Mr. Steve K. Ditto  
McLaughlin Gormley King Company  
8810 Tenth Avenue North  
Minneapolis, MN 55427

**NOTIFICATION**  
**JUN 22 2011**

Subject: Notification to add optional directions  
EPA Registration Number: 1021-1667  
Decision: 450054

Dear Mr. Ditto:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration (PRN)98-10 dated May 25, 2011, for the abovementioned product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions regarding this letter, please contact Samantha Hulkower at (703) 603-0683.

Sincerely,

Mark Suarez  
Product Manager 13  
Insecticide Branch  
Registration Division (7505P)

Caterpillars	Leaf Miners	Rose Chafers	Thrips
Chewing Insects	Leaf Beetles	Soft Brown Scales	Whiteflies
Colorado Potato Beetles	Leafhoppers	Southern Army Worms	
Corn Ear Worms			
Cucumber Beetles			

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL DIRECTIONS COMPLETELY BEFORE USE.

[HOW TO USE:]

- [1.] SHAKE WELL BEFORE [USING.] EACH USE. [2.] HOLD CONTAINER UPRIGHT.
- [3.] APPLY IN SHORT BURSTS.

For best results, follow directions for specific use areas. Do not use on animals. Avoid excessively wetting furniture and carpeting. Always test in an inconspicuous [hidden] area before use since liquid products may adversely affect some natural and synthetic fibers.

Avoid contamination of food and feedstuffs. DO NOT CONTAMINATE FOOD AREAS.

INDOOR USE:

Remove all exposed food and cooking utensils. Cover all food-handling surfaces or wash thoroughly after treatment and before use. Spray surface areas and contact as many insects as possible.

FLIES, GNATS, MOSQUITOES, FRUIT FLIES, WASPS, HORNETS, BEES, SMALL FLYING MOTHS, and other flying insects: Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5 – 10 seconds for average size room. Direct spray to all parts of the room, especially at windows and other light sources that attract these insects. When spraying, keep nozzle in constant motion. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and discard fallen insects.

FLEAS AND TICKS: Before use, vacuum all infested areas thoroughly and dispose of vacuum bag in outside trash. Apply spray uniformly to rugs, carpets, draperies, and all surfaces of upholstered furniture. Treat under and around furniture if pets frequently rest in these areas. Avoid excessively wetting upholstered furniture and draperies. A fine spray applied uniformly is all that is necessary to kill Fleas. To kill Ticks and other labeled insects, apply directly to the pests. Spray thoroughly into hiding places such as cracks and crevices, on walls and floors, and along baseboards, and window and door frames. Spray at the rate of one (1) linear foot per second with a slow sweeping motion. Do not allow children or pets to walk on treated surfaces until completely dry. Do not spray on pets or humans.

FLEAS AND TICKS IN PET BEDDING AND PET AREAS: Remove and destroy or wash pet's old bedding. To reduce infestation, thoroughly spray animal's bedding and sleeping quarters, and around baseboards and window and door frames, wall cracks, local areas of floors, and other resting places until the surface is slightly moist. Treat these areas at the rate of two seconds per linear foot at a distance of 12 – 18 inches. Also, spray the entire inside surface of doghouses. Put fresh bedding in pet's quarters after spray has dried. Do not allow pets to contact treated areas until completely dry.

For best results, treat pets with EPA registered flea and tick control products, ([such as] [brand name] flea or flea and tick collar, [brand name] pet powder, [brand name] pet spray, [brand name] pet dip, [brand name] pet shampoo, flea shampoo or flea and tick shampoo), in conjunction with this application before allowing pets to re-enter treated areas.

For particularly excessive infestations of listed pests, use [MGK® Indoor Fogger] [brand name] following application of this product.

OUTDOOR USE:

Do not water the treated area to the point of run-off.

Do not make applications during rain.

All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

- (1) Applications to lawns, turf, and other vegetation.
