JUL 10 2009

Subject: Label Notification(s) for Pesticide Registration Notices 2007-4

Dear Registrant:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated June 2, 2009 for:

EPA Registration 1021-838 Clearmol® Intermediate 6443

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Banza Djapao of my staff at 703-305-7269.

Sincerely,

A handwritten signature in black ink, appearing to be "Linda Arrington".

Subject: CLEARMOL® Intermediate 6443
EPA Reg. No. 1021-0838
Notification Per PR-Notice 2007-4

Dear Sir or Madam:

By Notification, we are updating the storage and disposal statement per PR-Notice 2004-7.

Enclosed are two (2) copies of the label. One (1) copy has changes highlighted.

This amendment is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA." If there are any questions or you need anything further, please contact this office.

Sincerely,

McLAUGHLIN GORMLEY KING COMPANY

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**WARNING**

Harmful if swallowed. Causes substantial but temporary eye injury. Do not get in eyes, or on skin or clothing. Wear goggles, face shield, or safety glasses when handling this material. Wash thoroughly with soap and warm water after handling. Remove contaminated clothing and wash before reuse. Do not contaminate food or feedstuffs.

Do not apply space spray while food processing is underway. Cover or remove all food processing surfaces. Thoroughly wash all food processing surfaces before reuse. After spraying in bakeries, meat packing plants, food processing plants, etc., all benches, shelving, equipment, etc. where exposed food will be handled must be washed with an effective cleaning compound followed by a potable water rinse to remove all traces of contamination. Food processing operations do not have to be stopped while applying a wet spray with care and in accordance with the directions and cautions above in those establishments which do NOT operate under Federal meat, poultry, shell egg grading and egg products inspection programs.

In hospitals, this product is not intended for use in patient rooms.

Remove pets and birds and cover fish aquariums before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic invertebrates. Do not contaminate water when disposing of equipment washwaters. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SPACE SPRAY TO KILL FLYING MOTHS, GNATS, HOUSEFLIES, MOSQUITOES: Dilute three parts of concentrate with 97 parts of water (in case of dilution for packaging ready-to-use products, use distilled water or deionized water only). Mix thoroughly until a uniform, clear emulsion forms. Mist all parts of the room or area at a dosage of one fluid ounce of diluted spray

m/s

per 1,000 cubic feet of space. Do not remain in treated area. Ventilate the area after treatment is complete.

CONTACT SPRAY TO KILL CRICKETS, COCKROACHES, WATERBUGS AND EXPOSED FORMS OF CRAWLING GRAIN PESTS: Dilute 4 parts of concentrate with 96 parts of water (in case of dilution for packaging ready-to-use products, use distilled water or deionized water only). Mix thoroughly until a uniform, clear emulsion forms. For cockroaches, waterbugs, and crickets, apply as a coarse spray to all cracks and crevices in woodwork, underneath sinks, dark places behind pipes and all places where these insects nest, contacting as many insects as possible with the spray. Repeat applications as often as necessary. For Grain Weevils, Cadelles, Grain Moths, Flour Beetles and Grain Mites, apply as a coarse spray to all infested surfaces, insect hiding places, and insect runways at the rate of one gallon of diluted spray on 750 square feet of area.

FOR USE IN HORSE BARN, KENNELS AND OTHER FARM STRUCTURES OR BUILDINGS HOUSING ANIMALS: Dilute this concentrate just prior to use as follows:
0.10% Pyrethrins - Add 4 parts concentrate to 96 parts water.
0.50% Pyrethrins - Add 20 parts concentrate to 80 parts water.

TO KILL GNATS, HORN FLIES, HORSE FLIES, HOUSEFLIES, MOSQUITOES AND STABLE FLIES: Add concentrate to tank and add water to obtain desired dilution. Mix well. Dispense diluted concentrate through automatic spraying system. Set nozzles to deliver one (1) ounce liquid per minute. Locate nozzles to cover maximum 2,000 cubic feet of space. Set timer to operate two three-minute cycles per 24 hours.

Do not pack diluted product in cans - brown glass bottles are preferred. This concentrate does not emulsify spontaneously; it must be agitated thoroughly.

Mix well in drum before sampling and each use.

STORAGE AND DISPOSAL:
Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry place. Keep container closed.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Triple rinse or equivalent promptly after emptying and offer for recycling, if available or reconditioning, if appropriate or puncture and dispose of in a sanitary landfill or by other approved State and Local procedures.

Triple rinse as follows: Empty the remaining contents in to application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times.
