JAN 5 2004
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 1021-1391

KEEP OUT OF REACH OF CHILDREN
CAUTION

FIRST AID

IF SWALLOWED:	<ul style="list-style-type: none"> Immediately call a poison control center or doctor. Do not give any liquid to the person. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.
IF IN EYES:	<ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center for treatment advice.
IF ON SKIN OR CLOTHING:	<ul style="list-style-type: none"> Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF INHALED:	<ul style="list-style-type: none"> Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: This product contains petroleum distillate and may pose an aspiration pneumonia hazard. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Contains petroleum distillate. Do not induce vomiting because of aspiration pneumonia hazard. Avoid breathing vapors or spray mist. Avoid contact with skin or eyes. In case of contact, flush with plenty of water. Wash with soap and warm water after use. Obtain medical attention if irritation persists. Avoid contamination of food or feedstuffs.

Do not use in commercial food processing, preparation, food storage or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed.

Remove pets, birds, and cover fish aquariums before spraying.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DILUTION DIRECTIONS: This Concentrate must be diluted with petroleum distillate prior to use either as a space or contact spray. Use 1 part Concentrate to 24 parts petroleum distillate to make a ready-to-use spray. The resulting spray will contain 0.48% Tetramethrin and 0.16% d-phenothrin.

NOTE: When used in hospitals, patients should be removed prior to treatment. Ventilate for two hours after treatment. Do not return patients to room until after ventilation.

IN MISTING EQUIPMENT: Use in a cold aerosol generator or mechanical hand sprayer that produces particles of aerosol size (30 microns or less).

To Kill Flies, Gnats, Mosquitoes And Small Flying Moths: Close room, warehouse or other area to be treated and shut off all ventilating systems. Dispense this product as a fine mist. Use a dosage of one-half ounce per 1,000 cubic feet of room space. Do not remain in treated areas. Leave room closed for 1/2 hour. Ventilate the area after treatment is completed.

IN PRESSURIZED TANK SPRAYERS FOR WETTING CONTACT SPRAYS: To kill the listed insects, the diluted spray should be used as follows at a rate of 1 gallon per 1,000 square feet of surface area.

To Kill Ants, Centipedes, Cockroaches and Crickets: Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry

To Kill Carpet Beetles: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture and wherever these pests are seen or suspected.

To Kill Exposed Forms Of Confused Flour Beetles, Rice Weevils, And Saw-Toothed Grain Beetles: Find and destroy infested package foods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Apply as a coarse wet spray to all other areas infested with these insects. Pay particular attention to cracks and crevices in floors, walls, and ceiling.

To Kill Firebrats, Sowbugs and Spiders: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks, behind stoves and refrigerators and machinery.

To Kill Fleas And Ticks: Spray infested areas such as pet resting areas and areas of floor and floor coverings (such as carpet) where these pests may be present. Use at the rate of 1 gallon per 1,000 square feet of area to be treated. Pet's old bedding should be discarded and replaced with clean, fresh bedding after treatment. Do not apply directly to pets. Pets should be treated with a registered product for flea and tick control prior to reentering treated areas.

<p>STORAGE AND DISPOSAL</p> <p>Do not contaminate water, food, or feed by storage or disposal.</p> <p><u>STORAGE:</u> Store in a cool, dry place. Keep container closed.</p> <p><u>PESTICIDE DISPOSAL:</u> Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.</p> <p><u>CONTAINER DISPOSAL:</u> Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other approved State and Local procedures.</p>
