PRECAUTIONS TO BE OBSERVED

1. This material is highly toxic and should be handled with extreme care. It is a potent insecticide and should be used only on the crops and plants for which it is specifically recommended.

2. Do not use this material in a confined space. It is highly volatile and may cause dizziness, headache, and other symptoms of acute poisoning.

3. Do not use this material for any purpose other than that for which it is specifically recommended. Keep away from children and animals. Containers should be kept closed.

4. In case of contact with skin or clothing, wash immediately with soap and water. In case of contact with eyes, flush with soap and water for several minutes. Do not use eye drops. If inhaled, move to fresh air. If swallowed, do not induce vomiting. Wear a mask or respirator if necessary. Use only for the purpose for which it is intended. Keep all unprotected persons out of operation area.

5. In case of poisoning, give first aid as directed in a warm glass of water and keep the victim quiet. Do not induce vomiting. Call a doctor immediately.

6. In case of contact with clothing, remove clothing immediately. If inhaled, remove victim to fresh air. Keep warm and quiet. Call a doctor immediately.
