Hazards to Humans and Domestic Animals

CAUTION

Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing. Wash contaminated skin promptly with soap and warm water. For eyes, flush with water and get medical attention if irritation persists.

Avoid contamination of food and feedstuffs. Do not use in commercial food processing, preparation, storage or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food. Do not spray plants used for food or feed.

Remove pets, birds and cover fish aquariums before spraying.

PHYSICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE
GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Keep container closed.

Pesticide Disposal: Pesticide, spray mixture or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, State or Local procedures.

Container Disposal: Triple rinse (or equivalent) and offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and Local procedures.

Greenhouse Pests

For infestations of whiteflies, aphids, spider mites and mealybugs on Geranium, Azalea, Fuchsia, Coleus, Petunia, Chrysanthemum, Begonia and Ivy.

Contact Spray

For Whiteflies and Aphids:

Use 1 pint of MULTICIDE® Concentrate 2154 per 100 gallons of water or 1 teaspoon per gallon. Spray upper and lower surfaces of plant foliage to point of runoff. Spray in late afternoon and at night only. For whiteflies, repeat application weekly.

When fewer applications are preferred, use 1 quart of MULTICIDE Concentrate per 100 gallons of water or 2 teaspoons per gallon. Spray as described above. Repeat as necessary.

) For Spider mites and Mealybugs:

) Use 2 pints of MULTICIDE® Concentrate 2154 per 100 gallons of water or 2 teaspoons per gallon. Spray upper and lower surfaces of plant foliage to point of runoff. Spray in late afternoon and at night only.

When fewer applications are preferred, use 2 quarts of MULTICIDE Concentrate per 100 gallons of water or 4 teaspoons per gallon. Spray as described above. Repeat as necessary.

Premise Pests

For use in the home and non-food areas of: food processing plants, schools, warehouses, theatres, office buildings, industrial plants and kennels.

Contact Spray - Oil Dilution: To kill cockroaches, saw-toothed grain beetles, carpet beetles, fleas, confused flour beetles, ticks, and rice weevils: Mix 1-1/3 fluid ounces of MULTICIDE Concentrate 2154 in a gallon of oil to make a 0.27% spray. Mix well before using. Spray thoroughly into hiding places, such as cracks, crevices, and moist areas around pipes, under refrigerators, and along baseboards. Use at the rate of 1 gallon per 1000 square feet. Spray directly on insects when possible. Repeat as necessary.

Contact Spray - Water Dilution: MULTICIDE Concentrate 2154 can also be diluted at the rate of 1-1/3 fluid ounces in a gallon of water and applied as above to kill German and American cockroaches, saw-toothed grain beetles, confused flour beetles, rice weevils, ticks, and fleas.

Space Spray: To kill flies, mosquitoes, gnats and small flying moths: Remove or cover exposed food and food handling surfaces including utensils. Remove animals and cover aquariums. Shut off all ventilation systems. Mix 1/2 ounce MULTICIDE Concentrate 2154 with 1 gallon water or oil to make an 0.11% spray. Apply as a fine spray at the rate of 2 fluid ounces per 1000 cubic feet or 1 gallon per 54,000 cubic feet. Mix well before using. Direct spray to upper corners of the room and ceiling. Avoid inhalation of spray mist. Vacate room and keep closed for at least one half hour. Ventilate room before re-entry. Repeat as necessary.
