Avoid contamination of food and feedstuffs. **DO NOT CONTAMINATE FOOD AREAS.**

INDOOR USE:

Remove all exposed food and cooking utensils. Cover all food-handling surfaces or wash thoroughly after treatment and before use. Spray surface areas and contact as many insects as possible.

FLIES, GNATS, MOSQUITOES, FRUIT FLIES, WASPS, HORNETS, BEES, SMALL FLYING MOTHS, and other flying insects: Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5 - 10 seconds for average size room. Direct spray to all parts of the room, especially at windows and other light sources that attract these insects. When spraying, keep nozzle in constant motion. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and discard fallen insects.

FLEAS AND TICKS: Before use, vacuum all infested areas thoroughly and dispose of vacuum bag in outside trash. Apply spray uniformly to rugs, carpets, draperies, and all surfaces of upholstered furniture. Treat under and around furniture if pets frequently rest in these areas. Avoid excessively wetting upholstered furniture and draperies. A fine spray applied uniformly is all that is necessary to kill Fleas. and along baseboards, and window and door frames. Spray at the rate of one (1) linear foot per second with a slow sweeping motion. Do not allow children or pets to walk on treated surfaces until completely dry. Do not spray on pets or humans.

FLEAS AND TICKS IN PET BEDDING AND PET AREAS: Remove and destroy or wash pet's old bedding. Put fresh bedding in pet's quarters after spray has dried. Do not allow pets to contact treated areas until completely dry.

For best results, treat pets with EPA registered flea and tick control products, ((such as) [brand name] flea or flea and tick collar, [brand name] pet powder, [brand name] pet spray, [brand name] pet dip, [brand name] pet shampoo, flea shampoo or flea and tick shampoo), in conjunction with this application before allowing pets to re-enter treated areas.
