DIRECTIONS FOR USE

Always use a good insecticide sprayer designed for the specific application. Spray into space to kill flying insects. Spray surfaces as directed to kill crawling insects. Follow directions for best results.

INDOOR APPLICATION:

To Kill Roaches, Waterbugs, Silverfish, Crickets, Spiders, Centipedes, Sowbugs Apply directly into infested areas and onto infested surfaces. Contact as many insects as possible. Where possible, spray heavily all cracks, crevices, under cabinets, sinks, around drains, floors, and any place where these pests crawl, nest or breed. Repeat weekly or as needed to maintain lasting control.

To Kill Ants Spray along ant trails, at nests, porch landings, building supports, baseboards, and the sides of doors and windows. Spray into all openings from which the ants emerge. Repeat as necessary.

To Kill Flies, Mosquitoes, Gnats, Small Flying Moths, Wasps. Discharge spray into cracks, under furniture, and upward in center of room. Spray at the rate of 1/2 oz. per 1000 cu. ft. of room space. For Wasps, application to nests should be made in the evening when insects are at rest. Spray into hiding and breeding places to contact as many insects as possible. Do not remain in treated area. Leave room closed for ten minutes. Ventilate thoroughly before re-entry. Repeat as needed.

To Kill Carpet Beetles: The pest is to be directly contacted with spray to obtain adequate control. In case of upholstered furniture, the interior as well as exterior should be thoroughly treated. Both the top surface and underside of rugs should be thoroughly treated. Shelves, closets, areas under furniture and where ever these insects are seen or suspected should be treated. Repeat as necessary.

To Kill Brown Dog Ticks: The pest is to be directly contacted with the spray. Apply the spray liberally to floors, floor coverings, bases of walls, cracks, crevices and especially sleeping area of animals. The bedding of the animal quarters should be thoroughly treated and allowed to dry before replacing. Repeat as necessary.

To Kill Clothes Moths: Brush and air garments. Spray chest walls and floor thoroughly. Spray clothing completely under lapels, pleats, seams and in cuffs. Keep spray one foot from garment when spraying. Repeat in thirty days.

To Kill Bedbugs: Spray both sides of mattress liberally, especially tufts and seams. Dismantle bed. Spray joints, cracks, and other hiding places, such as baseboards and window trim. Repeat as necessary.

To Kill Fleas: Fleas infesting premises can be controlled quickly and effectively by spraying floors and cracks of the infested area. Fleas lurk in carpet and upholstered furniture. Spray liberally in these areas, as well as along baseboards, wall cracks and sleeping quarters of animals. Repeat as necessary.

OUTDOORS:

To Kill Flies, Mosquitoes and Gnats on the Patio or Back Yard. Standing upwind of the area to be sprayed, spray area to be treated. Use enough material to adequately cover the area. Also, treat shrubbery and other areas where these insects hide.

Application: For Space Spraying, adjust the nozzle faucet lever to the position shown to produce a very fine cloud of mist. For best results, before spraying close all openings and turn off air conditioning and ventilating systems.

CAUTION

Harmful if swallowed. Do not apply directly to food. Cover or remove all food and food handling surfaces. Do not apply as a space spray while food handling operations are in progress. This product may be applied as a coarse wet contact spray while food handling is in progress when this product is used following all the directions and precautions on this label.

Keep this product out of direct sunlight. Remove pets, birds, and cover fish aquariums before spraying.

ENVIRONMENTAL CAUTIONS:

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not use immediately after chemical application or disposal of wastes. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Apply this product only as specified on this label.

WARNING! FLAMMABLE! KEEP AWAY FROM HEAT OR OPEN FLAME.

Do not use empty container. Destroy after pouring out or crushing. Burn or discard in a safe place away from water supply.
