KEEP OUT OF REACH OF CHILDREN

WARNING

PRACTICAL TREATMENT

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

IF ON SKIN OR CLOTHING: Remove contaminated clothing. Wash skin with soap and water. Get immediate medical attention if signs of cholinesterase inhibition (tightness of chest, difficulty in breathing, excessive salivation, tremors) develop. If skin irritation develops, get medical attention.

IF SWALLOWED: Call a physician immediately. If possible, induce vomiting under medical supervision or use gastric lavage with an endotracheal tube because of aspiration hazard. Otherwise, if victim is conscious, give a glass of water and induce vomiting by touching back of throat with finger. Do not give anything by mouth or induce vomiting if victim is unconscious. Have victim lie down and keep warm and quiet.

NOTE TO PHYSICIAN: This product contains a cholinesterase inhibitor. Atropine by injection is antidotal and should be administered only if signs of cholinesterase inhibition have appeared. 2-PAM is also antidotal and may be used in conjunction with atropine.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING

May be harmful or fatal if swallowed, inhaled or absorbed through the skin. Do not breathe vapors. Causes skin irritation. Do not get in eyes, on skin or on clothing. Wash thoroughly with soap and water before eating or smoking. Wash all contaminated clothing with soap and water before reuse. Continued exposure to this product will increase susceptibility to it and other cholinesterase inhibitors. Wear natural rubber gloves, protective clothing and goggles when working with this material. Wear a pesticide respirator jointly approved by the Mining Enforcement and Safety Administration (formerly U. S. Bureau of Mines) and by the National Institute for Occupational Safety and Health under the provisions of 30 CFR Part II. Keep all unprotected persons out of operational areas. Do not contaminate food or feedstuffs.

Environmental Hazards

This product is toxic to fish and wildlife. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection
