Subject: Label Amendment – Adding additional marketing claims  
Product Name: Preen Landscape Mulch  
EPA Registration Number: 961-408  
Application Date: November 7, 2014  
Decision Number: 497639

Dear Ms. Covert:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

EPA Reg. No. 961-408  
Decision No. 497639

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Grant Rowland by phone at (703)347-0254, or via email at [Rowland.Grant@epa.gov](mailto:Rowland.Grant@epa.gov).

Sincerely,

A handwritten signature in black ink that reads "Kathryn V. Montague". The signature is written in a cursive style with a long horizontal flourish extending from the top of the "g" in "Montague".

**ENVIRONMENTAL HAZARDS**

The active ingredients in this product are highly toxic to fish and other aquatic organisms including oysters and shrimp. Use with care when applying to areas adjacent to any body of water. Runoff from treated areas may adversely affect aquatic organisms in adjacent aquatic sites. Do not apply directly to water. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**PRODUCT INFORMATION**

This landscaping product contains a premium quality mulch such as Hardwood, Pine and Cypress or combination there of together with two long-lasting preemergence herbicides. One application of Preen Mulch provides 6 months control of broadleaf weeds\* and annual grasses in flower and ornamental beds. Plus it helps landscaped areas retain moisture - protecting your plants, trees and shrubs from extreme temperatures.

Preen Mulch provides increased weed\* control when used as directed. This mulch contains natural forest products and contains no recycled waste wood. These materials are ideal for mulches because they naturally degrade over time, turning into valuable organic matter.

## PRODUCT RESTRICTIONS

### WEAR GLOVES WHEN HANDLING

### WHEN TO APPLY

This mulch contains preemergent herbicides and for best results, remove all weeds in the beds prior to applying Preen Mulch. Apply in the spring and fall after renovating beds. For best results, apply Preen Mulch after flowers and ornamentals have been planted into the soil. Do not apply over flower seeds.

**Ornamental Bulbs** - Apply 2 to 4 weeks after planting, or before or after flowering. **Do not apply to bulbs when flowering.**

### HOW TO APPLY

**Bulbs and Perennials** — Spread Preen Mulch over the area to a depth of two inches. **Do not plant flowers directly into mulch.** If additional planting is desired after Preen Mulch has been applied, first remove the mulch from the selected area. Avoid getting treated mulch in the planting hole. Once the plant is firmly embedded in the soil, replace the mulch around the plant.

**Annuals** — After plants have been set in the soil bed, spread Preen Mulch over the area to a depth of two inches. Make no more than one application per site per year.

The active ingredients in Preen Mulch can cause injury to some annuals. If you have a concern about damage to your annuals, do not use this product.
