APPLICATIONS WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

Limited to Crack and Crevice Treatment Only. Apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where roaches hide. Care should be taken to avoid depositing the product onto exposed surfaces or into the air by blowing the material into the air. Avoid contamination of food or food processing areas.

Application of this product to the food areas of food handling establishments should be limited to crack and crevice treatment only.
