Mr. Steve Ditto McLaughlin Gormley King Company 8810 Tenth Avenue North Minneapolis, MN 55427-4372

SEP 2 7 2010

Subject: Label Notification(s) for Pesticide Registration Notice 98-10

Dear Mr. Ditto:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated March 22, 2010 for the following product(s):

Evercide<sup>®</sup> Wasp and Hornet Reg. No. 1021-1613 Spray 2577

The Registration Division (RD) has conducted a review of this request for applicability under PR Notice 98-10 and finds that the label change(s) requested falls within the scope of PRN 98-10. The label has been date-stamped "Notification" and will be placed in our records.

If you have any questions, please contact Linda A. DeLuise at 703-305-5428.

Sincerely,

Legen A De Leure

Richard J. Gebken Product Manager Insecticide Branch Registration Division (7504P)

Subject: EVERCIDE® Wasp and Hornet Spray 2577 EPA Reg. No. 1021-1613 Pyrethroid Non-Agricultural Outdoor Products Notification Per EPA Letter Dated June, 4 2009

Dear Sir or Madam:

By Notification we are changing the Environmental Hazards and Directions for Use sections to comply with the June 4, 2009 letter from the Environmental Protection Agency.

Enclosed are 2 copies of the label. One copy has changes highlighted.

Notification of label change per June 4, 2009, letter from Environmental Protection Agency. This notification is consistent with the guidance in the June 4, 2009 letter and the requirements of EPA's regulations at 40 CFR part 156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statements to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR part 156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

If there are any questions or you need anything further, please contact this office.

Sincerely,

McLAUGHLIN GORMLEY KING COMPANY

Steven K. Ditto Regulatory Affairs Specialist

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

# CAUTION

Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

**ENVIRONMENTAL HAZARDS** 

This product is toxic to fish and other aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters or rinsate.

PHYSICAL OR CHEMICAL HAZARDS

Flammable. Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS	FOR USE
lation of Contended I	and the second details

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not use in commercial food processing, preparation, storage or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed.

Remove pets and birds and cover fish aquariums before spraying.

Do not water the treated area to the point of run-off.

Do not make applications during rain.

ົ້

All outdoor applications must be limited to spot or crack-and-crevice and wasp and hornet nest treatments only.

All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.

For Control of Nests of Wasps, Yellow Jackets, and Hornets: The best time to spray is in the early morning or early evening, when air temperature is cooler and most insects are in the nest and little activity is observed around the nest opening. Spray only if it is not windy. Stand a safe distance from the nest, not directly underneath it. Hold container upright at arms length, pointing the actuator at nest and spraying the opening of the nest first. Then spray the rest of the nest until it is saturated. Treated insects will fall out of the nest and die. Any insects returning to the treated nest will also be killed. Wait 48 hours before removing the nest. Foliage of desirable plants contacted during spraying should be hosed off with water.

<u>For Control of Ants and Spiders</u>: (Outdoors only) For Ants and Spiders found in areas such as electric service boxes, water meter boxes, telephone boxes, along house foundation, foundation vents, sills and ledges, etc., spray in short bursts to contact pests. Ant trails, runways, and hills should also be sprayed as necessary. Do not spray foliage of desirable plants. If spray does contact foliage, hose off with water.

### [Graphic: [Brand Name] Quality Pledge]

[Satisfaction Guaranteed

If for any reason you are not completely satisfied with the performance or results of this [Brand Name] product, it will be repaired or replaced free of charge. Simply provide proof of purchase and return the product and /or unused portion to the place of purchase.]

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

### Pesticide Storage

Store in a cool dry area. Always store pesticides in the original container. Store away from food and pet food.

### Pesticide Disposal and Container Handling

Do Not Puncture or Incinerate!

Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

Federal regulations prohibit CFC propellants in aerosols
