

1021-920

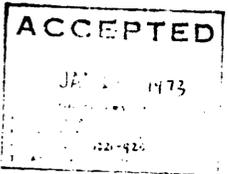

1715 S.E. Fifth Street Minneapolis, Minnesota 55414

MCK Intermediate 1779

ACTIVE INGREDIENTS: Allethrin (allyl homolog of Cinerin I) 4.00%, N-octyl bicycloheptene dicarboximide 25.00%, Petroleum distillate 71.00%

MCK 264, Insecticide Synergist.

DIRECTIONS

FOR MANUFACTURING USE ONLY

This Intermediate is designed for use at 0.5% with approved diluents and other insecticides in the preparation of a liquid insecticidal spray.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contamination of food and feedstuffs. In case of spillage on skin, wash thoroughly with soap and warm water. If splashed into eyes, rinse with water.

This mix is toxic to fish, and other aquatic animals. Do not contaminate any body of water by cleaning of equipment or disposal of wastes.

Drum may be re-used after thorough cleaning.

If received in cool weather allow to warm to room temperature (do not apply heat). Agitate thoroughly before sampling and each use. Keep container closed. Store in a cool place. Do not store, pour or spill near heat or flame.

1021-921

Sample Label (1) Food Additive Petition 6H1946 SYNERGIZED PYRETHRIN AEROSOL, F-6629 For Industrial Use Only Non-Toxic to Humans and Pets

ACTIVE INGREDIENTS: Pyrethrins .50%, Piperonyl butoxide, technical 1.00%, N-octyl bicycloheptene dicarboximide 1.67%, Petroleum distillate 11.83%

INERT INGREDIENTS: 50:50 ratio of dichlorodifluoromethane and trichloromonofluoromethane 85.00%, Total 100.00%

\*Consists of 0.80% (butylcarbityl)(6-propylpiperonyl) ether and 0.20% related compounds. MCK 264 Insecticide Synergist, U.S. Pat. Nos. 2,545,283 and 2,545,287.

DIRECTIONS FOR USE

To Kill Houseflies, Mosquitoes, Flying Moths and Gnats, Accessible Flying Forms of Grain Infesting Insects (such as the Confused Flour Beetle, Angoumois Grain Moth, Mediterranean Flour Moth, Indian Meal Moth and Others), Accessible Flying Forms of Stored Product Pests (such as Carpet Beetles, Tobacco Moth, Drug Store Beetle, Rice Weevil and Others): Close all doors and windows. Determine the number of cubic feet of space to be treated. Point nozzle upward and direct the aerosol mist to all parts of the area to be treated. Fog particularly well in areas in which these insects are most likely to congregate or rest. Fog at the rate of 3 seconds per 1000 cubic feet of space.

Keep the treated area closed if possible for 15 minutes. After treatment, air out thoroughly and sweep up and remove dead insects.

In industrial locations, do not spray closer than 36 inches away from fabrics or upholstery. Spraying closer than as directed above or excessive treatment, may cause damage.

CAUTION

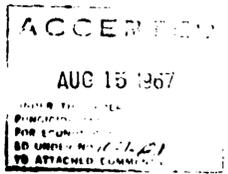

Contents under pressure. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F.

Do not apply directly to food. Cover or remove all food and food processing equipment during application. Do not apply while food processing is underway. After spraying in meat packing plants, bakeries and other food processing plants, wash with potable water all benches, shelving, etc. where exposed food will be handled. In case washing is impractical do not allow food to come in contact with treated surfaces for at least 48 hours.

SYNERGIZED PYRETHRIN INDUSTRIAL SPRAY, F-6630 Sample Label (2) Food Additive Petition 6H1946

ACTIVE INGREDIENTS: Pyrethrins 100%, Piperonyl butoxide, technical .50%, N-octyl bicycloheptene dicarboximide 1.00%, Petroleum distillate 1.67%, MCK 264, Insecticide Synergist. 96.83%

DIRECTIONS FOR USE

IN FOGGING EQUIPMENT AND HAND SPRAYERS To Kill Accessible Stages of Insects\* Infesting Dried Fruit Products in Storage or Being Processed: Close room or warehouse and shut off all ventilating systems. Dispense this product as a fine mist in the air above trays or shelves of dried fruit. Use a spraying device similar to the Microsol machine, or use fixed ceiling sprayers that produce a very fine spray. Do not apply to fruit directly. If overhead sprayers are used, be sure that the spray is discharged from a position of at least 6 feet over the top trays of fruit. Use a dosage of 1 gallon of this spray per 50,000 cubic feet of room space. Repeat applications at this dosage in any given month. More than ten applications may also be made if this spray is diluted with more petroleum distillate, so that the pyrethrins and synergists in the final spray are reduced proportionately. Do not remain in treated areas. Ventilate the area after treatment is completed. Maximum dilution is 1 part F-6630 plus 5.6 parts oil.

\*Indian Meal Moth, Dried Fruit Beetle, Confused Flour Beetle, Saw-Toothed Grain Beetle and Roaches.

To Kill The Adult and Accessible Forms of Insect Pests\* of Stored Food (Stored in Multiwall Paper Bags or in Cloth Bags) in Warehouses, Storage Rooms and Similar Locations: Close room or warehouse and shut off all ventilating systems. Use a spraying device similar to the Microsol machine, or use fixed ceiling sprayers that produce a very fine spray. Use a dosage of one fluid ounce of this spray per 1000 cubic feet of room space. Do not remain in treated areas. Ventilate the area after treatment is completed. Repeat applications as necessary for insect control.

\*Rice Weevil, Yellow Meal Worm, Cadelle, Confused Flour Beetle, Saw-Toothed Grain Beetle, Angoumois Grain Moth, Mediterranean Flour Moth and Indian Meal Moth.

To Kill Flies, Mosquitoes and Gnats: Close room and discharge spray mist as described above. Use a dosage of 1/2 to 1 fluid ounce per 1000 cubic feet of room space. Leave room closed for at least ten minutes. Sweep up and destroy fallen insects. Repeat as necessary for control. Do not remain in treated areas. Ventilate the area after treatment is completed.

IN PRESSURIZED TANK SPRAYERS FOR WETTING CONTACT SPRAYS As a Surface Spray to Kill the Accessible Stages of Granary Insects, Rice Weevils, Confused Flour Beetles, Rust Red Flour Beetles, Saw-toothed Grain Beetles, Caddises, Meal Moth Larvae and Adults, Cigarette Beetles, Drug Store Beetles and Granary Weevils: Apply as a coarse wet spray to all areas infested by these insects. Use a dosage of 1 gallon per 1000 square feet. Pay particular attention to cracks and crevices in floor, walls and ceilings. Spray thoroughly around and into floor drains, conveyors and other areas where granary insects may be found. (For Flying Moths and Beetles, treat as for Flies, Mosquitoes and Gnats. See above.) Do not apply this spray to surfaces that may come in contact with food; excessive residues in food may result.

(Continued)

Synergized Pyrethrin Industrial Spray, F-6630 continued.

To Kill Roaches, Silverfish, Waterbugs and Other Crawling Insects in Sheltered Situations: Apply this spray with a sprayer that produces coarse, wetting droplets into all crevices in woodwork, floors, underneath sinks, areas behind pipes, and in all places where these insects shelter. Contact as many insects as possible. Repeat as necessary if Do not allow spray to contact any stored food.

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Do not apply directly to food. Cover or remove all food and processing equipment during application. Do not apply space sprays while food processing is underway. Food processing operations do not have to be stopped while applying spray with care and in accordance with the directions and cautions above. After spray in meat packing plants, bakeries and other food processing plants, wash with potable water all equipment, benches, shelving, etc., where exposed food will be handled.

Remove pets and cover fish bowls before spraying.

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not re-use empty containers. Destroy when empty and discard in a safe place.

Keep container closed. Do not pour, store or spill near heat or open flame.

NOTE: This spray when applied per the directions and cautions above, conforms with Additive Regulations 121.1074, 121.1075 and 121.1205 and the food additive tolerance established thereunder.
