

MULTICIDE® Concentrate 2254

Residual Contact Spray Concentrate
Dilute with water. Will kill:
Cockroaches, Waterbugs, Ticks, Fleas,
and other insects listed.

For Use in Homes and Non-Food Areas of
Commercial Buildings: Warehouses, Office
Buildings, Theatres, Schools, Motels, Hotels.

TO BE APPLIED ONLY BY OR UNDER THE SUPERVISION OF PEST CONTROL OPERATORS AND
OTHER TRAINED PERSONNEL RESPONSIBLE FOR INSECT CONTROL PROGRAMS

ACTIVE INGREDIENTS:

*3-Phenoxybenzyl d-cis and trans** 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate	0.800%
*Other isomers	0.037%
†N-Octyl bicycloheptene dicarboximide	6.670%
***Chlorpyrifos [0,0,-diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate]	8.364%
Xylene range aromatic solvent	4.692%
INERT INGREDIENTS:	79.437%
	<u>100.000%</u>

*di(cis,trans) phenothrin

**cis/trans isomer ratio: Max. 25% (+ or -) cis
Min. 75% (+ or -) trans

***U.S. Patent No. 3,244,586 - Dow Chemical Company U.S.A.
†MGK 264, Insecticide Synergist

MULTICIDE® - Registered Trademark of McLaughlin Gormli King Company.

KEEP OUT OF REACH OF CHILDREN

DANGER

Statement of Practical Treatment

- IF SWALLOWED: Drink a glass of water and induce vomiting by touching finger to back of throat. Get medical attention.
- IF IN EYES: Flush with plenty of water. Get medical attention.
- IF ON SKIN OR CLOTHING: Remove contaminated clothing. Wash skin with soap and warm water. Get medical attention if irritation persists.

Precautionary Statements

Hazards to Humans and Domestic Animals

DANGER

Corrosive. Causes eye damage. Do not get in eyes. Wear goggles and face shield and rubber gloves when handling. Use a chemical cartridge respirator with organic vapor cartridges. Wash contaminated skin promptly with soap and warm water. Wash all contaminated clothing with soap and warm water before re-use. Do not contaminate food or feedstuffs.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine, only by injection, is antidote of choice.

Environmental Hazards

This product is toxic to fish, other aquatic animals, and birds. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

Physical or Chemical Hazards

Flammable. Keep away from heat and open flame.

28

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE

ACCEPTED

JUN 22 1981

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended for the pesticide registered under EPA Reg. No. 1021-1445

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Keep container closed.

Pesticide Disposal: Pesticide, spray mixture or rinsate that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.

Container Disposal: Triple rinse (or equivalent) and offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by other approved State and local procedures.

DILUTION DIRECTIONS: This Concentrate must be diluted with water before use. Dilute 6 parts of Concentrate 2254 with 94 parts water. Mix well and apply as directed below. DO NOT STORE diluted spray for future use.

General: Use Residual Spray from MULTICIDE® Concentrate 2254 as a spot treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product as a coarse spray to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

To Kill Cockroaches, Ants, Waterbugs, Crickets, Silverfish, Spiders and Sowbugs: Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. Do not spray pets with this product. Additionally treat pets with a product registered for animal application to control the source of the flea infestation.

Flies and Mosquitoes: Use only out of doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment when necessary.
