

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE PRECAUTIONS

Store in a cool, dry place. Keep container closed.

Keep out of reach of children. Do not use near food or feed. Do not use in areas where food is stored or prepared. Do not use in areas where food is consumed. Do not use in areas where food is stored or prepared. Do not use in areas where food is consumed.

CONTAINER DISPOSAL: a) 1. Fill with 20 gallons of water - repeat until empty. b) All containers - triple rinse (or equivalent) and offer for recycling or disposal in accordance with local, state or federal regulations.

Preparation: Consult Federal, State or local disposal authorities for approved alternative procedures.

ADDITIONAL PRECAUTIONS: When used in hospitals, patients should be removed prior to treatment. Ventilate for two hours after treatment. Do not return patients to room until after ventilation.

IN MISTING EQUIPMENT: Use spraying device similar to a Microsol machine or cold aerosol generators such as ULTRASONIC and UECO.

To Kill House Flies, Small Flies, Pests and Ticks: Close room, warehouse or other area to be treated. Turn off all ventilating systems. Disperse this product as a fine mist. Use a dosage of one half gallon per 1000 cubic feet of room space. Do not remain in treated areas. Leave room closed for 1 hour. Ventilate the area after treatment is completed. Repeat application as necessary for insect control.

IN PRESSURIZED TANK SPRAYERS FOR MISTING CONTACT SPRAYS

To kill the listed insects, the diluted spray should be used as follows at a rate of 1 gallon per 1000 square feet of surface area.

To Kill Cockroaches, Ants and Crickets:

Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators and wherever these pests are suspected of hiding. To kill ants, treat floors, around window frames, ant trails and other areas of entry. Repeat as necessary.

To Kill Carpet Beetles:

Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected. Repeat as necessary.

To Kill Larvae and Eggs of Confused Flour Beetles, Sawtoothed Grain Beetles, and Rice Weevils:

Find and destroy infested package foods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Apply as a coarse wet spray to all other areas infested with these insects. Pay particular attention to cracks and crevices in floors, walls and ceiling. Repeat as necessary.

To Kill Scorpions and Firebrats:

Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hidden surfaces under sinks, behind stoves and refrigerators and machinery.
