SPACE AND CONTACT SPRAY FROM D-TRANS® INTERMEDIATE 1856

ACTIVE INGREDIENTS:

d-trans Allethrin (allyl homolog of Cinerin I)	100%	.075%
¹ N-octyl bicycloheptene dicarboximide		.675%
Petroleum distillate		99.250%

DIRECTIONS FOR USE

General: Select a hand or electric sprayer that gives fine particles when using this spray against listed flying insects. Select a sprayer that gives large, wetting spray particles when using this spray as a contact spray against listed crawling insects. Cover or remove all food, food storage, and food processing surfaces before application. Wash with potable water all food processing surfaces before re-use. In food processing plants limit applications to those periods when processing is not underway.

To Kill Flies, Mosquitoes, Gnats, Small Flying Moths: Close doors and windows. Fog or spray enclosed space at the rate of 1 - 2 fl. oz. per 1,000 cu. ft. Leave room closed 10 to 15 minutes. Open doors and windows and ventilate room before re-entry. Sweep up and destroy fallen insects. Repeat applications as necessary.

To Kill German Cockroaches: Apply as a wet spray thoroughly to infested surfaces and harbourages. Force spray into all cracks and crevices in woodwork, underneath sinks, dark places behind pipes, contacting as many insects as possible with the spray. Repeat applications as necessary.

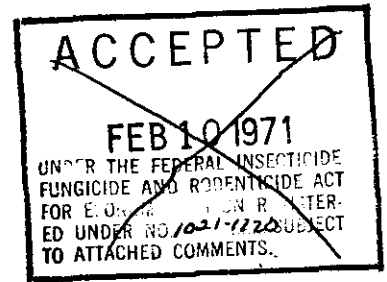

CAUTION

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Do not apply directly to food. See instructions in general directions when using this product around food or food processing areas. Do not store, pour or spill near fire or open flame. Keep container closed. Store in a cool place.
