

### APPLICATION RATES

**GREENS:** Two quarts of SWK diluted in 100 to 200 gallons of water treats one acre.

(1½ oz. in 5 gal. water per 1000 sq. ft.)

**FAIRWAYS & LAWNS:** Three quarts of SWK diluted in 40 to 60 gallons of water will treat one acre.

(2¼ oz. in 1 gal. water per 1000 sq. ft.)

### WHEN TO APPLY

SWK is best applied during Spring or Fall.

Do not re-use shipping containers: destroy by crushing and burying where possible.

Do not transport or store near insecticides, fungicides, fertilizers, or seeds. Avoid contamination of water intended for irrigation or crops or domestic purposes.

**WARNING** — This product is toxic to fish. Keep out of lakes, streams or ponds. Apply this product only as specified on this label.

**KEEP FROM FREEZING**

U.S.D.A. REG. No. 1001 — 35

KERNS  
SWK

LIQUID

## SELECTIVE WEED KILLER FOR GOLF COURSES AND OTHER ORNAMENTAL TURF AREAS.

For the control of Chickweed (Common and Mouse Ear Chickweed), Knotweed, Clover, and Common Plantain in Bentgrasses, Bluegrasses, Fescues and their mixtures.

ACTIVE INGREDIENT: Potassium Salt of  
2-(2-Methyl-4-Chlorophenoxy) propionic acid\* (MCP) ..... 25.9%  
INERT INGREDIENTS ..... 74.1%

TOTAL 100.0%

2-(2-Methyl-4-Chlorophenoxy) propionic acid ..... 22.0%  
\*Equivalent to 2 lbs. of 2-(2-Methyl-4-Chlorophenoxy) propionic acid per gallon

NET CONTENTS GALLON

**CAUTION:** Keep out of reach of Children

(See back panel for additional cautions)

### GENERAL INFORMATION

SWK should be regarded as a compound related to 2, 4-D. However, unlike 2, 4-D it can be used with reasonable care on Bentgrass Greens and Fairways without injury to the Bentgrasses. SWK will control Chickweeds (Common and Mouse Ear), Clover, and Knotweed in the Bentgrasses as well as in Bluegrasses, Fescues and their mixtures. SWK is effective at the recommended rate of application but results are not immediately visible as SWK is slow acting.

Make sure of soil moisture before applications are made, if a drought occurs, water area well before treating. Do not apply on newly seeded turf until after the second mowing. Avoid cutting or mowing turf for at least 24 hours before and after spraying. Do not apply during periods of hot, humid weather or if a heavy rainfall is expected.

For best control, applications should be made during Spring or Fall when the good grasses are vigorous and the unwanted weeds are young.

**CAUTIONS:** Avoid contact with skin, eyes or clothing. Avoid inhaling spray mist.

Avoid spray drift to susceptible plants as this product may injure tomatoes, beans, peas, other vegetables, legumes, ornamentals, etc. (Coarse sprays are less likely to drift). Do not use in or near greenhouses. Do not use same spray equipment for other purposes if traces of this product in such equipment are likely to be harmful to sprayed vegetation.

**ANTIDOTE:** if taken internally induce vomiting and call a Physician at once.

KERNS

SWK

LIQUID

## SELECTIVE WEED KILLER FOR GOLF COURSES AND OTHER ORNAMENTAL TURF AREAS.

### GENERAL INFORMATION

SWK should be regarded as a complete weed killer. However, on Bentgrass Greens and Fairways without injury to the Bentgrasses, SWK will control Poa weeds (Common and Marsh Poa), and other weeds on the Bentgrasses, as well as on Bluegrasses, Fescues and other grasses. SWK is effective at the recommended rate of application, but results are not immediately visible as SWK is slow acting.

Make sure of soil moisture before application. If a drought occurs, water area well before treatment. Do not apply on newly seeded turf until after the second mowing. Avoid cutting or mowing turf for at least 24 hours before and after spraying. Do not apply during periods of hot, dry weather or if a heavy rainfall is expected.

For best control, apply one year in Spring and one year in Fall when the good grasses are vigorous and the unwanted weeds are young.

**CAUTIONS:** Avoid contact with eyes, nose, mouth and skin. Avoid breathing dust.

Do not apply to lawns, lawns, or other areas where children or pets play. Do not apply to lawns, lawns, or other areas where children or pets play. Do not apply to lawns, lawns, or other areas where children or pets play.

**ANTIDOTE:** If taken internally, induce vomiting and call a physician at once.
