**Subject: Amended Labeling; Addition of Optional Directions for Use
MGK® EVERCIDE® Crawling Insect Killer 2548, EPA Reg. No. 1021-1691
Your Submission Dated September 16, 2011**

Dear Mr. Ditto:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable with the following label revision provision(s):

General Statement(s):

1. Delete all text throughout the subject amended label that is marked with "strike-through."
2. The subject amended label currently contains both indoor and outdoor uses. Please note that various label comments have been included within the following label review in response to MGK's recently processed technical outdoor use deletion for MGK 264 insecticide synergist.

Marketing Claims section comment(s):

3. Delete the 8th, 9th, 10th, and 11th optional marketing claims since various CSFs for this product do contain fragrances.
4. Revise the 22nd optional marketing claim to read "[For Indoor & Limited Outdoor Residential Use]."

Precautionary Statements, Environmental Hazards subsection comment(s):

5. To facilitate inclusion of required label changes from the REDs for prallethrin and MGK-264 insecticide synergist, revise "Environmental Hazards" subsection to read:

"ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not apply directly to or near water, or to areas where surface water is present, or to intertidal areas below the mean water mark. Do not apply when weather conditions favor drift from treated areas. Drift and run-off may be hazardous to fish in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters. See Directions for Use for additional precautions and requirements."

Directions for Use section comment(s):

- 6. To facilitate inclusion of required label changes from the REDs for prallethrin, esfenvalerate, and MGK-264 insecticide synergist, add the following new subsection immediately following the statement "It is a violation of Federal law ..." as follows:

USE RESTRICTIONS
<ul style="list-style-type: none"> • Apply this product only as specified on this label. • Do not contaminate food or feedstuffs. • This product is intended for indoor/limited outdoor residential use only. • All residential outdoor applications must be limited to building surfaces and spot treatments on structures only. Broadcast surface applications are prohibited • Do not allow adults, children, or pets to enter the treated area until sprays have dried. • Do not allow children or pets to contact treated surfaces until spray has dried. • Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift. • Do not wet articles to the point of run-off or drip. Do not use treated article until spray has dried. • Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food processing surfaces, or wash them before use. • Do not water the treated area to the point of run-off. Do not make applications during rain. • Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow this product to enter any drain during or after application. • Remove pets, birds, and cover fish aquariums before spraying.

- 7. Revise the subsection heading "General:" to read "Use Information:"
- 8. As a result of the outdoor use deletion for MGK 264 insecticide synergist, you must do the following:
 - Within the 3rd sentence of the 1st paragraph at the top of page 3 of 3, insert the word "interior" immediately preceding the words "elements" and "walls."
 - Within the 2nd and 3rd sentences of the "Flies and Mosquitoes:" subsection, replace the word "spray" with the words "spot treatments."
 - Revise the alternate use directions subsection in the middle of page 3 of 3 to read:

"**[READ ALL LABEL DIRECTIONS COMPLETELY BEFORE USE.** [Product name] is intended to use as a limited exterior spot treatment on residential structures to keep ants from entering the structure. Direct your application to areas that ants and other listed insects use as common entry points into residential structures. This product is especially useful in early spring when ants emerge and attempt to enter the house. Use it again in the fall when ants attempt to come inside for the winter.

SHAKE WELL BEFORE EACH USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS, and always use the attached red extension tube to direct the application. A spare red extension tube is included with each can. For best results, follow directions for specific listed insects and use areas. This product is designed for limited outdoor applications to building surfaces and spot treatments on structures only. Do not apply this product directly to animals. Any liquid may adversely affect some building materials. Always test in an inconspicuous area prior to widespread use.

LIMITED OUTDOOR USE: All residential outdoor applications must be limited to building surfaces and spot treatments on structures only. Spray with caution when wind conditions may create a mist that may blow back to applicator. Always attempt to use the attached red extension tube or spare. When engaged, spray will shoot out a stream 10 to 15 feet long. The liquid will expand upon hitting a target surface, and then leave an invisible residual deposit to kill ants. Do not spray this product in and around bodies of water.

ANTS: Focus your spot treatments to key areas outside the house where you suspect ants are entering the structure, such as around downspouts and gutters, near window sills, and door openings. Seal up any visible exterior cracks where ants can be seen entering the home."

SPIDERS: Focus your spot treatments to spiders and webs on the exterior of building surfaces.

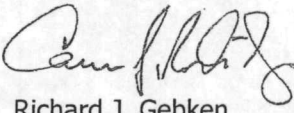

CRAWLING INSECTS: Cockroaches, Crickets, Sowbugs, Multicolored Asian Ladybird Beetles. Focus your spot treatments to key areas outside the house where you suspect these insects are entering the structure, such as around downspouts and gutters, near window sills, and door openings. Spray insects directly where possible. Seal up any visible exterior cracks where crawling insects can be seen entering the home.]"

A copy of your label stamped "Accepted with Comments" is enclosed for your records. Please submit two (2) copies of the final printed labeling, incorporating the above changes, before releasing the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with section 6(e) of FIFRA. Your release for shipment of the product bearing amended labeling constitutes accepting of these conditions.

If you have any questions about this label review, please contact Mr. Carmen Rodia at (703) 306-0327 or via e-mail at Rodia.Carmen@epa.gov.

Sincerely yours,

FOP

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals.

ENVIRONMENTAL HAZARDS

Do not contaminate water when disposing of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product in or on electrical equipment due to possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product
in a manner inconsistent with its labeling.

[Product Facts] [Where to Use]

Only For Use In and Around Residential Areas Such As Rooms, Apartments, Homes, Attics, Basements, Campers, Boats, Household Storage Areas, Garages, Pet Sleeping Areas, and Cabins.

SHAKE WELL BEFORE USE.

General: Use this spray as a spot or crack and crevice treatment to control Asian lady beetles, boxelder bugs, Brown Marmorated stink bugs (BMSB), cockroaches, fleas, silverfish, stink bugs, ticks, waterbugs, and other insects listed below. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pests are found or may occur. Spray surfaces until wet.

~~Remove pets, birds, and cover fish aquariums before spraying.
Do not allow children or pets to contact treated surfaces until spray has dried.
Do not water the treated area to the point of run-off.
Do not make applications during rain.
All outdoor applications must be limited to spot or crack-and-crevice treatments only.
All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.
Do not wet articles to point of runoff or drip.
Do not use treated article until spray has dried.
Do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.
Remove or cover exposed food and drinking water before application.
Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use.~~

FOR SPOT TREATMENT:

To Kill Ants, Asian Lady Bird Beetles, Banded Garden Spider, Black Widow Spiders, Bold Jumping Spider, Boxelder Bugs, Brown Marmorated Stink Bugs (BMSB), Bud Spider, Burrowing Wolf Spider, Carpet Beetles, Catface Spider, Centipedes, Cigarette Beetles, Cobweb Weaver Spider, Cockroaches, Common House Spider, Confused Flour Beetles, Crickets, Cupboard Spider, Daddy-Long-Legs, European House Spider, Funnel-Web Spider, Giant Wolf Spider, Grass Spider, Ground Spider, Indian Meal Moths, Marbled Cellar Spider, Parson Spider, Rice Weevils, Sawtoothed Grain Beetles, Scorpions, Silverfish, Southern House Spider, Sowbugs, Spiders, Woodlouse Spider, Stink Bugs, and Yellow Sac Spider: Spray areas where these insects are found or may hide, including dark corners of rooms and closets; cracks and crevices in walls; along baseboards and door and window frames; behind and beneath sinks, stoves, refrigerators and cabinets; and around garbage cans, plumbing, and other utility installations. Pests driven out of hiding places should be sprayed directly. For ants, spray ant trails and around doors and windows, and wherever else these pests may find entrance. For control of Black Carpet Beetles, spray along baseboards and edges of carpeting, under carpeting, rugs, and furniture and wherever these insects are seen or suspected.

To Kill Brown Dog Ticks and Fleas: Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings where these pests may be present. Pet's old bedding should be removed and replaced with clean, fresh bedding after treatment. DO NOT SPRAY PETS WITH THIS PRODUCT. Pets should be treated with a registered flea and tick control product prior to reentering treated areas.

6/6

FOR CRACK AND CREVICE TREATMENT:

To Kill Ants, Asian Lady Beetles, Banded Garden Spider, Black Widow Spiders, Bold Jumping Spider, Boxelder Bugs, Brown Dog Ticks, Brown Marmorated Stink Bugs (BMSB), Bud Spider, Burrowing Wolf Spider, Carpet Beetles, Catface Spider, Cobweb Weaver Spider, Cockroaches, Common House Spider, Crickets, Cupboard Spider, Daddy-Long-Legs, European House Spider, Fleas, Funnel Web Spider, Giant Wolf Spider, Grass Spider, Ground Spider, Marbled Cellar Spider, Parson Spider, Scorpions, Silverfish, Southern House Spider, Sowbugs, Spiders, Stink Bugs, Woodlouse Spider, and Yellow Sac Spider: Apply spray in small amounts directly into cracks and crevices. Equipment capable of delivering a pin stream should be used in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where these insects hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food handling surfaces.

Flies and Mosquitoes: Use only outdoors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios, and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surfaces will be killed.

[Alternate use directions when using the product as an outdoor spray equipped with streaming spray button and extension tube]

[READ ALL DIRECTIONS COMPLETELY BEFORE USE Terro® Outdoor Ant Killer is intended to use around residential structures to keep ants from entering the structure. The product will deliver a stream of product 10 to 15 feet long to help you treat hard-to-reach areas around the house. Direct your application to areas that ants and other insects use as common entry points and foraging trails. This product is especially useful outside in early spring when ants emerge and attempt to enter the house. Use it again in the fall when ants may attempt to come inside for the winter.

SHAKE WELL BEFORE EACH USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS and always use the attached red extension tube to direct the application. A spare red extension tube is included with each can. For best results, follow directions for specific insects and use areas. This product is designed for outdoor use. Do not use on animals. Any liquid product may adversely affect some building materials. Always test in an inconspicuous area prior to widespread use.

DO NOT CONTAMINATE FOOD AREAS.

OUTDOOR USE: Spray with caution when wind conditions may create a mist that may blow back to applicator. Always attempt to use the attached red extension tube or the spare. When engaged, spray will shoot out a stream 10 to 15 feet long. The liquid will expand upon hitting a target surface and then leave an invisible residual deposit to kill ants. Look for ant activity around the outside of the house and spray the outdoor surface areas contacting as many insects as possible. Do not apply this product in or around bodies of water. **ANTS:** Focus your treatment in key areas outside the house, where you suspect ants are entering the structure, such as around downspouts and gutters, near window sills and door openings. Spray ants directly where possible. Seal up any visible exterior cracks where ants can be seen entering the home.

SPIDERS: Spray directly on spiders and webs.

CRAWLING INSECTS: Cockroaches, Crickets, Sowbugs, Multicolored Asian Lady Beetles. Focus your treatment in key areas outside the house where you suspect these insects are entering the structure, such as around downspouts and gutters, near windowsills and door openings. Spray insects directly where possible. Seal up any visible exterior cracks where crawling insects can be seen entering the home.]

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage

Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food.

Pesticide Disposal and Container Handling

Do not puncture or incinerate!
Nonrefillable container. Do not reuse or refill this container.

If empty:
Place in trash or offer for recycling if available.

If partly filled:
Call your local solid waste agency for disposal instructions.

[Notice Buyer assumes all risks of use, storage or handling of this product not in accordance with directions.]

[Our Guarantee: If for any reason you are not satisfied with this product, mail us proof of purchase to obtain a full refund of your purchase price.]
