Subject: Label Notification for Pesticide Registration Notice 2007-4  
(Storage & Disposal Changes)

Dear Registrant:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 dated June 2, 2009 for:

**EPA Registration 1021-1067 "CRUDE PYRETHURM EXTRACT"**

The Registration Division (RD) has conducted a review of this request for applicability under PRN 2007-4 and finds that the label change(s) requested falls within the scope of PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on nonrefillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Owen F. Beeder of my staff at 703-308-8899.

Sincerely,

Linda Arrington

Subject: CRUDE PYRETHRUM EXTRACT  
EPA Reg. No. 1021-1067  
Notification Per PR-Notice 2007-4

Dear Sir or Madam:

By Notification, we are updating the storage and disposal statement per PR-Notice 2004-7. This product is a manufacturing use product that is not diluted prior to use, therefore we have not added detailed rinsing instructions per §156.146. We have however, per Nancy Fitz' recommendation maintained our current instructions to triple rinse the container before disposing or offering for reconditioning or recycling. A copy of Nancy's recommendation is enclosed for your convenience.

Enclosed are two (2) copies of the label. One (1) copy has changes highlighted.

This amendment is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR §§ 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA." If there are any questions or you need anything further, please contact this office.

Sincerely,

McLAUGHLIN GORMLEY KING COMPANY

Thomas A. Lennan

**Subject:** Re: ? Re: Label requirements for MUP's per PR\_Notice 2007-4

Hello Tom,

I am responding instead of Kimberly because she is not working primarily on implementing the container-containment regulations any more.

The requirement for the residue removal statements for nonrefillable containers only applies to dilutable pesticides in rigid containers. In the October 2008 amendments to the container-containment regulations, we added a definition for dilutable to §156.3 and §165.3. Specifically, "dilutable means that the pesticide product's labeling allows or requires the pesticide product to be mixed with a liquid diluent prior to application or use."

The key to applying this definition to MUPs is the phrase "prior to application or use." While it depends on the specific labels for your MUPs, our understanding is that MUPs are rarely diluted prior to use.

So, if your MUP is not dilutable, the label is not required to comply with the detailed rinsing procedures in §156.146. However, we recommend that you maintain your current storage and disposal instructions or include the simple statement that you mentioned below - "Triple rinse (or equivalent) promptly after emptying."

If your MUP is dilutable, you have the option of requesting a modification to the rinsing instructions per §156.144(d), which says:  
"EPA may, on its own initiative or based on data submitted by any person, modify or waive the requirements of this section through §156.156, or permit or require alternative labeling statements." To do this, you would need to submit a label amendment - you cannot request a waiver or modification through notification per PR Notice 2007-4.

In either case, the MUP labels needs to include the "nonrefillable container type" instructions in §156.140(a), which are: (1) the phrase "Nonrefillable container."; (2) a statement about reuse; (3) instructions about recycling or reconditioning; and (4) a batch code as well as general container disposal instructions.

I hope this information helps. If you have any questions or would like to discuss it, please contact me at any time. I will be in the office next week Monday through Thursday.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**WARNING**

Causes eye irritation. Do not get in eyes. In case of eye contact immediately flush eyes with water for 15 minutes. Harmful if swallowed, inhaled or absorbed through the skin. Avoid contact with skin or clothing. Avoid breathing vapors. Prolonged or frequently repeated skin contact may cause an allergic type skin reaction. Wash thoroughly with soap and water after handling this product. Remove contaminated clothing and wash before reuse.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARDS**

Flammable. Keep away from heat and open flame.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is to be refined and/or further processed or purified only. The manufacturing concentrate products that are made from this product, once it is refined or processed, will then be used to prepare products to be used in terrestrial food and non-food, greenhouse food and non-food, forestry, domestic outdoor, and indoor use patterns. These are uses for which the USEPA has accepted the required data and/or citations of data that the formulator has submitted in support of their registration; and uses for experimental purposes that are in compliance with the USEPA requirements.

Mix contents of drum well before sampling or use.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or animal feed by storage or disposal of this product.

**PESTICIDE STORAGE:** Store in a cool, dry place. Keep container tightly closed.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA regional office for guidance.

**CONTAINER HANDLING:** Non refillable container. Do not reuse or refill container. Triple rinse (or equivalent) promptly after emptying and offer drum for recycling, if available or reconditioning, if available or puncture and dispose of in a sanitary landfill or by other approved State and Local procedures.
