

SUPERIOR DURSBAN® 2E EMULSIBLE CONCENTRATE

APPLICATIONS WITHIN FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS

Limited to Crack and Crevice Treatment Only - Apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where roaches hide. Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

Applications of this product in the food areas of food handling establishments, other than as a crack and crevice treatment are not permitted.

May be fatal if swallowed.
May be absorbed through skin.
Do not get in eyes or on skin.
May be irritating to the eyes and skin.
Wash contaminated clothing before re-use.

Do not wear contaminated clothing. Wash thoroughly after handling. Avoid breathing spray particles. Handle concentrate in ventilated area. Keep away from food, feed, stuffs and water supplies. Do not let children or pets contact.

Treated area until thoroughly dry. Plush contaminated eyes and skin with plenty of water and get medical attention. Promptly crush empty containers and bury them in locations isolated from water.

NOTE TO PHYSICIAN:

DURSBAN insecticide is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

Keep container closed and away from heat or open flame. COMBUSTIBLE LIQUID

MIXING AND USE DIRECTIONS

SUPERIOR CONCENTRATE 2E insecticide mixes readily with water or oil. Dilute the required amount of CONCENTRATE 2E in water in a base oil such as deodorized kerosene or No. 2 fuel oil. Mix according to the shown above table to obtain the desired concentration of 0.25% or 0.50% of the active chemical. Use the higher concentration (0.50%) to quickly reduce heavy cockroach infestations and the lower concentration (0.25%) on light infestations.

Use as a spot treatment by applying as a coarse spray or with a paint brush, to areas where cockroaches normally are found. These areas include dark corners of rooms and closets, at the base of walls, in cracks in the wall, behind baseboards, behind and beneath sinks, refrigerators, stoves and cabinets and around drainpipes. Apply in a manner to avoid spray or mist contacting food, feedstuffs and water supplies. Dishes and food handling utensils should be thoroughly washed in soap and water if they have become contaminated by the application of this product. Repeat treatment as needed. NOTE: A period of 4 to 7 days after treatment is normally required for maximum effect on cockroaches.

Dursban is a trademark of THE DOW CHEMICAL COMPANY U.S. Patent No. 3,244,586

Do not use in edible products - areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Seller warrants that the product conforms to the chemical description and is reasonable for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
