PYROCIDE® Booster Concentrate H, Emulsifiable

RECOMMENDED FOR COMMERCIAL OR INDUSTRIAL USE

8810 Tenth Avenue N. / Minneapolis, Minnesota 55427-4372 U.S.A.

TELEPHONE (612) 544-0341

Effective as a surface spray against exposed stages of Confused Flour Beetles, Grain Weevils, Cadelles, and many other insects infesting grain and food storage plants.

ACTIVE INGREDIENTS:

*Equivalent to 09.60 % (butylcarbityl) (6-propylpiperonyl) ether and 02.40 % related compounds.

**Contains petroleum distillate

Turner petrotegii didettito

- Registered trademark of McLaughlin Gormley King Co.

KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED:

Call a physician or Poison Control Center immediately. Do not induce vomiting because of

aspiration pneumonia hazard.

IF ON SKIN OR CLOTHING: Remove contaminated clothing and wash before re-use. Wash skin with soap and warm water. Get

redical attention if irritation persists.

IF IN EYES: IF INHALED: Flush with plenty of water. Get medical attention if irritation persists. Remove victim to fresh air. Apply artificial respiration if indicated.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed. Contains petroleum distillate. Do not induce vomiting because of aspiration pneumonia hazard. Avoid breathing vapors or spray mist. Avoid contact with skin or eyes. In case of contact, flush with plenty of water. Wash with soap and warm water after use. Obtain medical attention if irritation persists. Avoid contamination of food or feedstuffs.

Do not apply space spray while food processing is underway. Cover or remove all food processing surfaces. Thoroughly wash all food processing surfaces before reuse. After spraying in bakeries, meat packing plants, food processing plants, etc., all benches, shelving, equipment, etc. where exposed food will be handled must be washed with an effective cleaning compound followed by a potable water rinse to remove all traces of contamination. Food processing operations do not have to be stopped while applying a wet spray with care and in accordance with the directions and cautions above in those establishments which do NOT operate under Federal meat, poultry, shell egg grading and egg products inspection programs.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic invertebrates.

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously noticying the local sexage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Dilute with water. Add some water to the sprayer tank first, then add this product, make up to volume with water and agitate the emulsion vigorously until a complete emulsion is obtained. Spray the water emulsion as directed below in grain storage bins, elevator boots, mill walls and floors, etc., paying special attention to cracks, crevices and other insect hiding places.

For making a heavy deposit: dilute one gallon of this concentrate with four gallons of water. The resulting water emulsion should be used fresh the same day, and show a not be allowed to stand overnight or longer.

To obtain a deposit of about 75 mg. of piperonyl butoxide per square foot, use one gallon of the water emulsion per 1,000 square feet of surface. To obtain a deposit of about 100 mg. of piperonyl butoxide per square foot use one and one-third gallons of the water emulsion per 1,000 square foot.

If more frequent applications are to be made, for example, once every two weeks, dilute one plus nine. If daily applications are to be used for contact spraying a more dilute emulsion may be used.

Attailine surfaces such as dement, mortar or calcimined wood or metal may require more frequent applications than neutral surfaces.

This product is to be used with appropriate solvents, carriers, and for pressurized products, propellents, in the manufacture of insecticide sprays.

Please consult technical literature for specific manufacturing suggestions. Formulators who use this product may be responsible for providing data to support their own registrations with the appropriate regulatory agencies.

Mix well in drum before sampling and each use.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Keep container closed.

<u>PESTICIDE DISPOSAL</u>: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other approved State and Local procedures.

Do not contaminate water, food, or feed by storage or disposal.
