Subject: Label Amendment to Update First Aid Statements (PR Notice 2001-1) and  
Disposal Instructions (PR Notice 2001-6)

EPA Reg. No. 1021-1633  
MULTICIDE® Pressurized Spray 2594  
Your Submission Dated August 21, 2003

Dear Ms. Schlekau:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Two (2) copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records.

1. Change the first sentence under precautionary statement to read "*Harmful if inhaled or absorbed through skin*".
2. Under use sites, delete "*ships*".

If you have any questions regarding this action, please contact Olga Odiott of my team at (703) 308-9369.

Sincerely,

A handwritten signature in black ink, appearing to read "George T. LaRocca".

George T. LaRocca  
Product Manager (13)

with COMMENTS  
In EPA Letter Dated  
OCT 6 2008  
Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
as amended, for the pesticide  
registered under EPA Reg. No.  
1021-1633

## ACTIVE INGREDIENTS:

3-Phenoxybenzyl - (1RS, 3RS; 1RS, 3SR)-2,2-dimethyl-3-(2-methylprop-1-enyl)cyclopropanecarboxylate .....	0.12%
(RS)-2-Methyl-4-oxo-3-(2-propynyl) cyclopent-2-enyl (1RS)-cis, trans-chrysanthemate .....	0.03%
* Piperonyl butoxide, Technical .....	0.60%
** N-Octyl bicycloheptene dicarboximide .....	1.00%
OTHER INGREDIENTS .....	98.25%
	<u>100.00%</u>

\* Equivalent to 0.48% (butylcarbityl) (8-propylpiperonyl) ether and 0.12% related compounds

\*\* MGK<sup>®</sup> 264, Insecticide SynergistMGK<sup>®</sup> -Registered trademark of McLaughlin Gormley King Co.

KEEP OUT OF REACH OF CHILDREN  
**CAUTION**

## FIRST AID

## IF INHALED:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
- Call a poison control center or doctor for further treatment advice.

## IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call the International Poison Center at 1-888-740-8712.

## PRECAUTIONARY STATEMENTS

## HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION**

Harmful if swallowed or absorbed through skin. Avoid breathing vapor or spray mist. Avoid contact with skin, eyes or clothing. Prolonged or frequent repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and warm water after handling. Remove contaminated clothing and wash contaminated clothing before reuse.

## PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting.

Kills [controls] insects [on contact] [such as]:

Cockroaches  
Smokey Brown Cockroach  
Brown Banded Cockroach  
Asian Cockroach  
German Cockroach  
American Cockroach  
Australian Cockroach  
Crickets  
Waterbugs  
Palmetto Bugs

Sowbugs  
Millipedes  
Beetles  
Ground Beetles  
Elm Leaf Beetle  
Boxelder Bug  
Earwigs  
Lice  
Pillbugs  
Clover Mites  
Centipedes  
Carpenter Bees  
Carpet Beetles [Dermestids (Trogoderma)]  
Fire Brat Silverfish  
Clothes Moths

Pharaoh Ants  
Carpenter Ants [Eastern (Western)]  
Dust Mites  
Spiders  
Scorpions

Cheesemites  
Cadelles  
Rice Weevils  
Flat Grain Beetles  
Cigarette Beetle  
Confused Flour Beetle  
Drugstore Beetle  
Lesser Grain Borer  
Merchant Grain Beetle  
Sawtoothed Grain Beetle  
Grain Weevils  
Warehouse Beetle  
Red Flour Beetle  
Grain Mites

Fleas  
Ticks  
Brown Dog Ticks  
Lone Star Ticks  
American Dog Tick  
Gulf Coast Tick

Indian Mealworm  
Almond Moth  
Chocolate Moth  
Tobacco Moth  
Indian Meal Moth  
Angoumois Grain Moth

Use in the following areas of [including, but not limited to] [such as]:

Apartments, Atriums, Attics, Automobiles, Basements, Bathrooms, Bedrooms, Boats, Bookcases, Cabins, Campers, Carpets, Cat Sleeping Quarters, Chests, Closed Porches, Closets, Clothes Storage, Condominiums, Credenza, Dens, Dog Houses, Draperies, Dressers, Fabric Storage Areas, Floors, Furniture, Garages, Garbage Cans, Gazebos, Homes, Household Contents, Kennels, Kitchens, Lanais, Living Rooms, Mattresses, Mobile Homes, Patios, Pet Bedding, Pet Carriers, Pet Grooming Parlors, Pet Sleeping Areas, Pet Stores, Play Houses, Play Rooms, Porches, Recreation Vehicles, Rooms, Rugs, Ships, Solariums, Storage Areas, Sun Porches, Sun Rooms, Trailers, Tree Houses, Utility Rooms, Verandas and Washrooms.

[MULTICIDE® Pressurized Spray 2594] [brand name] contains a combination of ingredients that kills ticks, fleas, carpet beetles and other listed insects. This [formulation] [brand name] contains two highly effective active ingredients that provides quick knockdown and kill [control] of exposed fleas in carpets, rugs, draperies, upholstery, pet bedding, floor cracks and crevices and cabinets. Controls adult fleas in the carpet. Occasionally adult fleas may be present in treated areas when reintroduced from infested animals.

[MULTICIDE® Pressurized Spray 2594] [brand name] also effectively controls other insects listed when used as directed. To protect your pet against and to minimize reintroduction of adult fleas from outdoors, use a product registered for use on animals to treat dogs or cats having access to the house, in addition to this carpet treatment.

[As part of a complete flea control program use EPA registered [brand name] outdoor [lawn] [home and garden] spray, [brand name] [pressurized] [Ready-to-Use] [RTU] flea and tick [indoor] [premise] spray.]

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**READ ALL DIRECTIONS COMPLETELY BEFORE USE**

For most effective results, follow directions for specific use areas. Do not use this product in or on electrical equipment due to possibility of shock hazard. Allow treated surfaces/articles to thoroughly dry before use.

In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed.

Remove pets, birds, and cover fish aquariums before spraying.

**SHAKE BEFORE USE.** For use on carpets and furnishings, turn container upside down and point valve toward surface to be sprayed and apply with an even sweeping motion. [For a General Spray,] hold can upright. Point valve away from face and press button.

**TO KILL FLEAS AND TICKS:** Prior to application, thoroughly vacuum all carpeting, upholstered furniture, along baseboards, under furniture and in closets. Put vacuum bag into a sack and dispose of in outside trash. Hold can 2-3 feet from surfaces to be treated. Apply uniformly, using a slow sweeping motion, treat entire areas of rugs and carpets. Treat under and around furniture if pets frequently rest in these areas. Always test in an inconspicuous [hidden] area prior to use as some natural and synthetic fibers may be adversely affected by any liquid product. A fine spray applied uniformly is all that is necessary to kill fleas. To kill ticks and other labeled insects, apply directly to pests. Do not allow children or pets to walk on treated surfaces until completely dry.

This application can also be used on upholstered furniture and draperies. Avoid excessively wetting upholstered furniture and draperies and always test product in an inconspicuous [hidden] area prior to use.

**FOR USE IN VEHICLES:** If flea infested animals are transported in vehicles, use as directed above to control the infestation.

Use this product as part of a complete flea control program.

4/4

To protect your pet against and to minimize reintroduction of adult fleas, use a product registered for use on animals to treat dogs or cats having access to the house, in addition to this carpet treatment. Do not treat pets with this product. Also use a product registered for treatment of the outdoor area used by the pet.

[GENERAL SPRAY]:

COCKROACHES [Smoky Brown Cockroach, Brown Banded Cockroach, Asian Cockroach, German Cockroach, American Cockroach, Australian Cockroach, Oriental Cockroach] Waterbugs, Palmetto Bugs, Crickets, Firebrat, Silverfish, Booklice, Scorpions, Spiders, Centipedes, Sowbugs, Pillbugs, Earwigs, Clover Mites, Lice and Millipedes: Contact as many insects as possible with this spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to hiding places such as cracks and crevices, behind and beneath sinks, stoves, refrigerators, around garbage cans, cabinets, along baseboards, door and window frames and floors, around drains, pipes, plumbing, behind bookcases, storage and other utility installation areas hitting insects with spray whenever possible.

EXPOSED STAGES of Flour Beetles, Cadelles, Rice Weevils, Flat Grain Beetles, Cigarette Beetle, Confused Flour Beetle, Drugstore Beetle, Lesser Grain Borer, Merchant Grain Beetle, Sawtoothed Grain Beetle, Grain Weevils, Warehouse Beetle, Red Flour Beetle, Grain Mites, Cheesemites and Indian Mealworm. Find and dispose of infested package goods. Remove all other items from pantry, shelves and drawers and clean thoroughly. Spray into cracks and crevices, shelves, drawers and cabinets and other areas where these insects tend to congregate. Place clean paper on the shelves and return packages after spray has dried.

CARPET BEETLES [Dermeestids (Trogoderma)]: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly, where possible. Also treat shelves, closets, areas under furniture, local areas of floors, walls, and baseboards and wherever these insects are seen or suspected.

CLOTHES MOTHS and other Flying Moths: Remove any infested articles from storage, brush thoroughly, and air for several hours in sunlight, if possible. Apply liberally to empty chests, closets, bureaus and other storage areas directing the spray into cracks, joints, and crevices. Return clean articles after spray has thoroughly dried.

ANTS, Pharaoh Ants, Carpenter Ants [Eastern (Western)]: Treat doors, around window frames, ant trails and other areas of entry. Spray on ants where possible.

FOR USE IN PET AREA: Treat pet bedding and other areas where pets rest as these are primary hiding places for fleas and ticks. To reduce infestation, spray around sleeping area, around baseboards, window and door frames, wall cracks, local areas of floors and other animal resting places until the surface is slightly moist. Also spray the entire inside surface of dog houses. Allow treated areas to dry thoroughly before allowing pets to re-enter. DO NOT TREAT PETS WITH THIS PRODUCT.

For best results, pets should be treated with a product registered for use on animals to treat dogs or cats having access to the house, in addition to this carpet treatment.

STORAGE AND DISPOSAL	
<b>STORAGE:</b> Store in a cool, dry place. Keep container closed. Do Not Puncture or Incinerate!	
<b>DISPOSAL:</b>	
If Empty:	Place in trash or offer for recycling if available.
If Partly Filled:	Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
