PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING

Causes substantial but temporary eye injury. Causes skin irritation. May be irritating to nose and throat. Do not get in eyes, on skin or on clothing. Wear protective clothing, rubber gloves and goggles. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Harmful if swallowed or inhaled or absorbed through skint Contains petroleum distillate. Do not induce vomiting because of aspiration hazard and the probability of mucosal damage. When applying dilution indoors as a space spray or fog, wear a full faced gas mask with canister of a type recommended for general even events and food processing equipment during application. After spraying in meat packing plants, bakeries and other food processing plants, wash with an effective cleaning compound and then rinse with potable water all equipment, benches, shelving, etc. where exposed food will be handled. In the home, all food processing surfaces and utensils should be devered during treatment or thoroughly washed before use. Cover exposed food. Do not spray plants used for food or feed.

Remove pets, birds, and cover fish aquariums before spraying.

Do not allow children or pets to contact treated surfaces until spray has dried.

Do not apply this product in patient rooms or in any rooms while occupied by the elderly or infirm. Do not apply to class sooms while in use. Do not apply in institutions (including libraries, sports facilities, etc.) in the immediate area where occupants are present.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product into sever systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

Do not use this product in or on electrical equipment due to the possibility of shock hazard.

applications of contact sprays use at the rate of one (1) gallon (diluted spray) per 1,000 square feet of surface area.

Application Only Within Food and Non-Food Areas of Food Service and Handling Establishments (Places Other Than Private Residences) Including, But Not Limited to: Restaurants, Grocery Stores, Bakeries, Food Manufacturing and Processing Establishments, and Food Warehousing Establishments. Do not treat establishments where livestock feed is present.

2:11

Food areas include areas for receiving, storage, packing, canning, bottling, wrapping, boxing, preparing, edible waste storage and enclosed processing systems, mills, dairies, edible oils, syrups. Serving areas are places where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held. Non-food areas include garbage rooms, lavatories, floor drains to sewers, entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage after canning or bottling.

As a Surface Spray:

<u>To Kill the Accessible Stages of Granary Insects: Rice Weevils, Confused Flour Beetles, Rust Red Flour Beetles, Saw-Toothed Grain Beetles, Cadelles, Meal Moth Larvae and Adults, Cigarette Beetles, Drug Store Beetles, and Granary Weevils;</u> Apply as a coarse wet spray to surfaces where these pests are normally found, such as floors, baseboards, around walls, benches and pieces of equipment. Use at a dosage of one (1) gallon of spray per 1,000 square feet. Pay particular attention to cracks, crevices and similar protected locations in floors and walls. Soray thoroughly around and into floor drains, non-food conveyors, and other areas where granary insects may be found. Do not apply when food processing facility is in operation or foods are exposed. Do not apply this spray to surfaces or utensils that may come into contact with food; excessive residues in food may result.

Repeat Application as Needed, but do Not Exceed More Than One Application Every Fourteen (14) Days.

To Kill Ants, Centiped .s, Cockroaches, Crickets, Earwigs, Millipedes, Psocids, Scorpions, Silverfish, Sowbugs, Spiders and Waterbugs: Apply this spray with a sprayer that produces coarse, wetting droplets into all cracks and crevices in woodwork, floors, underneath sinks, areas behind pipes, and pieces of equipment, and in all places where these insects shelter. Use a dosage of one (1) gallon of spray per 1,000 square feet. Contact as many insects as possible with direct spray. Repeat applications as needed, but do not exceed more than one application every fourteen (14) days in all types of food handling establishments.

As A Space Spray:

To Kill Houseflies, Mosquitoes, Gnats and Small Flying Moths: Close room and shut off all air conditioning or ventilating equipment. For space spray applications use a maximum of ten (10) ounces of concentrate diluted in one (1) gallon of oil only to make a 0.25% spray. Use diluted spray in a mechanical aerosol fogger or generator which produces particles of aerosol size thirty (30 microns, or less). Direct spray first into all cracks and crevices, behind all equipment, appliances, cupboards, or any dark harborage areas, then treat as a space spray direction the spray towards the ceiling and upper corners of the room at the rate of one (1) ounce (diluted spray) per 1,000 cubic feet of space. Do not reclum in treated area. Keep closed for at least 1/2 hour and ventilate thoroughly before recentry. Do not repeat application more than once every three (3) days.

To Kill The Adult and Accessible Forms of sect Pests* Of Stored Food (Stored In Multi-Walled Paper Bags Or In Cloth Bags) In Warehouses, Storage Rooms and Similar Locations: In the led stored products should be removed and described, fumigated or treated with other products approved for this use. Use as above in mechanical aerosol foggers at the rate of one (1) ounce per 1,000 cubic feet of space. Keep area closed for at least 1/2 hour. Do not remain in treated area and ventilate thoroughly before re-entry. Do not repeat application more than once every three days.

*Rice Weevil, Yellow Meal Worm, Cadelle, Confused Flour Beetle, Saw-Toothed Grain Beetles, Angoumois Grain Moth, Mediterranean Four Moth, Indian Meal Moth, Cigarette Beetle Cuin Mites and Cockroaches.

Do not apply when food processing facility is in operation or foods are exposed. Do not apply this spray to surfaces or utensils that may come in contact with food. Food contact surfaces and equipment should be thoroughly cleaned with an effective cleaning compound and rinsed with potable water before using.

FOR PREMISE PESTS:

Application Within Residential and Non-Residential Buildings Including Homes, Apartment Buildings, Kennels, and Non-Food Areas of Industrial, Institutional, and Commercial Buildings, such as Hospitals, Hotels, Warehouses, Truck Trailers, Railroad Cars, Theatres, Office Buildings, and Schools.

GENERAL: Apply as a coarse wet spray to thoroughly treat hiding places, such as cracks, crevices, and moist areas around pipes, under refrigerators and along baseboards to control pests listed below. Use at the rate of one (1) gallon of spray mixture per 1,000 square feet. Spray directly on insects when possible. Do not permit humans or pets to contact treated surfaces until the spray has dried. Repeat as necessary. Do not treat establishments where livestock feed is present.

<u>To Kill Ants, Centipedes, Cockroaches, Crickets, Earwigs, Millipedes, Psocids, Scorpions, Silverfish, Sowbugs, Spiders, and Waterbugs:</u> Spray areas where these pests are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets and around garbage cans, plumbing and other utility installations. Pests driven out of hiding places should be sprayed directly. For Ants, apply to ant trails, also around doors and windows and wherever these pests may find entrance. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas: For Control of Brown Dog Ticks, thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. For control of Fleas, thoroughly apply a fine particle broadcast spray, using the one (1) ounce per gallon of water dilution to infested rugs, carpets, and pet resting areas. Prior to treatment, aquariums and fish bowls should be covered and birds, such as canaries, removed from the area. Do not permit humans or pets to contact treated surfaces until the spray has dried. Old hedding should be removed and replaced with clean, fresh bedding after treatment. Do Not Spray Pets With This Product. Treat dogs and cats with a product registered for use on animals.

<u>To Kill Carpenter Ants:</u> Apply two (2) ounces per one (1) gallon of water as a coarse spray, around doors, door frames, windows and other areas where these ants enter the premises or hide. Spray into cracks and crevices, through openings or small newly drilled holes into wall voids where these ants or their nests are present.

FOR OUTDOOR PESTS:

GENERAL: Use EVERCIDE Concentrate 2457 at the rate of two (2) fluid ounces per one (1) gallon of water to control on contact ants, sockroaches, ants, crickets, control on contact ants, the rate of our (1) gallon per 1,000 equare fact to outside surfaces of

Keep pets and children out of the treated area until after the spray has dried. Do not spray animals. Dogs, cats, their kennel or bedding area should also be treated with a registered flea control product in conjunction with this application.

in a threatment should also be used in

Amount of Product to Use Fluid Ounces*	Amount of Water to Use	Area to be Treated
1/6 Fluid Ounce	3 gallons	500 sq. ft. (50' X 10')
1/3 Fluid Ounce	6 gallons	1,000 sq. ft. (50' X 20')
2/3 Fluid Ounce	12 gallons	2,000 sq. ft. (50' X 40')

OUTDOOR CONTROL OF ASIAN COCKROACHES:

conjunction with this product.

. .

 \mathcal{Y}

To control outdoor infestations of Asian cockroaches: Dilute 10 teaspoons of EVERCIDE Concentrate 2457 in 30 gallons of water to treat 5,000 sq. ft. Repeat as needed. Keep children and pets off treated areas for 24 hours or until the grass has completely dried.
