

ACCEPTED

MAR 29 1967

UNDER THE FEDERAL INSECTICIDE ACT
FUNGICIDE AND
FOR CONOM
ED UNDER NO. 100-44
TO ACCEPTED

Company

111 Main Street / Miami, Fla.

2-bivalyl-2,2-dimethyl-3-butanol

Instructions: Place 1 to 2 ounces of salt in each of 4 or 5 pans or tin cans. This salt should be placed in a dry area, protected by rats, preferably in a corner leading place. The salt should be placed from children and animals. Be sure to recheck the salt pans. There is no salt in the pans in an of 10 days. The salt should be maintained in the pans for 10 days in order to be effective. Contaminated or spoiled salt should be replaced promptly.

Notes: The same pan may be used for several days. However, it will be necessary to put out more salt in the pans if the salt does not travel as far for 10 to 15 days. The salt should be replaced if it is found to be contaminated or spoiled. Replaced salt should be used immediately. Contaminated salt should be replaced promptly.
