INSTRUCTIONS FOR USE

CADDY is a liquid Cadmium Compound readily soluble in water which can be applied to Greens uniformly with assurance that the Cadmium is spread more evenly over the grass.

DIRECTIONS

For the control and prevention of Dollar Spot and Copper Spot: Apply 1 ounce of CADDY per 1000 sq. ft. at 10 day intervals throughout the turf disease season. Amount of water recommended: Dilute CADDY with the amount called for by the type of sprayer being used. The amount of water is not critical as long as sufficient water is used to assure uniform coverage.

Clean sprayer thoroughly with water after spraying with CADDY.

NET CONTENTS - ONE GALLON.

Patent Pending

Caddy

Liquid Cadmium Turf Fungicide

**FOR CONTROL OF
DOLLAR SPOT & COPPER SPOT**
