Re: Notification Submission in Response to PR Notice 2007-1

Dear Joanne:

Per the reference PR Notice, enclosed is an Application for Pesticide Form 8570-1, a revised label, Red Line deletions /Blue Line additions, showing the changes, and 3 labels with the changes incorporated.

We also included two marketing statements since these are not changes but additions to the label, which I believe may be accomplished by Notification.

We respectfully request you return a stamped copy upon your approval.

Should you have any questions concerning this submission, please call me at 800-532-0090 ext. 237 or e-mail: hrohland@lebsea.com.

Thanks for your help.

Sincerely,

Henry E. Rohland

GENERAL INFORMATION

This landscaping product contains a premium quality mulch such as Hardwood, Pine and Cypress or combination there of together with two long-lasting preemergence herbicides. One application of Preen Mulch provides 6 months control of broadleaf weeds and annual grasses in flower and ornamental beds. Plus it helps landscaped areas retain moisture - protecting your plants, trees and shrubs from extreme temperatures.

Preen Mulch provides increased weed control vs. ordinary mulches, when used as directed. This mulch contains only natural forest products and contains no recycled waste wood. These materials are ideal for mulches because they naturally degrade over time, turning into valuable organic matter.

GENERAL RESTRICTIONS

WEAR GLOVES WHEN HANDLING

Do not apply near fish pools, ponds, streams, or lakes.

Do not use this mulch around food producing fruit or nut trees, vegetables, herbs, or other edible food plants. For use **ONLY** on ornamental species.

WHEN TO APPLY

This mulch contains preemergent herbicides and for best results, remove all weeds in the beds prior to applying Preen Mulch. Apply anytime in the spring and fall after renovating beds. For best results, apply Preen Mulch after flowers and ornamentals have been planted into the soil. Do not apply over flower seeds.

Ornamental Bulbs - Apply 2 to 4 weeks after planting, or before or after flowering. **Do not apply to bulbs when flowering.**

HOW TO APPLY

Bulbs and Perennials — Spread Preen Mulch over the area to a depth of two inches. **Do not plant flowers directly into mulch.** If additional planting is desired after Preen Mulch has been applied, first remove the mulch from the selected area. Avoid getting treated mulch in the planting hole. Once the plant is firmly embedded in the soil, replace the mulch around the plant.

Annuals — After plants have been set in the soil bed, spread Preen Mulch over the area to a depth of two inches. Make no more than one application per site per year.

The active ingredients in Preen Mulch can cause injury to some annuals. If you have a concern about damage to your annuals, do not use this product.
