Subject: EVERCIDE® Wasp and Hornet Spray 2577
EPA Registration No. 1021-1613
Amendment dated January 4, 1999
Response to Agency letter dated December 3, 1998

Dear Ms. Schlekau:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable provided that you:

1. Make the following change to your label:
 - a. On page 2 in the paragraph "For Control of Ants and Spiders", delete the words "foraging Red Imported Fire Ants" from the first sentence of the directions for use.
2. Submit two copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

for George T. LaRocca
Product Manager 13
Insecticide Branch
Registration Division (7505C)

Enclosure

EVERCIDE® Wasp and Hornet Spray 2577

This product can be used both indoors (attics and other places where nests are built and where food or feed are not exposed) and outdoors for controlling Wasp, Hornet, and Yellowjacket nests.

8810 Tenth Avenue N. / Minneapolis, Minnesota 55427-4372 U.S.A.

TELEPHONE (612) 544-0341

Kills Wasps, Yellowjackets, and Hornets on contact

Gives rapid contact kill and residual kill of insects returning to the treated nest

Gives rapid knockdown and kill of Wasps, Yellowjackets, and Hornets

Reaches nests 20 feet above ground

Electrically non-conducting formula

Dielectric Breakdown Voltage: 40.6 KV by ASTM Test Method D-877-87

Also controls Ants and Spiders

ACCEPTED

KEEP OUT OF REACH OF CHILDREN

CAUTION

FIRST AID

IF SWALLOWED: Call a physician or Poison Control Center. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Avoid alcohol.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention if symptoms persist.

NOTE TO PHYSICIAN: May pose an aspiration pneumonia hazard.

For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Do not use in commercial food processing, preparation, food storage or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed.

Remove pets, birds, and cover fish aquariums before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish and other aquatic invertebrates. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE: Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For Control of Nests of Wasps, Yellowjackets, and Hornets: The best time to spray is in the early morning or early evening, when air temperature is cooler and most insects are in the nest and little activity is observed around the nest opening. Spray only if it is not windy. Stand a safe distance from the nest, not directly underneath it. Hold container upright at arms length, pointing the actuator at nest and spraying the opening of the nest first. Then spray the rest of the nest until it is saturated. Treated insects will fall out of the nest and die. Any insects returning to the treated nest will also be killed. Wait 48 hours before removing the nest. Foliage of desirable plants contacted during spraying should be hosed off with water.

For Control of Ants and Spiders: (Outdoors only) For foraging Red Imported Fire Ants, Ants, and Spiders found in areas such as electric service boxes, water meter boxes, telephone boxes, along house foundation, foundation vents, sills and ledges, etc., spray in short bursts to contact pests. Ant trails, runways, and hills should also be sprayed as necessary. Do not spray foliage of desirable plants. If spray does contact foliage, hose off with water.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry area away from heat or open flame.

PRODUCT DISPOSAL: Unused product may be disposed of by wrapping original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Offer container for metal recycling where available. In areas where recycling is not available, attach overcap and dispose of in trash. Do not puncture or incinerate.
