Date of Issuance

JUL 18 2012

Term of Issuance Unconditional

Name of Pesticide Product

Turf Fertilizer with LockUp plus
Dimension Weed Control

NOTICE OF PESTICIDE

X Registration
Reregistration

(under FIFRA as amended)

Name and Address of Registrant (include ZIP Code)

Lebanon Seaboard Corporation
1600 East Cumberland Street
Lebanon, PA 17042

Note Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce In any correspondence on this product always refer to the above EPA registration number

On the basis of information furnished by the registrant the above named pesticide is hereby registered/reregistered under the Federal Insecticide Fungicide and Rodenticide Act Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency In order to protect health and the environment the Administrator on his motion may at any time suspend or cancel the registration of a pesticide in accordance with the Act The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others

This product is registered in accordance with FIFRA sec 3(c)(7)(A) provided that you

- 1 Submit and/or cite all data required for registration/reregistration review of your product when the Agency requires all registrants of similar products to submit data
2 Make the following changes to the Label
Revise EPA Reg No 961 UEN to EPA Reg No 961 420
Assure that the establishment number and net content are also added to the final printed label
3 Submit one copy of the final printed label before you release the product for shipment

Please note the following

Marketing claims made on the pesticide label must be substantiated by data maintained in your files If data supporting marketing claims made on the product label is not available then those claims must be removed Please also note that should you wish to add/retain a reference to the company s website on your label (i e scanner codes) then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency If the website is false or misleading the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E)

40 CFR 156 10(a)(5) list examples of statements EPA may consider false or misleading In addition regardless of whether a website is referenced on your product s label claims made on the website may not substantially differ from those claims approved through the registration process Therefore should the agency find, or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration the website will be referred to the EPA s Office of Enforcement and Compliance

If these conditions are not complied with the registration will be subject to cancellation in accordance with FIFRA sec 6(e) Your release for shipment of the product constitutes acceptance of these conditions

A stamped copy of the label is enclosed for your records

If you have any questions regarding the Notice please contact Grant Rowland at (703) 347 0254 or rowland grant@epa.gov

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed inhaled or absorbed through skin Causes moderate eye irritation Avoid contact with skin eyes or clothing Avoid breathing dust Wear protective eyewear long sleeved shirt long pants socks shoes and chemical-resistant gloves made of any waterproof material Wash thoroughly with soap and water after handling and before eating drinking chewing gum or using tobacco Remove contaminated clothing and wash before reuse Prolonged or frequently repeated skin contact while handling this material may cause allergic reaction in some individuals

Personal Protective Equipment (PPE)

All mixers loaders applicators and other handlers must wear
Long sleeved shirt and long pants
Chemical resistant gloves made of any waterproof material
Shoes plus socks
Protective eyewear

Follow manufacturer s instructions for cleaning/maintaining PPE If no such instructions for washables exist use detergent and hot water Keep and wash PPE separately from other laundry

FIRST AID

IF SWALLOWED	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice • Have person sip a glass of water if able to swallow • Do not induce vomiting unless told to do so by a poison control center or doctor • Do not give anything by mouth to an unconscious person
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none"> • Take off contaminated clothing • Rinse skin immediately with plenty of water for 15 20 minutes • Call a poison control center or doctor for treatment advice
IF INHALED	<ul style="list-style-type: none"> • Move person to fresh air • If person is not breathing call 911 or an ambulance then give artificial respiration preferably mouth to mouth if possible • Call a poison control center or doctor for further treatment advice
IF IN EYES	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15 20 minutes • Remove contact lenses if present after the first 5 minutes then continue rinsing eye • Call a poison control center or doctor for treatment advice
Have the product container or label with you when calling a poison control center or doctor or going for treatment You may also contact (888)208 1368 for emergency medical treatment information	

ENVIRONMENTAL HAZARDS

This product is toxic to fish and highly toxic to other aquatic organisms including oysters and shrimp Use with care when applying to turf areas adjacent to any body of water Drift and runoff from treated turf may adversely affect aquatic organisms in adjacent aquatic sites Do not apply directly to water to areas where surface water is present or to intertidal areas below the mean high water mark Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas Do not apply when conditions favor drift from treated areas Do not contaminate water when disposing of equipment washwaters or rinsate

This product contains 2 4 D that has properties and characteristics associated with chemicals detected in groundwater The use of this product in areas where soils are permeable particularly where the water table is shallow may result in groundwater contamination Application around a cistern or well may result in contamination of drinking water or groundwater

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling
Read all Directions for Use carefully before applying

USE PRECAUTIONS AND RESTRICTIONS

- Not for use on plants being grown for sale or other commercial use or for commercial seed production or for research purposes
- Do not apply this product on dichondra, carpetgrass St Augustinegrass bahiagrass or to golf course putting greens or tees or turfgrass containing desirable clovers
- Do not apply this product directly to or otherwise permit this product to come into contact with

flowers ornamental shrubs or trees or other desirable broadleaf plants as serious plant injury may occur

- Do not apply to centipedegrass during the period of winter dormancy Apply to actively growing grass Use of this product on certain varieties of creeping bentgrass such as Cohansey Carmen Seaside and Washington may result in undesirable turfgrass injury Not all varieties of creeping bentgrass have been tested **Do not** apply this product to Colonial bentgrass (*Agrostis tenuis*)
- Use of this product on certain varieties of fine fescue *may result* in undesirable turf injury The following fine fescue varieties have been found to be sensitive to this product Atlanta Banner Beauty Bilgart CF 2 Enjoy HF 93 Highlight Ivalo Jamestown Koket Majenta Mary Pennlawn Tamara Tatjana Waldorf and Waldina Not all varieties of fine fescue have been tested
- Do not use this product on seedling buffalograss in the spring of the first year of establishment until the turfgrass is fully green and has established new roots
- The active ingredient in this product may leave residues in treated grass clippings which could be harmful to some plants and trees Do not collect treated grass clippings for use as mulch around plants vegetables or fruit trees The applicator must notify in writing the appropriate residences/individuals of this precaution when this product is applied by a lawn service/commercial applicator
- Some yellowing on solid (monoculture) stands of perennial ryegrass or tall fescue may occur within two weeks of application of this product Any discoloration is transitory and will dissipate under adequate growing conditions
- To minimize the potential for turfgrass injury allow four weeks between applications
- Do not water mow or disturb treated area for 48 hours after application
- Do not make more than two applications of this product per acre per year
- Do not allow people or pets to enter treated area until dust has settled
- Do not graze livestock or feed forage cut from areas treated with this product

Note It is not possible to evaluate all turfgrass varieties for resistance to this product It is suggested that the user evaluate the response of turfgrass varieties not listed on this label on a limited area at specified use rates prior to initiating large scale use

Precautions for Reseeding, Overseeding, or Sprigging

- Reseeding overseeding or sprigging of areas treated with this product within 10 weeks after a single application of this product or within 16 weeks after split application program totaling 6.8 lb/1000 sq ft (0.5 lb active ingredient per acre) or more may inhibit the establishment of desirable turfgrasses
- When reseeded or overseeded follow established cultural practices for seedbed preparation seeding irrigation and fertilization
- For best overseeding results use mechanical or power seeding equipment (slit seeders) designed to provide good contact between soil and seed

Application Directions for Turf [Product Information]

- This product provides preemergence control of listed broadleaf and grassy weeds including crabgrass in established turfgrasses (including the large smooth and southern species) when

varieties wait until the grass is well established (3 mowings) before applying this product

Do not seed overseed or sprig the treated area for 10 weeks after application

[Fall Application]

[This product may be applied from late summer through early fall (late August through November) for preemergence control of all listed weeds that germinate in fall including annual bluegrass (poa annua) When applied in the fall a second application after 10 to 12 weeks may be necessary to control annual bluegrass (poa annua)]

HOW TO APPLY

For optimum broadleaf weed control apply to recently mowed turf when foliage is moist When possible delay mowing or irrigation for several days after treatment The dithiopyr preemergent component in this product is not effective until activated by rainfall or irrigation Performance is improved by 1/2 inch of rainfall or sprinkler irrigation within a 30 day period Erratic weed control may result if not activated by rainfall or irrigation

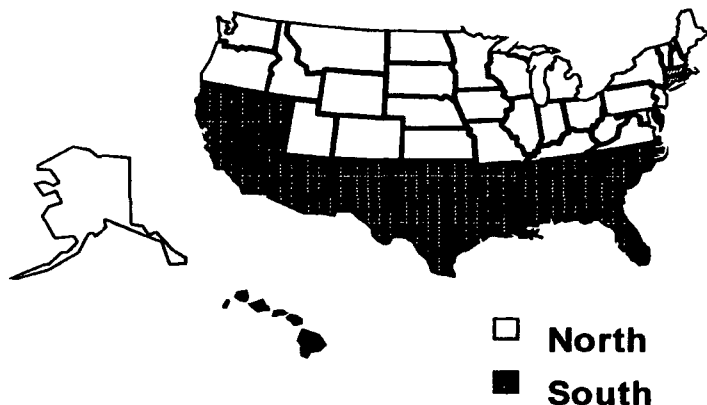

Uniform coverage is essential for best results Before each application calibrate the spreader according to the equipment manufacturer s directions Avoid streaking skips or overlaps Adjust the spreader so the spreader delivers the appropriate application rate as specified below

APPLICATION RATES

Apply 152 to 174 lbs per acre (3.5 to 4.0 lbs per 1,000 sq ft) of this product to control actively growing broadleaf weeds and prevent germination of labeled annual grasses and broadleaf weeds growing in established turf Broadleaf and grassy weed species germinate at different times

Application rates are based on the user s location the mowing height of the turfgrass and whether the application timing is considered to be preemergence or early postemergence The duration of residual weed control provided by this product is directly related to application rate but will vary somewhat depending on weather weed pressure turfgrass competitiveness and the users location within a region The following charts show application rates and some of the common broadleaf weeds controlled The rates vary based on region which are described as follows

Use "Regions" within the United States

POSTEMERGENCE & PREEMERGENCE PROGRAMS APPLICATION RATES

North Region

152 LB/ACRE	Penoxsulam AI/Acre	Dicamba AI/Acre	2 4 D AI/Acre	Dithiopyr AI/Acre
3 5 LB/1 000 SQ FT	0 015	0 122	1 307	0 258

This rate provides postemergent control of the following broadleaf weeds and 3 to 5 months preemergent control as well as early postemergence control of crabgrass that has not begun to tiller at sites with high cut turf¹ in all areas as defined above³

South Region

174 LB/ACRE	Penoxsulam AI/Acre	Dicamba AI/Acre	2 4 D AI/Acre	Dithiopyr AI/Acre
4 0 LB/1 000 SQ FT	0 0174	0 139	1 496	0 296

Increases postemergent control and provides 4 6 months of preemergent control on low cut turf² where weed control has been conducted during the previous year Also provides early postemergent control of crabgrass that has not reached the tiller stage in high cut turf¹ Applies to all areas as defined above³

⁺ Use 2 applications 5 to 6 weeks apart apply to moist foliage except in New York³

¹ High cut turf such as home lawns and commercial sites

² Low cut turf such as golf fairways

³In the state of New York this product may be applied only by commercial applicators at no more than 294 lb (0.5 lb active ingredient of dithiopyr) per acre (6.8 lb per 1000 sq ft) per year. Use of this product in Nassau and Suffolk Counties of New York is prohibited.

Preemergence Weed Control

Used as directed [Turf Fertilizer with Lockup plus Dimension Weed Control or this product] provides preemergence control and suppression of the following weeds when applied prior to their germination.

Annual Grasses

barley	smooth	foxtail green	perennial
barnyardgrass	crabgrass	foxtail yellow	sandbur
bluegrass annual	Southern	kikuyugrass†	smutgrass
brome	crowfootgrass†	oats wild	
crabgrass large	dallisgrass	ryegrass annual	
crabgrass	goosegrass	ryegrass	

Established Broadleaf Weeds

bittercress†	lespedeza	parsely-piert†	spurge spotted
carpetweed	common†	purslane	woodsorrel
chickweed†	maretail	common	creeping
geranium	medic black	rocket London	woodsorrel
Carolina†	mustard	shepherd s purse	yellow
henbit	oxalis buttercup	speedwell corn†	
knotweed	pineappleweed	spurge garden	
prostrate	pigweed redroot	spurge prostrate	

†Suppression only

Post Emergence Weed Control

Used as directed [Turf Fertilizer with Lockup plus Dimension Weed Control or this product] provides post emergence control of the following weeds.

Annual Grasses

Early post emergence control of crabgrass seedlings at the 5 leaf stage of growth when they first become visible in the established turf.

Established Broadleaf Weeds

bedstraw	dollarweed	morningglory	purslane
burdock	eclipta	peppergrass	ragweed
chickweed	healall	pigweed	sheep sorrel
chicory	ivy ground	plantain	shepard s purse
clover	knotweed	broadleaf	speedwell
dandelion	lambsquarters	plantain	thistle
dock	medic black	buckhorn	

SUGGESTED SPREADER SETTINGS

Spreader 3 5 lbs /1,000 Sq Ft 4 lbs /1,000 Sq Ft (Editor's Note Manufacturer to supply a listing of spreaders and suggested settings to apply this product at a rate of 3 5 and 4 lbs per 1 000 sq ft)

Spreader model	[Product Name] 3 5 lb/1000 sq ft	[Product Name] 4 0 lb/1000 sq ft
Lebanon Turf	x x	x x
Andersons AccuPro	x x	x x
Earthway Rotary	x x	x x
Gandy	x x	x x
Lely	x x	x x

These settings were calibrated and field tested However age and condition of spreader speed of operation and evenness of terrain may require slightly different settings for desired coverage

STORAGE AND DISPOSAL

Do not contaminate water food or feed by storage or disposal

PESTICIDE STORAGE Store product in its original container in a cool dry locked place out of the reach of children and animals

PESTICIDE DISPOSAL Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility

CONTAINER HANDLING Nonrefillable container Do not reuse or refill this container Offer for recycling if available Completely empty container into application equipment Then dispose of empty container in a sanitary landfill or by incineration or if allowed by State and local authorities by burning If burned stay out of smoke

WARRANTY

NOTE To the extent consistent with applicable law Buyer assumes all responsibility for safety and performance if this product is not used according to the directions

SUBLABEL 2 Intended for Homeowner Use

Turf Fertilizer with Lockup plus Dimension Weed Control

[For post emergence control of listed annual and perennial broadleaf weeds, and preemergence control of listed annual grasses and broadleaf weeds, in established home lawns]

CAUTION

Harmful if swallowed inhaled or absorbed through skin Causes moderate eye irritation Avoid contact with skin eyes or clothing Avoid breathing dust Wear protective eyewear long-sleeved shirt long pants socks shoes and chemical-resistant gloves made of any waterproof material Wash thoroughly with soap and water after handling and before eating drinking chewing gum or using tobacco Remove contaminated clothing and wash before reuse Prolonged or frequently repeated skin contact while handling this material may cause allergic reaction in some individuals

FIRST AID

IF SWALLOWED	Call a poison control center or doctor immediately for treatment advice Have person sip a glass of water if able to swallow Do not induce vomiting unless told to do so by a poison control center or doctor Do not give anything by mouth to an unconscious person
IF ON SKIN OR CLOTHING	Take off contaminated clothing Rinse skin immediately with plenty of water for 15 20 minutes Call a poison control center or doctor for treatment advice
IF INHALED	Move person to fresh air If person is not breathing call 911 or an ambulance then give artificial respiration preferably mouth to mouth if possible
IF IN EYES	Call a poison control center or doctor for further treatment advice Hold eye open and rinse slowly and gently with water for 15 20 minutes Remove contact lenses if present after the first 5 minutes then continue rinsing eye Call a poison control center or doctor for treatment advice

Have the product container or label with you when calling a poison control center or doctor or going for treatment You may also contact (888) 208 1368 for emergency medical treatment information

ENVIRONMENTAL HAZARDS

This product is toxic to fish and highly toxic to other aquatic organisms including oysters and shrimp Use with care when applying to turf areas adjacent to any body of water Drift and runoff from treated turf may adversely affect aquatic organisms in adjacent aquatic sites Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas Do not apply when conditions favor drift from treated areas To protect the environment do not allow pesticide to enter or run off into storm drains drainage ditches gutters or surface waters Applying this product in calm weather will help to ensure that wind does not blow pesticide off the treatment area Sweeping any product that lands on a driveway sidewalk or street back onto the treated area of the [lawn or garden] will help to prevent run off to water bodies and drainage systems

This product contains 2 4-D that has properties and characteristics associated with chemicals detected in groundwater The use of this product in areas where soils are permeable particularly where the water table is shallow may result in groundwater contamination Application around a cistern or well may result in contamination of drinking water or groundwater

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling
For Outdoor Residential Use
Read all Directions for Use carefully before applying

Optional Heading [How This Product Works] [Product Information] [Application Directions]

[Turf Fertilizer with Lockup plus Dimension Weed Control or This product] controls broadleaf and grassy weeds* in one application It kills lawn weeds commonly found in home lawns including dandelion chickweed thistle and clover and prevents crabgrass and other undesirable weeds for up to [3] [4] [5] [6] months

- [Turf Fertilizer with Lockup plus Dimension Weed Control or This product] provides preemergence control of listed broadleaf and grassy weeds including crabgrass when applied prior to their germination
- [Turf Fertilizer with Lockup plus Dimension Weed Control or This product] provides post emergence control of listed broadleaf weeds
- [Turf Fertilizer with Lockup plus Dimension Weed Control or This product] also provides post emergence control of young crabgrass if applied prior to the 5 leaf stage of growth or first tiller This stage of growth normally corresponds to the time when crabgrass seedlings first become visible in the established turfgrass The practical benefit of early post emergence crabgrass control is a 2 4 week longer period of time [(window of application)] during which crabgrass control can be achieved

[Turf Fertilizer with Lockup plus Dimension Weed Control or This product] contains [a long-lasting] [slow release] [timed release] fertilizer that feeds your lawn for [up to] [2] [3] [4] [2 3] [3-4] months

*See use directions for complete list of treated weeds

[Turf Fertilizer with Lockup plus Dimension Weed Control or This product] is for use on the following established turf species

Established Cool Season Turfgrass

- Kentucky bluegrass
- perennial ryegrass¹
- tall fescue¹

Established Warm Season Turfgrass

- Bermudagrass (common and hybrid)
- centipedegrass²
- kikuyugrass
- zoysiagrass

¹ A slight yellowing of turfgrass may occur within two weeks of application. Any discoloration is temporary and is generally gone within four weeks of treatment under adequate growing conditions.
² Do not apply to centipedegrass during the period of winter dormancy. Apply to actively growing grass.

USE PRECAUTIONS

- Use of [Turf Fertilizer with Lockup plus Dimension Weed Control or this product] on lawns and ornamental turfgrasses that are not well established or have been weakened by stress due to mechanical operations, pests, excessive temperatures, or lack of moisture may increase the chances for turfgrass injury. Allow turfgrass weakened by these stresses to recover before application of this product.
- Do not use this product where desirable clovers are present or spread [apply] the granules onto flowers, vegetables, or ornamental shrubbery. Do not spread over exposed roots of trees and ornamentals. Do not exceed specified dosages for any area, be particularly careful within drip line of trees and other ornamental species.
- Do not water, mow, or disturb treated area for 48 hours after application.
- Do not make more than two applications of this product per acre per year.
- Do not use clippings from treated areas for mulching vegetables or fruit trees.
- Do not allow people (other than applicator) or pets on treatment area during application.
- Do not allow people or pets to enter treatment area until dust has settled.

Note It is not possible to evaluate all turfgrass varieties for resistance to this product. It is suggested that the user evaluate the response of turfgrass varieties not listed on this label on a limited area at specified use rates prior to initiating large scale use.

Optional Heading [WHEN TO APPLY] [Application Timing]

Established Lawns Apply when broadleaf weeds are actively growing and prior to germination or tillering of crabgrass. This product may be applied as a single application or as a split application in the spring, summer, or fall. Use of split applications 5–10 weeks apart may provide improved weed control.

Newly Seeded Areas When establishing a new lawn of Kentucky bluegrass perennial ryegrass and tall fescue this product may be applied 2 weeks after the first sign of grass germination For other turfgrass varieties wait until the grass is well established (3 mowings) before applying this product

Do not seed overseed or sprig the treated area for 10 weeks after application

[Fall Application]

[This product may be applied from late summer through early fall (late August through November) for preemergence control of all listed weeds that germinate in fall including annual bluegrass (poa annua) When applied in the fall a second application after 10 to 12 weeks may be necessary to control annual bluegrass (poa annua)]

Optional Heading [How To Apply]

For optimal weed control apply this product to recently mowed turf when grass is moist from dew or rain The lawn must not be watered mowed or disturbed for 48 hours after application The preemergence weed control will be improved by ½ inch of rainfall or sprinkler irrigation within a 30 day period Erratic weed control may result if the product is not activated by rainfall or irrigation within 30 days after application

Uniform coverage is essential for best results Before application calibrate the spreader according to the equipment manufacturer s directions Avoid streaking skips or overlaps Adjust the spreader so the spreader delivers the appropriate product application rate

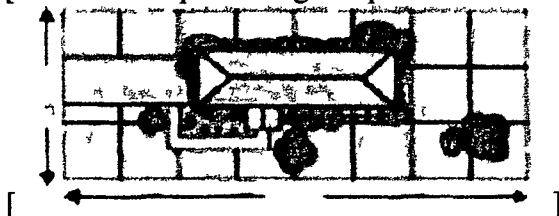

Optional Heading [Spreader Settings]

Optional [Application Equipment and Instructions] [Spreader Directions]

[Determining Your Lawn's Square Footage]

To determine how much of this product to apply you must determine the square footage of your lawn An easy way to do this is to walk the length of your lawn figuring that one pace equals approximately 3 feet Do the same with the width of the lawn Then multiply the length by the width to arrive at the total Make sure you subtract the square footage of your home and driveway when calculating the total square footage of your lawn If your lawn has an irregular shape try dividing it up into a number of square areas Calculate the square footage for each area, then add the figures together to reach your total lawn size]

[Insert icon representing footprint of house driveway and lawn]

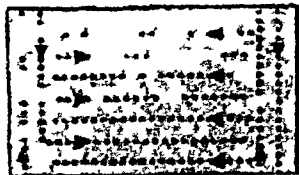

[Spreader Tips]

The two main types of spreaders are the Drop Spreader which drops the material straight down the width of the spreader as you push and the Broadcast Spreader (also known as a rotary) which throws the material from the spreader]

[Drop Spreader [(See Fig A)] First make two passes along the top of the area you ll be covering Then make two passes along the bottom area Then move back and forth along the long part of the lawn On each pass as you reach the strips at the top and bottom of the area to be covered shut off the spreader It s also important to shut off the spreader when you are stopped]

[Insert drop spreader icon]

[Insert icon showing spreader path]

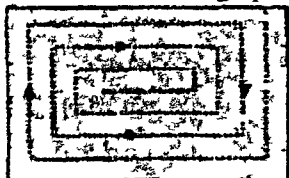

[above pictogram is optional] [Fig A]

[Broadcast Spreader [(See Fig B)] Apply in a single pass by starting on the outside border and apply in a circular path working toward the center]

[Insert broadcast spreader icon]

[Insert icon showing spreader path]

[above pictogram is optional] [Fig B]

[Optional Spreader Language]

[The spreader settings are approximate [To check your spreader apply [x x] lb of material to cover 1 000 sq ft]]

[Note if spreader model does not appear above please call [toll free] XXX XXX XXXX X am – X pm [ET] [CT] [MT] [PT] [Monday – Friday] [Monday – Sunday] [Anytime] [24/7] for additional model settings]

[Note Registrant/Subregistrant may insert appropriate spreader setting information based on desired spreaders and specified use rates]

[These settings were calibrated and field tested. However, age and condition of spreader, speed of operation, and evenness of terrain may require slightly different settings for desired coverage.]

Optional Heading [How Much To Apply] [APPLICATION RATES]

[Turf Fertilizer with Lockup plus Dimension Weed Control or This product] provides up to [3] [4] [5] [6] months of weed control when applied according to label directions. The actual length of control will vary depending on the use rate, weather conditions, condition of the turfgrass, intensity of weed pressure, and the location where this product is being applied.

Use "Regions" within the United States

[Product Use Rate]

North region apply 3.0 pounds of product per 1,000 square feet to established cool season turfgrass

South region apply 3.4 pounds of product per 1,000 square feet to established warm season turfgrass

The maximum number of broadcast applications per treatment site is 2 per year

In the state of New York do not exceed 3.4 lb per 1000 sq ft per year (equivalent to 0.25 pounds of active ingredient of dithiopyr per acre)

[Table below is optional]

131 lb/acre	Penoxsulam AI/Acre	Dicamba AI/Acre	2,4-D AI/Acre	Dithiopyr AI/Acre
3.0 lb/1000 sq ft	0.013	0.105	1.17	0.223

[Table below is optional]

147 lb/acre	Penoxsulam AI/Acre	Dicamba AI/Acre	2,4 D AI/Acre	Dithiopyr AI/Acre
3.4 lb/1000 sq ft	0.015	0.118	1.26	0.249

Preemergence Weed Control

Used as directed [Turf Fertilizer with Lockup plus Dimension Weed Control or this product] provides preemergence control and suppression of the following weeds when applied prior to their germination

Annual Grasses

barley	bluegrass annual	crabgrass large	crabgrass
barnyardgrass	brome	crabgrass smooth	Southern
Lebanon Seaboard Corporation	12/22/2011		Page 17 of 38
New Product Registration			

crowfootgrass†	foxtail green	oats wild	sandbur
dallisgrass	foxtail yellow	ryegrass annual	smutgrass
goosegrass	kikuyugrass†	ryegrass perennial	

Established Broadleaf Weeds

bittercress†	prostrate	pineappleweed	spurge garden
carpetweed	lespedeza,	pigweed, redroot	spurge prostrate
chickweed†	common†	parsely piert†	spurge spotted
geranium	marestail	purslane common	woodsorrel
Carolina†	medic black	rocket, London	creeping
henbit	mustard	shepherd s purse	woodsorrel
knotweed	oxalis buttercup	speedwell corn†	yellow

† Suppression only

Post Emergence Weed Control

Used as directed [Turf Fertilizer with Lockup plus Dimension Weed Control or this product] provides post emergence control of the following weeds

Annual Grasses

Early post emergence control of crabgrass seedlings at the 5 leaf stage of growth when they first become visible in the established turf

Established Broadleaf Weeds

bedstraw	dollarweed	morningglory	purslane
burdock	eclipta	peppergrass	ragweed
chickweed	healall	pigweed	sheep sorrel
chicory	ivy ground	plantain	shepard s purse
clover	knotweed	broadleaf	speedwell
dandelion	lambsquarters	plantain	thistle
dock	medic black	buckhorn	

STORAGE AND DISPOSAL

Do not contaminate water food or feed by storage or disposal

Pesticide Storage Store product in its original container in a cool dry locked place out of the reach of children and animals

Pesticide Disposal and Container Handling Nonrefillable container Do not reuse or refill this container

If empty Place in trash or offer for recycling if available **If partly filled** Call your local solid waste agency for disposal instructions **Never place unused product down any indoor or outdoor drain**

WARRANTY

NOTE To the extent consistent with applicable law Buyer assumes all responsibility for safety and performance if this product is not used according to the directions

[Optional Label Claims][that can be used on both consumer and commercial labels]

Claims Miscellaneous

- 1 [Bar code] [product number]
- 2 [Item number]
- 3 [Not] Proof of Purchase
- 4 If the fertilizer guarantee contains iron the following statement must appear [Note] {Notice } This product contains the secondary nutrient iron Iron may stain concrete surfaces and must not be applied on dry or water dampened concrete and must be removed from these areas promptly after application by sweeping or blowing Do not wash off with water
- 5 For products distributed in the State of Washington the following statement must appear (relevant to the fertilizer guarantee) [Note] Information regarding the contents and levels of metals in this product is available on the internet at [http //www regulatory info lebsea com](http://www.regulatory.info/lebsea.com)
- 6 The following statement may appear when the application rate applies less than 1 pound of nitrogen per 1 000 sq ft [Note] Supplemental applications of lawn fertilizer are needed to achieve a minimum of 1 pound nitrogen per 1 000 sq ft
- 7 The following statement may appear if application rate instructions specify different rates based on different regions in Florida [Optional fertilizer text for state of Florida] Florida Applications [X] annual feedings [with the exception of [listed turfgrass species (X feedings in the north and X feedings in the central and south)] This package applies X X lbs of product per 1 000 sq ft]
- 8 For products sold in the state of Florida, the following statement may appear [Optional text for state of Florida] We suggest that you follow the Golf Course BMP s at [http //www dep state fl us/water/nonpoint/docs/nonpoint/glfbmp07 pdf](http://www.dep.state.fl.us/water/nonpoint/docs/nonpoint/glfbmp07.pdf)
- 9 For products sold in the state of Florida the following statement may appear [Optional text for state of Florida] Do not apply near water storm drains or drainage ditches Do not apply if heavy rain is expected Apply this product only to your lawn/garden and sweep any product that lands on the driveway sidewalk or street back onto your lawn/garden
- 10 For use on cool and warm season turfgrass

Claims regarding Weed Control Properties

- 1 [12] [16] [20] [24] week weed* [grass] control
- 2 [3] [4] [5] [6] month weed* [grass] control
- 3 [Innovative] [Exclusive] [Unique] formula kills dandelions and stops crabgrass
- 4 [Just] One application kills weeds*
- 5 [Penoxsulam 3 & Dimension 0 017% or This product] kills tough existing weeds* and controls new weeds* for [3] [4] [5] [6] month
- 6 [Turf Fertilizer with Lockup plus Dimension Weed Control] contains the latest technology in weed control
- 7 Apply when weeds are actively growing
- 8 Apply at [spring summer fall]
- 9 Apply in spring and fall
- 10 Apply once for the whole season
- 11 [Prevents] [Stops] crabgrass [all season]
- 12 2 in 1 Kills Dandelions & [Prevents] [Stops] Crabgrass [all season]
- 13 2 in 1 Weed* Control
- 14 Begins killing on contact
- 15 Can be applied up to 4 weeks later than other preemergence crabgrass preventers
- 16 Contains Dimension® Herbicide – A highly effective herbicide for crabgrass control
- 17 Contains the latest technology in weed* control
- 18 Controls [tough] weeds [such as clover] [dandelion] [dollarweed] [ground ivy] [plantain] [chickweed]
- 19 Controls common broadleaf and grassy weeds* [such as annual bluegrass goosegrass yellow foxtail chickweed henbit and other weeds listed on this label]
- 20 Controls crabgrass and [many] other weed* grasses
- 21 Controls new weeds* for [12] [16] [20] [24] weeks
- 22 Controls new weeds* for [3][4] [5] [6] months
- 23 Controls new weeds* for up to [12] [16] [20] [24] weeks

- 24 Controls tough weeds such as dollarweed and dandelion[and clover]
 25 Controls weeds* [all season']
 26 Destroys tough [lawn] weeds*
 27 Destroys weeds* fast
 28 Dimension® and Penoxsulam® are registered trademarks of Dow AgroSciences LLC
 29 Dimension® is a registered trademark of Dow AgroSciences LLC
 30 Effective weed* control – prevents weeds all season long
 31 Effective weed* control leads to greener thicker [lawns or turf]
 32 Fast acting weed* [kill] [control]
 33 Kills [xx] weeds* [to the root]
 34 Kills [xx+] [tough] [common][[lawn] weeds*
 35 Kills clover chickweed and many other broadleaf weeds*
 36 Kills dandelions [and most lawn weeds*]
 37 Kills even the toughest weeds*
 38 Kills tough existing weeds* [and controls new weeds] for 12 [16] [20] [24] weeks
 39 Kills tough existing weeds* [and controls new weeds] for 3 [4] [5] [6] months
 40 Kills tough lawn weeds to the root
 41 Kills tough weeds* [to the root]
 42 Kills weed* won t harm lawn
 43 Kills weeds including dandelion clover and other common lawn weeds*
 44 Kills weeds* [quickly and] completely
 45 Kills weeds* now for no weeds in spring
 46 Kills weeds* [on contact] [to the root] [and fertilizes turf]
 47 Kills weeds* and feeds turf[for up to 3 [4] [5] [6] months]
 48 Kills weeds* completely
 49 Kills young crabgrass [in early stages of growth]
 50 Longer application window
 51 More powerful than the toughest weeds*
 52 Pre Emergence Control of Crabgrass
 53 Prevents crabgrass all season
 54 Prevents crabgrass and kills [xx][+] common lawn weeds*
 55 Prevents crabgrass and other grassy weeds* [from germinating]
 56 Prevents weeds* now for fewer weeds in spring
 57 Provides control of crabgrass and many other weeds* in established [lawns or turf]
 58 Stops [crabgrass] [annual bluegrass] [chickweed] [henbit] [select any weed from weed controlled section]
 59 Stops crabgrass and broadleaf weeds* with one application
 60 Stops crabgrass before it starts
 61 Stops [crabgrass] [annual bluegrass] [chickweed] [henbit] [select any weed from weed controlled section]
 62 Stops crabgrass goosegrass chickweed and many other broadleaf and grass weeds* before they emerge and invade the turf [lawn]
 63 Use for a [beautiful] [weed free* [lawn or turf]
 64 Weed images [select weed from weed controlled section]
 65 Works on contact
 66 Your best defense against tough weeds*

Claims regarding Fertilizer Properties

- 1  (Symbol for heat/drought resistance)
- 2  (Symbol for stronger roots)
- 3 [Advanced formula] strengthens roots for improved water absorption
- 4 [For] [Builds] [a] thicker [stronger] greener [lawn] [grass] [turf]
- 5 [Turf Fertilizer with Lockup plus Dimension Weed Control] – All the fertilizer nutrients your lawn [turf] needs for spring
- 6 [Turf Fertilizer with Lockup plus Dimension Weed Control] – Providing the Nutrients Needed for a Beautiful Lawn
- 7 [phosphorus] [phosphate] free
- 8 [xx%] readily available nitrogen
- 9 All the fertilizer nutrients your lawns needs for spring
- 10 Builds [strong] deep roots [to retain water] [to protect from drought and heat] [to endure heat drought] [for better heat and drought tolerance]
- 11 Builds strong deep roots for a thick green lawn [turf]
- 12 Builds stronger roots [for maximum drought resistance] [for maximum greening] [for maximum water absorption]
- 13 Deeper roots retain water to protect from heat and drought
- 14 Deeper stronger roots means less watering needed
- 15 Feeds [and strengthens] root systems without burning your lawn

- 16 Fertilizes to fill in bare spots [and provide plush green lawns]
 17 Fertilizes to provide rich color [and vigorous growth]
 18 Fertilizes to provide rich color and strengthens root systems without burning your lawn [turf]
 19 Great results first season of use –guaranteed
 20 Grow a thicker greener lawn with less water
 21 Grows [strong] [deep] roots to protect from heat and drought
 22 Helps lawns retain water to protect against heat and drought
 23 If the fertilizer guarantee contains iron the following statement must appear [Note] [Notice]
 This product contains the secondary nutrient iron Iron may stain concrete surfaces and should not
 be applied on dry or water dampened concrete and should be removed from these areas promptly
 after application by sweeping or blowing Do not wash off with water
 24 Improves soil fertility
 25 Improves water absorption [in turf]
 26 Keeps lawn strong during summer s heat
 27 Larger Roots / Greener Lawn
 28 Less watering [drought resistant] due to [stronger] [deeper] roots
 29 No burning when used as directed
 30 No phosphate [Less Negative Impact On Our Waterways] (for use when fertilizer analysis has
 0 phosphate)
 31 No Phosphate [Helps Protect Our Waterways] (icon)

NO PHOSPHATE LESS NEGATIVE IMPACT ON OUR WATERWAYS [LOGO]

- 32 N P K
 33 Promotes rapid root growth
 34 Promotes root growth for a thicker greener lawn [turf]
 35 Protects & [and] strengthens for a better spring lawn [turf]
 36 Provides your soil with nutrients
 37 Restores nutrients to your soil
 38 Restores nutrients to your soil [for a quick spring green-up]
 39 Strengthens lawn against summer heat
 40 Strengthens lawns against heat and drought
 41 Strong[er] roots [can] [will] absorb [more] water [better] [with less effort]
 42 Zero phosphate [Less Negative Impact On Our Waterways] (for use when fertilizer analysis has
 0 phosphate)
 43 All the fertilizer nutrients your lawns needs for spring
 44 [Turf Fertilizer with Lockup plus Dimension Weed Control] produces brilliant turf color
 45 Promotes rapid root growth
 46 Promotes root growth for a thicker greener turf

Claims regarding Slow Release Fertilizer Properties

- 1 Consistent [Reliable] controlled release nitrogen
 2 Consistently produces excellent turf quality
 3 Effective and efficiently controlled fertilizer
 4 Fertilize once for the whole season – Feeds [and greens] with slow release fertilizer for up to 3
 months [12 weeks]
 5 Feeds turf up to 12 weeks
 6 Feeds [greens] [strengthens] [thickens] turf for up to 3 months [12 weeks]
 7 Extended time release feeding of nitrogen lasts into summer

- 8 Fertilize once for the whole season
- 9 Homogeneous Fertilizer
- 10 Composite Technology® Fertilizer
- 11 Composite Technology® is a registered trademark of Lebanon Seaboard Corporation
- 12 [Turf Fertilizer with Lockup plus Dimension Weed Control or This product] feeds and greens with [slow release] fertilizer [for up to 3 months] [12 weeks]
- 13 Feeds your lawn [turf] up to 12 weeks
- 14 Greens up to 3 months [12 weeks]
- 15 EXPO® is a registered trademark of Lebanon Seaboard Corporation

- 20 Lebanon Pro® is a registered trademark of Lebanon Seaboard Corporation
- 21 Lebanon Turf
- 22 No excessive top growth
- 23 Patented controlled release nitrogen for continuous feeding
- 24 Quick green up [green up] and consistent brilliant turf color [for up to 3 months]
- 25 Quick and continuous greening for up to 3 months [12 weeks]

- 26 (Number symbol as shown in circle)
- 27 [1 to 12] Feeds your lawn up to [12] [weeks] [months]
- 28 [Turf Fertilizer with Lockup plus Dimension Weed Control or This product] feeds and greens with [slow release] fertilizer [for up to 3 months] [12 weeks]
- 29 [xx%]slowly available nitrogen
- 30 Change to a more efficient top performing fertilizer
- 31 Continuous feeding [for] [up to] [12 weeks]
- 32 Extended time release feeding of nitrogen lasts into summer
- 33 Featuring both immediate release and controlled release nutrients
- 34 Featuring MESA® Slow Release Nitrogen
- 35 Feeds [and greens] with slow release fertilizer for up to 3 months [12 weeks]
- 36 Feeds [greens] [strengthens] [thickens] your lawn for up to 3 months [12 weeks]
- 37 Feeds [lawns] for 3 months'
- 38 Feeds [your] [the] lawn [for 3 months] [all season]
- 39 Feeds your lawn [turf] up to 12 weeks
- 40 Fertilize once for the whole [growing] season
- 41 Get spectacular results with an enhanced efficiency fertilizer guaranteed to deliver

XX	XX	XX
Nitrogen (N)	Phosphorous (P)	Potassium (K)
Contains Timed Release Nitrogen for growing a thick green lawn [Stimulates growth and encourages a thick green lawn]	Improves Root [Improves root growth and Plant Storage Capacity]	Improves Plant Hardiness & Drought Resistance

Claims regarding GreenSmart Fertilizer Properties

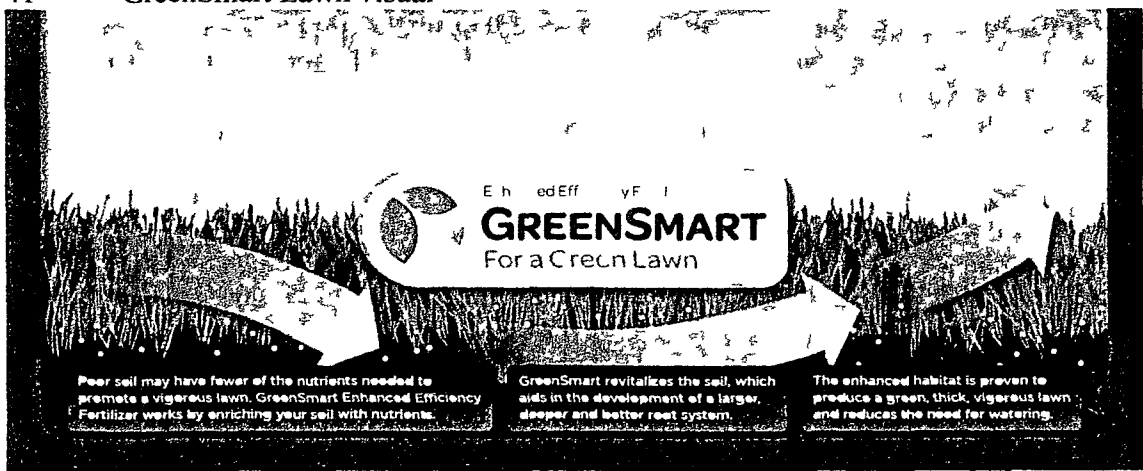

- 1 GreenSmart Enhanced Efficiency Fertilizer for a Green Lawn
- 2 [contains] [with] GreenSmart
- 3 GreenSmart
- 4 GreenSmart (logos)
- 5 20% less nutrients required for the same great turf results [with GREENSMART Enhanced Efficiency FertilizerTM]
- 6 Enables turf to use nutrients more efficiently
- 7 Enhanced Efficiency Fertilizer

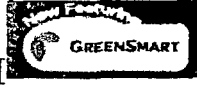

8 GREENSMART Enhanced Efficiency Fertilizer™ for Green Turf (logo)
 9 [GreenSmart Enhanced Efficiency Fertilizer] Improved nutrient release and absorption into the
 lawn [turf] allows 20% less nutrients to be applied while still providing [a] quality lawn [turf]
 10 GREENSMART Enhanced Efficiency Fertilizer™ for Green Turf and Design is a trademark of
 Lebanon Seaboard Corporation
 11 GREENSMART Enhanced Efficiency Fertilizer™ is a trademark of Lebanon Seaboard
 Corporation
 12 GREENSMART Enhanced Efficiency Fertilizer™ and Design logo is a trademark of Lebanon
 Seaboard Corporation
 13 GREENSMART Enhanced Efficiency Fertilizer[™] enhances poor soil creating an environment in
 which turf can thrive GREENSMART Enhanced Efficiency Fertilizer[™] produces thick green
 turf
 14 GREENSMART Enhanced Efficiency Fertilizer[™] nourished turf is more robust because the
 root systems are larger deeper and better developed Vigorous roots mean[s] the turf is hardier
 and better able to tolerate the stress that comes with heat and drought
 15 GREENSMART Enhanced Efficiency Fertilizer[™] produces thick green turf
 16 [GREENSMART Enhanced Efficiency Fertilizer[™]] Improved nutrient release and absorption
 into the turf allows 20% less nutrients to be applied while still providing quality turf

- 17 20% less nutrients required for the same great lawn [turf] results [with GreenSmart Enhanced Efficiency Fertilizer]
- 18 A high quality product made with GreenSmart
- 19 Because your grass is better able to absorb and use the nutrients and moisture provided by the surrounding soil less fertilizer ingredients are needed
- 20 Better lawn nutrition [means] [results in] stronger heartier grass
- 21 Boosted root development helps retain water to protect against heat and drought, so less watering is needed
- 22 Enables lawns [turf] to use nutrients more efficiently
- 23 Enhanced Efficiency Fertilizer
- 24 Enhances nutrient absorption
- 25 Enriches soil to promote a vibrant hardy lawn [turf]
- 26 Enriches soil nourishing [lawn] to become stronger and more able to withstand stresses like drought — so you can water less
- 27 Fertilizers with GreenSmart represent a new class of lawn care treatment options
- 28 For the results you want – for the neighborhood you can be proud of
- 29 Good nutrition is an essential part of being personally fit, and a big part of a quality lawn too
- 30 GreenSmart [provides] [adds] nutrients where they are needed most stimulating root growth and improving the efficiency of the lawn s natural root system
- 31 GreenSmart and design is a trademark of Lebanon Seaboard Corporation
- 32 GreenSmart enhances poor soil creating an environment in which lawns [turf] can thrive
- 33 GreenSmart enhances soil habitat to improve nutrient absorption Better plant nutrition means stronger heartier plants
- 34 GreenSmart helps build strong plants that need less watering because stronger flourishing lawns are more able to withstand heat and drought
- 35 GreenSmart helps reduce lawn stress due to heat and drought
- 36 GreenSmart helps revitalize soil making more [conventionally] [commonly] [normally] occurring nutrients available
- 37 GreenSmart introduces beneficial nutrients that promote stress-resistance in [plants] [lawns]
- 38 GreenSmart is an exclusive nutrient-rich formula that promotes plant quality
- 39 GreenSmart is rich in essential nutrients [plants] [lawns] need
- 40 GreenSmart is rich in essential soil nutrients plants need for optimal plant quality
- 41 GreenSmart Lawn visual

- 42 GreenSmart nourished lawns [turf] are more robust because their root systems are larger deeper and better developed Vigorous roots mean[s] the lawn [turf] is hardier and better able to tolerate the stress that comes with heat and drought
- 43 GreenSmart produces thick green lawns [turf]
- 44 GreenSmart promotes a lawn that s heartier and better able to sustain itself
- 45 GreenSmart promotes better water retention to protect against heat and drought
- 46 GreenSmart provides lawns [turf] with nutritional support to help promote and maintain overall plant vigor resulting in a beautiful green lawn
- 47 GreenSmart provides nutritive benefits to the [lawn][plants] [turf] to enhance nutrient reception
- 48 GreenSmart Look for it in quality lawn and garden products
- 49 GreenSmart s nutrients stimulate soil habitat efficiency and promote development of deeper roots for a lawn that needs less watering and produces grass that s hearty and drought resistant
- 50 Helps lawns [turf] retain water to protect against heat & [and] drought
- 51 Improves drought resistance
- 52 Improves lawn s [turf s] ability to absorb water & [and] nutrients
- 53 Improves water conservation by building strong roots and more stress tolerant plants
- 54 Increase nutrient up take in grass [lawns] [turf] up to 20% [with GreenSmart Enhanced Efficiency Fertilizer]
- 55 Lawn[s] [turf] [and plants] nourished with [company name s] GreenSmart are [is] able to tolerate the stress from heat and drought GreenSmart produces large deep and well developed root systems that can retain water This enables lawns [turf] [and plants] to withstand stressful conditions
- 56 Lawns with soil that s flourishing have decreased threat of weed infestation
- 57 Less watering needed
- 58 Less watering needed drought resistant [lawn] [turf]
- 59 Makes it easier for lawns [turf] to absorb soil nutrients
- 60 More efficient nutrient delivery providing similar results with less nitrogen than traditonal fertilizers
- 61 More efficient nutrient delivery requires less nitrogen inputs
