CAMICIDE BUG REPELLENT

SPRAY FROM ANY ANGLE

KEEPS AWAY
MOSQUITOES • CHIGGERS (RED BUGS)
TICKS • FLEAS • GNATS • BITING FLIES

CAUTION: KEEP FROM REACH OF CHILDREN
See back panel for other cautions

E.P.A. REGISTRATION NO. 991-28

FISHERMEN • PICNICS • SWIMMING
CAMPERS • PATIOS • SUN BATHERS

DIRECTIONS: Mist lightly onto surfaces to be protected. Spray from 12 to 18 inches away. It is not necessary to wet surfaces—just a light mist.

FOR CLOTHING: Treat shoes, socks and areas around openings in clothing where insects may enter. Only those areas actually sprayed can be expected to repel ticks and chiggers, but spray carefully.

FOR FLEAS: CAMICIDE Repellent will repel fleas from treated exposed skin surfaces.

FOR SKIN AREAS: Apply directly, taking care to avoid spraying eyes and mouth. To protect face, spray repellent into palm of hand then spread on cheeks, throat and other facial parts, except eyes and lips. Repeat treatment as needed.

WARNING: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° F. may cause bursting. Never throw container into fire or incinerator. This material is a solvent for paint, lacquer and some plastics, such as sunglasses, watch crystals, etc.

ACTIVE INGREDIENTS

2.70 % N, N-Diethyl-meta-toluamide
0.30 % other isomers.
3.00 % N-octyl Bicycloheptane Dicarboximide
0.75 % 2, 3, 4, 5-Bis (2-butylene) tetrahydro-Z-furaldehyde.
0.75 % Di-N-propyl isocinchomeronate.

INERT INGREDIENTS

32.50 % Isopropanol
30.00 % Trichlorofluoromethane.
30.00 % Dichlorodifluoromethane.

NET CONTENTS 7 OZ. AV.
