UNDER THE FEDERAL INSECTICIDE
FUNGICIDE AND RODENTICIDE ACT
FOR ECONOMIC POISON REGISTERED
ED UNDER NO. 998-42 SUBJECT
TO ATTACHED COMMENTS.

DIRECTIONS

In using this product the basic idea is to treat the harbourages and surfaces over which insects crawl or on which they alight. The invisible residue left on the treated surfaces persists for several weeks or more and kills insects which come in contact with it. When sprayed into harbourages, cracks and crevices where roaches, carpet beetles and other insects breed it also kills by fumigant action. Also spray directly on insects when possible.

ROACHES AND WATERBUGS

Thoroughly spray hiding and nesting places such as cracks and crevices in walls, around door frames, baseboards, behind and under refrigerators, sinks, stoves, and fixed appliances. Repeat treatment as required.

ANTS

Apply to the ant trails and the surfaces where ants are seen. Treat ant cracks or crevices from which ants emerge, doorsills and windowsills. Repeat treatment periodically as required.

SILVERFISH

Apply the spray to the nesting and breeding places which are usually in damp locations. Give special attention to storage areas, book shelves, and around plumbing fixtures. Repeat as needed.

CARPET BEETLES

Spray cracks and crevices around baseboards where woolen lint and dust accumulates and in which carpet beetle breed. Treat other comparable breeding places. Also spray infested floor areas and infested carpet areas. Repeat as necessary.

PHILADELPHIA, PENNA.**

CAUTION

Contents of this can are under pressure. Do not store near heat, in direct rays of sun, in closed cars in the sun or in any other location where temperatures will exceed 110 deg. F. If exposed to high temperatures excessive pressure will develop and may cause can to burst as with any aerosol bomb. Do not spray near heat or flame as spray is inflammable. Do not puncture or incinerate can.

Keep out of reach of children. Avoid contamination of foodstuffs. Do not use on humans, pets or plants. Not to be used as a space spray. Avoid inhalation of spray. Avoid skin contact. May be absorbed through skin. In case of contact wash immediately with soap and water.

Active Ingredients

- Petroleum Solvent93.738%
- MALATHION (O, O-Dimethyl
Dithiophosphate of Diethyl
Mercaptosuccinate) 3.000%
- N-Octyl bicycloheptene
dicarboximide187%
- Pyrethrins075%
- Inert Ingredients 3.000%
