Precautions

Deodorizes and Disinfects in one Operation

Container **Disposal:** Rinse empty container thoroughly with water and discard it.

MAGNOLIA CHEMICAL CO., INC.
2646 Rodney Lane, Dallas, Texas
P. O. Box 20179, 247-7111

FOR USE AS A DISINFECTANT

Sweep up and remove all loose dirt before applying Four-in-One, making sure solution comes in contact with all contaminated surfaces.

To disinfect floors, cellars, basements, toilet rooms, bathrooms, urinals and sinks; clean thoroughly: use 1-3/4 ozs. Four-in-One per gallon of water; mop in regular manner. If it is impractical to mop specific places, use 4 ozs. per gallon of water and spray thoroughly over entire surface.

To disinfect kitchen tables, drainboards, marble, tile, linoleum, limestone, glass, rubber, syrup cans, soda fountains, cooling rooms, refrigerator cars, garbage cans, rinse thoroughly with solution of 1-3/4 ozs. Four-in-One per gallon of water after cleansing in regular manner, allowing contact for ten minutes. All treated food contact surfaces and/or equipment must be thoroughly scrubbed with detergent and rinsed with potable water prior to re-use. For more drastic conditions, such as disinfection of exceptionally dirty urinals and garbage pails, a most thorough cleaning must be done using a heavy-duty cleansing agent such as MAGNOLIA TEL-O-DET, removing all dirt, then make sure Four-in-One solution remains in contact with all contaminated surfaces for ten minutes. Solution utilized contains 1-1/3 ozs. Four-in-One per gallon.

Four-in-One is a broad spectrum germicide effective against both gram negative and gram positive organisms. Four-in-One is recommended for use as a general purpose disinfectant in schools, industries, hotels, motels, restaurants and general business areas.

For use in controlling the spread of athletes foot fungi; 1-1/3 ozs. (1:100 dilution) in one gallon of water is recommended for scrubbing shower room floors, locker room benches, runways, bath mats and other surfaces normally contacted by bare feet.

At a use dilution of 1:100 a claim against Streptococcus pyogenes may be made.
