Subject: Label Amendment – Revising Marketing Claims; Adding Alternate Brand Names
Product Name: Turf Fertilizer Plus Penoxsulam Weed Control
EPA Registration Number: 961-414
Submission Date: March 2, 2011
Decision Number: 446184

Dear Ms. Covert:

The label amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended is acceptable.

Please note that marketing claims made on the pesticide label must be substantiated by data maintained in your files. If data supporting marketing claims made on the product label is not available, then those claims must be removed.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Products shipped after 18 months from the date on this notice or the next printing of the label whichever occurs first, must bear the new revised label. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA. Your release for shipment of this product constitutes acceptance of these conditions. This label supersedes all previously accepted labels. You must submit one copy of the final printed label before the product is released for shipment. One copy of the label stamped "Accepted with Comments" is enclosed for your records. If you have any questions, please contact Michael Walsh by phone at (703) 308-2972 or via email at "walsh.michael@epa.gov".

Precautionary Statements

Hazards to Humans and Domestic Animals

CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear long-sleeved shirt, long pants, and shoes plus socks. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

First Aid

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For Emergency Medical Treatment Information call (888)208-1368.

Environmental Hazards

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or

street, back onto the treated area of the lawn or garden will help to prevent runoff to water bodies or drainage systems.

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For Outdoor Residential Use.

Read all Directions for Use carefully before applying.

Applicator must wear long-sleeved shirt and, long pants, and shoes plus socks. Keep all people and pets, except applicator, out of the treated area until dusts have settled.

How This Product Works

TURF Fertilizer Plus Penoxsulam Weed Control contains a postemergence herbicide which is applied to established turfgrasses for the control of annual, biennial and perennial broadleaf weeds in home lawns [and other recreational turfgrass areas].

Use Precautions and Restrictions

- Do not use on turf grown for agricultural or commercial purposes (turf farms), or for grass seed production.
- Do not apply [TURF Fertilizer Plus Penoxsulam Weed Control or this product] on dichondra, carpetgrass, bahiagrass, or to turfgrass containing desirable clovers.
- Do not apply [TURF Fertilizer Plus Penoxsulam Weed Control or this product] directly to, or otherwise permit [TURF Fertilizer Plus Penoxsulam Weed Control or this product] to come into contact with, flowers, ornamental shrubs or trees, or other desirable broadleaf plants, as serious plant injury may occur.
- Do not apply to centipedegrass during the period of winter dormancy. Grass should be green and actively growing at the time of application.
- The active ingredient in this product may leave residues in treated grass clippings which could be harmful to some plants and trees. Do not collect treated grass clippings for use as mulch around plants.
- To minimize the potential for turfgrass injury, allow four weeks between applications.
- Avoid unnecessary disturbances, including watering and mowing, for approximately 24 hours after application.
- Use [TURF Fertilizer Plus Penoxsulam Weed Control or this product] on solid (monoculture) stands of perennial ryegrass or tall fescue at a maximum rate of 1.6 lb per 1000 sq ft. Some yellowing of these turfgrasses may occur within two weeks of application. Any discoloration is temporary and will dissipate under adequate growing conditions.
- Apply [TURF Fertilizer Plus Penoxsulam Weed Control or this product] to newly seeded or sprigged turfgrass only after the third mowing or after the turfgrass seedlings have developed an adequate secondary root system. Do not reseed for at least three to four weeks after application.
- Do not apply more than 4.6 lb of [TURF Fertilizer Plus Penoxsulam Weed Control or this product] per 1000 sq ft per application.

- Do not apply more than 6.9 lb of [TURF Fertilizer Plus Penoxsulam Weed Control or this product] per 1000 sq ft per year.

[In the following state[s]:] [Do not exceed more than [X] applications of [X.X] lbs. of this product per 1000 sq.ft. per year or one application of [X.X] lbs. of this product per 1000 sq.ft.]

[Editor's note: one of the following statements as appropriate will appear on label if product is registered in the state of Florida.]

- Florida Applications: Do not exceed [3] [4] [5] applications per year on bermudagrass in the north.
- Florida Applications: Do not exceed [4] [5] [6] applications per year on bermudagrass in central Florida.
- Florida Applications: Do not exceed [5] [6] [7] applications per year on bermudagrass in the south.
- Florida Applications: Do not exceed [1] [2] applications per year on centipedegrass in the north.
- Florida Applications: Do not exceed [2] [3] applications per year on centipedegrass in [central Florida] [the south].
- Florida Applications: Do not exceed [2] [3] [4] applications per year on St. Augustinegrass in the north.
- Florida Applications: Do not exceed [2] [3] [4] [5] applications per year on St. Augustinegrass in central Florida.
- Florida Applications: Do not exceed [4] [5] [6] applications per year on St. Augustinegrass in the south.
- Florida Applications: Do not exceed [3] [4] [5] applications per year on zoysiagrass in the north.
- Florida Applications: Do not exceed [3] [4] [5] [6] applications per year on zoysiagrass in central Florida.
- Florida Applications: Do not exceed [4] [5] [6] applications per year on zoysiagrass in the south.

TURF Fertilizer Plus Penoxsulam Weed Control is suggested for use on the following established warm and cool season turfgrass species (numbers in parentheses (-) refer to footnotes below):

Established Cool Season Turfgrass (1)

- annual bluegrass
- bentgrass
- bluegrass, Kentucky
- fescue, chewing
- fescue, creeping red
- fescue, sheeps
- fescue, tall (2)
- ryegrass, perennial (2)

Established Warm Season Turfgrass (3)

- bermudagrass (common or hybrid)
- centipedegrass (4)
- fescue, tall (growing in warm season areas) (2)
- kikuyugrass
- St. Augustinegrass
- zoysiagrass

1. Use no more than 3.4 lb of [TURF Fertilizer Plus Penoxsulam Weed Control or this product] per 1000 sq ft per application.
2. Use [TURF Fertilizer Plus Penoxsulam Weed Control or this product] on these species at a maximum rate of 1.6 lb per 1000 sq ft per application and only if some injury can be tolerated. A slight yellowing of turfgrass may occur within two weeks of application. The discoloration is temporary and is generally gone within four weeks of treatment under adequate growing conditions.
3. Use no more than 4.6 lb of [TURF Fertilizer Plus Penoxsulam Weed Control or this product] per 1000 sq ft per application.
4. Do not apply to centipedegrass during the period of winter dormancy. Grass should be green and actively growing at the time of application.

Weeds Controlled or Suppressed

Generally, application rates at the lower end of the rate range will be satisfactory for young, succulent growth of sensitive weed species. For less sensitive species and under conditions where control is more difficult (plant stress conditions such as drought or extreme temperatures, dense weed stands and/or larger weeds), the higher rate within the rate range or repeat applications will be needed. Weeds growing in the absence of competition from other vegetation generally require higher rates or repeat applications to obtain satisfactory control or suppression.

How to Apply

To optimize product performance mow the lawn two to three days before applying [TURF Fertilizer Plus Penoxsulam Weed Control or this product]. If the lawn is under moisture stress, a thorough sprinkler irrigation of at least 1/2 inch may be needed at least one to two days before application. For optimal results, apply [TURF Fertilizer Plus Penoxsulam Weed Control or this product] in the morning when dew is present. If necessary irrigate with less than 1/4 inch of

water just prior to application to maximize particle adherence to leaf surfaces. Avoid watering of treated area for 24 hours following application. Avoid making applications if rainfall is expected within 24 hours after treatment.

Optional Heading: [SUGGESTED] SPREADER SETTINGS

[Note: Registrant/Subregistrant may insert appropriate spreader setting information based on desired spreaders and recommended use rates as listed above.]

[Determining Your Lawn's Square Footage

To determine how much of this product to apply, you must determine the square footage of your lawn. An easy way to do this is to walk the length of your lawn, figuring that one pace equals about 3 feet. Do the same with the width of the lawn. Then multiply the length by the width to arrive at the total. Make sure you subtract the square footage of your home and driveway when calculating the total square footage of your lawn. If your lawn has an irregular shape, try dividing it up into a number of square areas. Calculate the square footage for each area, then add the figures together to reach your total lawn size.]

[above pictogram is optional]

[Spreader Tips

The two main types of spreaders are the Drop Spreader, which drops the material straight down the width of the spreader as you push, and the Broadcast Spreader (also known as a rotary), which throws the material from the spreader.]

[Drop Spreader: [(See Fig. A.)]First make two passes along the top of the area you'll be covering. Then make two passes along the bottom area. Then move back and forth along the long part of the lawn. On each pass, as you reach the strips at the top and bottom of the area to be covered, shut off the spreader. It's also important to shut off the spreader when you are stopped.]

How Much to Apply

Apply [TURF Fertilizer Plus Penoxsulam Weed Control or this product] to established lawns. Possible re-treatment in 30 days may be necessary if the lawn is heavily overrun with weeds or if adverse low-moisture conditions prevail and weeds are in a state of poor growth. Do not exceed specified rates because damage to the lawn may occur. Do not make more than two applications per season.

Note: When applying to warm season turfgrass under conditions of inadequate moisture, high temperature and high humidity, over-application may cause minor temporary discoloration. It is recommended to reduce application rates by 50% during hot, dry conditions to avoid possible dehydration or browning of turfgrass.

When to Apply

Best weed control results are obtained when [TURF Fertilizer Plus Penoxsulam Weed Control or this product] is applied to small, actively growing weeds in the spring or early fall. Extreme growing conditions such as drought or near freezing temperatures prior to, at, or following time of application may reduce weed control.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

Pesticide Storage: Store product in its original container in a cool, dry, locked place out of the reach of children and animals.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
