chickweed, Common Lespedeza, Common Purslane, Corn Speedwell, Creeping Oxalis, Henbit, Parsley-piert, Pineappleweed, Prostrate Spurge, Spotted Spurge, Yellow Woodsorrel.

APPLICATION DIRECTIONS

Greenview Green Power Crabgrass Prevention and Control can be applied to the following turfgrasses when used as directed:

Cool-Season Turfgrasses - Creeping Bentgrass, Fine Fescues, Kentucky Bluegrass, Perennial Ryegrass, Tall Fescues.

Warm-Season Turfgrasses - Bahiagrass, Bermudagrass, Buffalograss, Carpetgrass, Centipedegrass, St. Augustinegrass, Zoysiagrass.

APPLICATION TIMING

Greenview Green Power Crabgrass Prevention and Control should be applied in the spring or in the fall prior to weed seed germination for control of weeds in established lawns and ornamental turfgrasses. When this product is applied in the fall, a sequential or second application must be made the following spring to provide season-long control of weeds. If this product is applied in the fall, DO NOT reseed, overseed or sprig turfgrasses before 12 weeks after application due to potential turfgrass injury to the newly reseeded, overseeded or sprigged turfgrasses.

When establishing a new lawn of Kentucky Bluegrass, Perennial Ryegrass and/or Tall Fescue, this product may be applied 2 weeks after the first sign of grass germination. For other turfgrass, wait until the grass is well established (2 mowings) before applying this product. Do not apply this product within an 8 week period prior to seeding, reseeding, overseeding or sprigging.

Improved weed control may occur when this product is applied within a few days after mowing and further mowing is delayed until the turfgrass has been watered or received rainfall to dissolve the fertilizer granules.

Length of Control -

Greenview Green Power Crabgrass Prevention and Control will provide up to 4 months of weed control if applied according to label directions. The actual length of control will vary depending on use rate, weather conditions, condition of the turfgrass, and intensity of weed pressure.

POST EMERGENCE CRABGRASS CONTROL

For post emergent crabgrass control, apply Greenview Green Power Crabgrass Prevention and Control when crabgrass is small (3-4 leaf). It will not control large tillered crabgrass.

RECOMMENDED USE RATE TABLE
(LBS. PER 1,000 SQ. FT.)

REGION	2-3 Months Control	3-4 Months Control	Early Post Emergence Control
North	2.2	3.1	3.9 - 8.8
South	3.4	3.9 - 4.5	3.9 - 8.8

* Use the higher rate in areas of high weed pressure

USE REGIONS WITHIN THE UNITED STATES

APPLICATION EQUIPMENT AND INSTRUCTIONS

Greenview Green Power Crabgrass Prevention and Control can be applied with a drop or rotary type spreader designed to apply granular fertilizers. For best results, apply this product evenly and uniformly over the turfgrass area, avoiding streaking, skips or overlaps. Avoid the use of spreaders that would apply this product in narrow rows or concentrated bands. Before each application, calibrate the spreader according to the equipment manufacturer's directions. Adjust the spreader settings so the spreader delivers the appropriate application rate as recommended above.

A more uniform application can be made by spreading one-half of the recommended amount of this product over the turfgrass area and then applying the remaining one-half at a right angle to the previous direction. Check spreader frequently to insure it is functioning properly and distributing the granules uniformly.

Drop Spreader Settings

Apply in a single pass at a rate of approximately 4.4 lbs. per 1,000 sq. ft. Start on the outside border and apply in a circular path working toward the center. Overlap the coverage slightly, and shut off spreader before making hard turns.

Drop Spreader	Setting
Greenview® Drop Spred® XP1	16 1/2
Greenview® Drop Spred® III	7
Agri-Fab® Drop	5
Red Devil Drop (1-20)	10 1/2
Republic Drop	6 1/2
Scotts Drop PF	9

Graphic Optional

Broadcast Spreader Settings

Apply in a single pass at a rate of approximately 4.4 lbs. per 1000 sq. ft. Start on the outside border and apply in a circular path working toward the center. A little overlap coverage is desirable.

Broadcast Spreader	Setting
Greenview® Jet-Spred® SS1	17 1/2
Greenview® Jet-Spred® III	5
Agri-Fab® Rotary	7 1/2
Cyclone Rotary	5
Earthway Rotary	18
Lesco Rotary	J
Red Devil Rotary (1-20)	10
Republic Rotary	5
Sears Craftsman Rotary	4 1/2
Scotts SpeedyGreen®	9

Graphic Optional

To calibrate your spreader: 1 lb. of material should cover approximately 227 sq. ft.

If your spreader model is not listed, go to our website at www.lebsea.com, or call toll-free 800-233-0628, 8 A.M. - 5 P.M. EDT, Monday - Friday, for additional model settings.

GREENVIEW® YARD WIDE GUARANTEE

Greenview guarantees you will be satisfied with the performance of this product when used as directed, or your money back. If not satisfied, describe the nature of your problem, and send with proof of purchase to Lebanon Seaboard Corporation, 1600 East Cumberland Street, Lebanon, PA 17042.

WARRANTY

The Manufacturer warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Manufacturer, and Buyer assumes the risk of any such use.

INHERENT RISKS OF USE

It is impossible to eliminate all risks associated with use of this product. Plant injury, lack of performance, or other unlabeled consequences may result because of such factors as use of the product contrary to label instructions (including conditions noted on the label, such as unfavorable temperature, soil conditions, etc.), abnormal conditions (such as excessive rainfall, drought, tornadoes, hurricanes), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Seller. All such risks shall be assumed by Buyer. If terms are not acceptable, return the unopened container at once.

LIMITATION OF REMEDIES

The exclusive remedy for losses or damages resulting from this product (including claims based on contract, negligence, strict liability, or other legal theories), shall be limited to, at Seller's election, one of the following:

1. Refund of purchase price paid by buyer or user for product bought, or
2. Replacement of amount of product used.

Seller shall not be liable for losses or damages resulting from handling or use of this product unless Seller is promptly notified of such loss or damage in writing. In no case shall Seller be liable for consequential or incidental damages or losses.

Advertising claims that may be presented on the label

- A Herbicide that Provides Control and Prevention of Crabgrass and Other Grass Type Weeds as well as Listed Broadleaf Weeds in Established Lawns. Apply in Spring.
- A Herbicide Plus Fertilizer Combination Product that Provides Control of Crabgrass and Other Weeds in Established Lawns and Residential Landscapes.
- Premium Granular Fertilizer - Providing the Nutrients Needed for Beautiful Lawns and Ornamental Turfgrasses for Up to X* Months.
 - Thick Well-Fed Grass Provides a Natural Barrier to Further Weed Infestation.
 - Can Be Applied Up to 4 Weeks Later Than Other Preemergence Crabgrass Preventers.
 - Only one application needed with new nitrogen technologies.
 - Extended time-release feeding of nitrogen greens into summer without excess growth.
 - Prevents crabgrass for up to 120 days.
 - X.X* lb. Nitrogen/1,000 sq. ft.
 - X/X* of the Nitrogen is Slow Release

FAIRWAY FORMULA FERTILIZER

WHAT IS SLOW RELEASE NITROGEN?

Greenview Fairway Formula Fertilizers utilize unique, slow release nitrogen sources developed for professionals.

MESA™ Provides rapid, deep greening. Feeds up to 6 weeks.

METH-EX® Slow, continuous feeding activated by warming soil temperatures. Feeds up to 12 weeks.

IBDU® Feeds in cool, wet weather. Great for early spring and winter. Feeds up to 16 weeks.

XX.X*% Slowly Available Nitrogen / XX*% Total Nitrogen = X/X* of the Nitrogen is Slow Release

**number would be determined by fertilizer analysis used by manufacturer.*

Additional Labeling Requirements:

If the fertilizer guarantee contains iron, the following statement must appear:

This product contains the secondary nutrient iron. Iron may stain concrete and should not be applied on dry or water dampened concrete and should be removed from these areas promptly after application by sweeping or blowing. Do not wash off with water.

If the recommended use rate applies less than 1 pound nitrogen per 1,000 sq. ft. per application, the following statement must appear:

Supplemental applications of lawn fertilizer are needed to achieve a minimum 1 pound nitrogen per 1,000 sq. ft.

For products distributed in the State of Washington, the following statement must appear:

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.regulatory-info-lebsea.com>
