## STORAGE AND DISPOSAL

**Prohibitions**—Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse container.

**Pesticide Disposal**—Pesticide, spray mixture, or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

**Container Disposal**—Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place.

**General**—Consult federal, state or local disposal authorities for approved alternative procedures such as limited open burning.

## PRECAUTIONARY STATEMENTS

### CAUTION

May be harmful if swallowed; avoid contact with eyes, skin or clothing, avoid breathing spray mist. In case of contact wash off skin or eyes immediately, with plenty of water. For eyes call a physician.

Do not take alcohol before or after exposure to this product. Contact may cause allergic reactions.

This product is toxic to fish. Keep out of any body of water. Do not apply where conditions favor drift from areas treated.

Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Do not graze treated areas or feed clippings to livestock.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SPOTRETE-F prevents the infestation of common turf diseases such as Dollar Spot and Brown Patch if sprayed at regular weekly intervals throughout the summer season.

SPOTRETE-F will control Snow Mold when 2 applications are made during Fall through Spring seasons.

SPOTRETE-F will control Dollar Spot and Brown Patch when applied at a higher dosage to turf already infested with these diseases.

**PREVENTIVE DOSAGE:**

- A. For Dollar Spot and Brown Patch: 3 $\frac{3}{4}$  ozs. per thousand square feet at seven day intervals throughout the warm season.
- B. For Snow Mold 12 ozs. per thousand square feet late in the fall prior to snow fall.

**CURATIVE DOSAGE:**

- A. For Dollar Spot and Large Brown Patch: 7.5 ozs. per thousand square feet. Begin when disease first appears. Repeat at 7 to 10 day intervals, as necessary.

**AMOUNT OF WATER**

For uniform coverage use 5 to 10 gals. per thousand square feet.

Shake Well Before Using
