 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Lebanon Seaboard Corporation
1600 East Cumberland St.
Lebanon, PA 17042

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit/cite all data required for the registration/reregistration review of your product when the Agency requires all registrants of similar products to submit such data.
2. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 961-396.
3. Submit Storage Stability (830.6317) and Corrosion Characteristics (830.6320) data within one year of the date of this Registration Notice.
3. Submit two copies of the revised final printed label for the record.

A stamped copy of the label is enclosed for your records.

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed, inhaled, or absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- Shoes plus socks

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

- Users should:
- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
 - Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
 - Remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

FIRST AID

- IF IN EYES:**
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
 - Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
 - Call a poison control center or doctor for treatment advice.
- IF SWALLOWED:**
- Call a poison control center or doctor immediately for treatment advice.
 - Have person sip a glass of water if able to swallow.
 - Do not induce vomiting unless told to do so by a poison control center or doctor.
 - Do not give anything by mouth to an unconscious person.
- IF INHALED:**
- Move person to fresh air.
 - If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.
 - Call a poison control center or doctor for further treatment advice.
- IF ON SKIN:**
- Take off contaminated clothing.
- OR CLOTHING:**
- Rinse skin immediately with plenty of water for 15-20 minutes.
 - Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For Emergency Medical Information call (888) 208-1368.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

NOT FOR USE ON TURF BEING GROWN FOR SALE OR OTHER COMMERCIAL USE AS SOD, OR FOR COMMERCIAL SEED PRODUCTION, OR FOR RESEARCH PURPOSES.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store this product only in its original container in a cool, dry, secured storage area out of reach of children. In case of spill, sweep up, and use according to directions or dispose of as follows. Do not store in or around the home. Reseal opened bags by folding tops and securing.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bags into application equipment. Then dispose of empty bags and box in a sanitary land fill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

5/10

GENERAL INFORMATION

This is a granular product for control of moss on putting greens, tees, fairways, or other fine turfgrass areas. Lebanon Moss Control consists of two components: Insoluble Component A and Soluble Component B. A 20 lb. package will treat 5,000 sq. ft. of turf.

USE PRECAUTIONS

This product contains the secondary nutrient iron. Iron may stain cement, stone, clothing or shoes. Avoid contact. Brush or rinse product off immediately to prevent staining.

MIXING INSTRUCTIONS

Begin by putting half the water to be used for the entire job in the spray tank. Do not deliver less than 6 gallons per 1,000 sq. ft., even if multiple passes must be made at a lower gallons per 1,000 rate. Next, dissolve the Soluble Component B in a separate container and pour this through the sprayer screen into the water under agitation. Finally, make a thoroughly-mixed suspension of the Insoluble Component A in water and add through the screen to the agitating tank. **DO NOT TURN AGITATION OFF!** Fill with water to the required volume.

If treating less than 5,000 sq. ft., 40.7 oz. of Insoluble Component A and 23.3 oz. of Soluble Component B need to be delivered along with six gallons of water per 1,000 sq. ft. of turf to be treated.

APPLICATION INSTRUCTIONS

Apply this product to target areas using a sprayer with a prefiltered system that is designed to apply pesticides as liquids. Sprayers with individual nozzle filter systems are much more likely to clog and fail. The use of turbo flood jet nozzles is highly recommended. Calibrate application equipment prior to use according to manufacturer's directions. Check frequently to be sure equipment is working properly and distributing the product uniformly.

Rinse tank thoroughly immediately after finishing to avoid clogging spray lines. Make a follow-up application 2 weeks after the initial treatment. A third application is likely to be required 2 weeks after the second. In case of severe infestation, a fourth application may be necessary 2 weeks after the third treatment.

Expect the moss to turn black and die back gradually. The nitrogen component of LebanonTurf Moss Control will encourage the desirable turf to fill in as the moss dies so the playing surface will experience only a minimum disturbance.

WARRANTY

The Manufacturer warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, expressed or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Manufacturer, and Buyer assumes the risk of any such use.

Additional Labeling Requirements:

If the recommended use rate applies less than 1 pound nitrogen per 1,000 sq. ft. per application, the following statement must appear:

Supplemental applications of lawn fertilizer are needed to achieve a minimum 1 pound nitrogen per 1,000 sq. ft.

For products distributed in the State of Washington, the following statement must appear:

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.regulatory-info-lebsea.com>

LEBANONTURF MOSS CONTROL

Insoluble Component A

APPLY ONLY IN CONJUNCTION WITH SOLUBLE COMPONENT B. SEE DIRECTIONS FOR USE BELOW.

NET WEIGHT: 12.72 LBS. (5.78 kg)

GUARANTEED ANALYSIS

Total Nitrogen (N) 28.0%
7.0% Urea Nitrogen
21.0% Water Insoluble Nitrogen
Nutrient Sources: Isobutylidene Diurea.

READ THE ENTIRE LABEL BEFORE USING THIS PRODUCT. USE ONLY ACCORDING TO LABEL INSTRUCTIONS.

**Before buying this product, read the Warranty Section elsewhere on this label.
If terms are not acceptable, return the unopened container to the place of purchase at once.**

KEEP OUT OF REACH OF CHILDREN

CAUTION

Fertilizer may cause irritation of eyes, nose, throat and skin.
In case of contact with skin or eyes, flush with plenty of water; for eyes, get medical attention.
