# PRECAUTIONARY STATEMENTS

### <u>Hazards to Humans and Domestic Animals</u>

This material is poisonous if swallowed, inhaled or absorbed through the skin or eyes. Do not breathe vapors. Causes skin irritation. Do not get in eyes, on skin or on clothing. Wash thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and warm water before re-use. Continued exposure to this product will increase susceptibility to it and other cholinesterase inhibitors. Wear natural rubber gloves, protective clothing and goggles when working with this material. Wear a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration (formerly U. S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part II. Keep all unprotected persons out of operational areas. Do not contaminate food or feedstuffs.

### Environmental Hazards

This product is toxic to fish, birds and other wildlife. Do not discharge into lakes, streams, ponds or public waters unless in accordance with an NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

Physical or Chemical Hazards

Do not use or store near heat or open flame.

## INSTRUCTIONS FOR FORMULATING

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

## STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Keep container closed.

<u>Pesticide Disposal</u>: Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to Federal or approved State procedures under Subtitle C of the Resource Conservation and Recovery Act.

<u>Container Disposal</u>: Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and Local procedures.

PYROCIDE© Intermediate 6813 is to be used at the rate of 2.50% (wt.) with appropriate solvents and propellents to manufacture a pressurized insecticide spray.

This formulation should be stored under as cool conditions as possible, and the contents should be used promptly after the container has been opened. Whenever possible, DDVP formulations should be stored in full containers. Warm contents thoroughly to room temperature and agitate thoroughly before using if this drum has been exposed to below freezing weather. Keep away from open flame. Keep containers tightly closed. Mix well in drum before sampling and each use.

Formulators using this product are responsible for obtaining EPA registration for their formulated products.
