KEEP OUT OF REACH OF CHILDREN

CAUTION

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Do not induce vomiting. Call a physician or Poison Control Center.

IF IN EYES: Flush with plenty of water. Consult a physician if irritation persists.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Harmful if swallowed. Contains petroleum distillate. Do not induce vomiting because of aspiration hazard. Do not apply directly to food. Cover or remove all food and food processing equipment during application. Do not apply sprays while food processing is underway. Food processing operations do not have to be stopped while applying a wet spray with care and in accordance with the directions and cautions above in those establishments which do NOT operate under Federal meat, poultry, shell egg grading and egg products inspection programs. After spraying in meat packing plants, bakeries and other food processing plants, wash with potable water all equipment, benches, shelving, etc., where exposed food will be handled.

Remove pets and cover fish bowls before spraying.

Environmental Hazards

This product is toxic to fish and other wildlife. Do not apply directly to any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes.

Physical or Chemical Hazards

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Space Spray to Kill Houseflies, Mosquitoes, Gnats and Flying Moths: Dilute three parts of concentrate with 97 parts of water (in case of dilution for packaging; ready-to-use products, use distilled water or deionized water only). Mix thoroughly until a uniform, clear emulsion forms. Mist all parts of the room or area at a dosage of one fluid ounce of diluted spray per 1,000 cubic feet of space. Do not remain in treated area. Ventilate the area after treatment is complete. Repeat as needed.

Contact Spray to Kill Cockroaches, Waterbugs, Crickets and the Exposed Forms of Crawling Grain Pests: Dilute four parts of concentrate with 96 parts of water (in case of dilution for packaging read-to-use products, use distilled water or deionized water only). Mix thoroughly until a uniform, clear emulsion forms. For cockroaches, waterbugs, and crickets, apply as a coarse spray to all cracks and crevices in woodwork, underneath sinks, dark places behind pipes and all places where these insects nest, contacting as many insects as possible with the spray. Repeat applications as often as necessary. For grain weevils, cadelles, grain moths, flour beetles and grain mites, apply as a coarse spray to all infested surfaces, insect hiding places, and insect runways at the rate of one gallon of diluted spray on 750 square feet of area. Repeat as necessary.

Do not pack diluted product in cans - brown glass bottles are preferred. This concentrate does not emulsify spontaneously; it must be agitated thoroughly.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Keep container closed.

Pesticide Disposal: Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, State or Local procedures.

Container Disposal: Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and Local procedures.
