PYROCIDE BOOSTER CONCENTRATE G

1715 S.E. Fifth Street   Minneapolis, Minnesota 55414

ACTIVE INGREDIENTS:	100%	
Pyrethrins		3%
*Piperonyl butoxide, technical		60%
Petroleum distillate		37%

*Consists of 48% (butylcarbityl)(6-propylpiperonyl) ether and 12% related compounds.

DIRECTIONS

Dilute one part of PYROCIDE BOOSTER CONCENTRATE G with from ten to twenty parts of deodorized base oil. The spray will be effective against the exposed stages of the confused flour beetle, grain weevils, cadelles, and certain other exposed insects infesting food storage areas and food manufacturing plants - including areas and plants devoted to storage and manufacturing of food derived from cereal grains.

Before using a spray made from PYROCIDE BOOSTER CONCENTRATE G, cover or remove all food and feedstuffs. Apply the spray made from PYROCIDE BOOSTER CONCENTRATE G with a sprayer that gives large spray droplets for maximum deposit on walls, boards, boot conveyors, and incracks and crevices. Use one-half to one gallon of dilute spray per 1,000 square feet of surface area.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Cover or remove food and feedstuffs during spraying. In food processing plants do not spray while processing is underway. After spraying in food processing plants, etc., wash with potable water all equipment, benches, shelving and surfaces where exposed food will be handled. Do not apply sprays directly to grain or to flour.

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

Apply this product only as specified on this label. Do not store, pour or spill near heat or open flame. Keep container closed. Mix well in drum before sampling and each use.
