DIRECTIONS

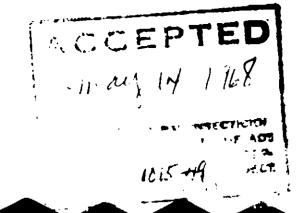

LACCO PENTA WEED KILLER is prepared for use as a top kill, non-selective, contact herbicide only. Non-crop areas such as roadsides, hi, hway margins, right of ways, around commercial buildings, power plants, storage yards, and other installations, fence lines, parkways and other similar non-crop areas. For best results, use a spray, wetting the plants to the point of run-off. Do not apply to or allow this product to contact edible plants or other desirable vegetation.

Do not contaminate water used for irrigation or domestic purpose. Do not apply to areas underlined by roots of desirable trees and shrubs. Avoid spray drift to desirable plants. Coarse sprays are less likely to drift.

This product is toxic to fish and wildlife. Keep out of lakes, ponds, or streams. Do not contaminate water by cleaning of equipment, or disposal of wastes.

ANNUAL BROAD LEAF WEEDS: 1 gallon LACCO PENTA WEED KILLER in 20 gallons diesel oil or 6 gallons diesel oil plus 14 gallons water when weeds are 2 to 3 inches high.

ANNUAL AND PERENNIAL GRASSES AND PERENNIAL BROAD LEAF WL'EDS: 1 gallon LACCO PENTA WEED KILLER in 20 gallons diesel oil or 6 gallons diesel oil plus 14 gallons water when new growth first appears. Repeat when regrowth is 2 to 3 inches long until control is complete.

DC-5000 ALGAECIDE

ACTIVE INGREDIENTS: n-Alkyl (50%C14, 40%C12, 10% C16) dimethyl benzyl ammonium chloride 10.00%, Ethanol 2.50% Tetrasodium salt ethylenediaminetetraacetic acid .25% INERT INGREDIENTS: Water 87.25% Total: 100.00%

GAUTION KEEP OUT OF REACH OF CHILDREN See additional versings on right panel.

DC-5000

The presence of algae in swimming pool causes objectable cloudiness, odor, color and increased chlorine demand of the water. The use of OPIE DC-5000 ALGAECIDE will help maintain the water in a clean condition.

OPIE DC-5000 ALGAECIDE is compatible with the usual water treatment chemicals. By controlling algae growth with OPIE DC-5000 ALGAECIDE, the chlorine demand of the pool may be significantly reduced.

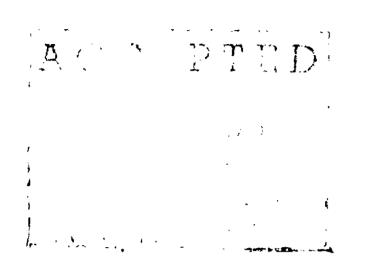

Undiluted OPIE DC-5000 ALGAECIDE CONCENTRATE may cause skin irritation or damage to the eyes. Harmful if swallowed. Avoid contact with skin and eyes. Do not take internally. In case of contact with skin or eyes, flush immediately with plenty of water. For eyes, get immediate medical attention. Avoid contamination of food.

OPIE DC-5000 ALGAECIDE is nontoxic to humans in recommended pool dilutions.

Rinse empty container thoroughly with water and discard it.

GUARDEX ALGAE CONTROL

DIRECTIONS FOR USE

_____ 28 oz

24 oz.

INITIAL DOSE: 16 ounces Guardex Algae Control per 20,000 gallons of water.

MAINTENANCE DOSE: 4 ounces Guardex Algae Control per 20,000 gallons of water.

Apply by adding directly to pool water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose weekly during swimming season.

20 oz. For best results use in conjunction with Guardex Pool Chlorine Concentrate. Maintain the prescribed chlorine residual level. If algae problems become acute, consult your local authorized Guardex dealer
