..... 9.35%

Amount of spray Mixture Desired	Amount of SUPERIOR Concentrate to Use for 0.25% spray	Amount of SUPERIOR Concentrate to Use for 0.50% spray
1 gallon	1-1/3 ounce	2-2/3 ounce
3 gallons	4 ounce	8 ounces
5 gallons	6 ounce	12 ounces

**Warning: KEEP OUT OF REACH OF CHILDREN**  
SEE OTHER CAUTIONS ON LEFT PANEL

**MIXING AND USE DIRECTIONS**

SUPERIOR CONCENTRATE 2E insecticide mixes readily with water or oil. Dilute the required amount of CONCENTRATE 2E in water or in a base oil such as deodorized kerosene or No. 2 fuel oil. Mix according to the shown above table to obtain the desired concentration of 0.25% or 0.50% of the active chemical. Use the higher concentration (0.50%) to quickly reduce heavy cockroach infestations and the lower concentration (0.25%) on light infestations.

Use as a spot treatment by applying as a coarse spray or with a paint brush, to areas where cockroaches normally are found. These areas include dark corners of rooms and closets, at the base of walls, in cracks in the wall, behind baseboards, behind and beneath sinks, refrigerators, stoves and cabinets and around drainpipes. Apply in a manner to avoid spray or mist contacting food, feedstuff and water supplies. Dishes and food handling utensils should be thoroughly washed in soap and water if they have become contaminated by the application of this product. Repeat treatment as needed. **NOTE:** A period of 4 to 7 days after treatment is normally required for maximum effect on cockroaches.

Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
