

TERMITE CONTROL — SOIL TREATMENT

A 1% solution is acceptable, although for longer lasting results a 2% solution is recommended. See dilution chart for mixing.

PRE-CONSTRUCTION SOIL TREATMENT

Apply 1 gallon mixed solution per 10 square feet, under slab type construction and under attached porches.

Apply 2 gallons per 5 lineal feet to critical areas such as along the inside of foundation walls, and around utility entrances and interior partition foundation walls.

SLAB TYPE CONSTRUCTION

Apply 2 gallons per 5 lineal feet along the outside of the foundation, using a trench ~~to a depth of the foundation~~ ^{NOT DEEPER BELOW THE TOP OF FOOTING}. If trench is more than 18" see below for dosage. Saturate backfill soil as well as trench.

CRAWL SPACE HOMES & HOMES WITH BASEMENT

Apply 2 gallons per 5 lineal feet in a trench along the outside of foundation walls, including entrance platforms and porches, where foundation is not over 15 to 18 inches deep. If over 18 inches, but not over 30 inches, then use 4 gallons per 5 linear feet; ~~over 30 inches deep,~~ Saturate backfill soil as well as trench.

Apply same treatment along inside foundation walls, around piers and entrances. Where crawl-space is dirt, also apply solution over the entire area using 1 gallon per 10 sq. ft.

SUPERIOR TERMICIDE # 740

CONTAINS 8 LBS. CHLORDANE PER GALLON

FOR THE CONTROL OF TERMITES, ANTS, ROACHES, WATERBUGS, SILVERFISH, AND SIMILAR CRAWLING INSECTS.

ACTIVE INGREDIENTS

Technical Chlordane* 74%

INERT INGREDIENTS

..... 26%

*Consists of 59.2% Octachloro-4-methano tetrahydroindane and 14.8% related compounds

CAUTION: KEEP OUT OF REACH OF CHILDREN SEE OTHER CAUTIONS ON PANEL RIGHT

DILUTION CHART

For a 3% solution, dilute 3 3/4 oz. (7 1/2 tsp.) per gallon of water.
For a 2% solution, dilute 2 1/2 oz. (5 tsp.) per gallon of water.
For a 1% solution, dilute 1 1/4 oz. (2 1/2 tsp.) per gallon of water.

GENERAL DIRECTIONS

For ANTS, ROACHES, WATERBUGS, SILVERFISH and similar crawling insects, spray or brush a 2% - 3% solution of TERMICIDE around baseboards, drain pipes, plumbing fixtures, doorsills, windowsills, heat ducts, electrical outlets, and in all cracks and crev-

ices and surfaces where insects hide and travel.
APPLY ONLY AS A SPOT TREATMENT INSIDE OF HOME
Thoroughly spray outdoor ant hills and their trails.
BUT NOT IN AREAS WHERE FOOD CROPS ARE GROWN

CAUTION: Harmful if swallowed. Keep out of reach of children and pets. Contact with skin can

cause toxic symptoms. Avoid breathing of spray
DO NOT CONTAMINATE FOODS, DISHES OR COOKING UTENSILS
mists. In case of skin contact, wash with soap and water. If swallowed, give emetic and call physician.
