Dear Ms. Schlekau:

Subject: Multicide Wasp and Hornet Killer 2695
EPA Reg. No. 1021-1649
Submission dated 8/10/2000

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below.

Upgrade the first aid statements in accordance with PR Notice 2000-3.

At your discretion, in accordance with PR Notice 97-5 you may modify the ingredient statement to list the active ingredients as "tetramethrin" and "phenothrin", and you do not need to include the long chemical names.

The container disposal statement must read as follows in accordance with PR Notice 94-2.

This container may be recycled in aerosol recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label (DO NOT PUNCTURE!). If recycling is not available, wrap the container and discard in the trash.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For Control of Nests of Wasps, Yellowjackets, and Hornets: The best time to spray the nest is in the early morning or early evening, when air temperature is cooler and most insects are in the nest and little activity is observed around the nest opening. Spray only if the air is still. Stand at a safe distance from the nest, not directly under it. Hold container upright at arms length, point the actuator at the nest and spray in the opening of the nest first. Then spray the rest of the nest until it is saturated. Treated insects may fall out of the nest and die. Any insects returning to the nest after treatment will be killed. Wait 48 hours before removing the nest. Foliage of desirable plants that were contacted with spray should be hosed off.

This product may stain or adversely affect vinyl, painted, and plastic surfaces. Avoid application to asphalt roofing shingles as staining may occur. Before using in areas where spray may contact these surfaces, test in an inconspicuous area and recheck in a few hours.

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry place away from heat or open flame, preferably in a locked storage area.

PESTICIDE DISPOSAL: Unused product may be disposed of by wrapping original container in several layers of newspaper and discard in trash or give to someone who can use the product.

CONTAINER DISPOSAL: Offer empty container for metal recycling, where available. In areas where recycling is not available, attach cap and dispose of in trash. Do not puncture or incinerate.
