American Cockroaches Crickets Waterbugs Palmetto Bugs Ants Silverfish Centipedes Sowbugs Carpet Beetles Fleas Ticks Confused Flour Beetles Indian Meal Moths Flies Mosquitos Rice Weevils Saw-toothed Grain Beetles

For use in non-food areas of:

Apartments, Atriums, Attics, Automobiles, Basements, Bathrooms, Boats, Bookcases, Buses, Cabins, Cafeterias, Campers, Camp Sites, Cat Sleeping Quarters, Chests, Closed Porches, Closets, Condominiums, Credenzas, Crematoriums, Day Care Centers, Decks, Dens, Dog Houses, Dormitories, Draperies, Dressers, Drive-Ins, Drugstores, Dumpsters, Fabric Storage Areas, Factories, Floors, Food Processing Facilities, Funeral Parlors, Furniture, Garages, Garbage Cans, Gazebos, Homes, Hospitals, Hotels, Indoor Eating Establishments, Institutions, Jails, Kennels, Kitchens, Lanais, Living Rooms, Locker Rooms, Mausoleums, Mess Halls, Mobile Canteens, Mobile Homes, Morgues, Mortuarles, Motels, Nursing Homes, Office Buildings, Other Public Buildings, Outdoor Eating Establishments, Patios, Pet Bedding, Pet Carriers, Pet Grooming Parlors, Pet Sleeping Areas, Pet Stores, Play Houses, Play Rooms, Porches, Prisons, Quonset Huts, Railroad Cars, Recreation Vehicles, Restaurants, Rooms, Rugs, Schools, Ships, Solariums, Sports Stadiums, Storage Areas, Sun Porches, Sun Rooms, Supermarkets, Taverns, Theaters, Trailers, Trucks, Utility Rooms, Verandas, Veterinary Clinics and Washrooms.

Do not use in food/feed areas of food/feed handling establishments, restaurants, or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held.

Non-food/feed areas of commercial food/feed handling establishments where the product can be applied are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

EVERCIDE® Roach & Ant Spray 2622 contains a combination of ingredients that residually kills [controls] ants, cockroaches, ticks, fleas, carpet beetles and other listed insects. This product contains two effective ingredients that provide quick knock down and kill [long term control] of fleas. Protects the home from flea build-up from existing flea populations. Occasionally adult fleas may be present in treated areas when reintroduced from infested animals

To protect your pet against and to minimize reintroduction of adult fleas from outdoors, use EPA registered flea and tick products in conjunction with this application and prior to re-entry. EVERCIDE® Roach & Ant Spray 2622 also effectively controls other insects listed when used as directed.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ ALL DIRECTIONS COMPLETELY BEFORE USE

SHAKE WELL BEFORE USE

For most effective results, follow directions for specific use areas. Do not use this product in or on electrical equipment due to possibility of shock bazard.

Use this spray as a spot or crack and crevice treatment to localized areas where pests are found or may occur to control listed insects. Spray surfaces until wet but not to the point of runoff. Repeat as necessary.

Avoid contamination of food and animal feed. Do not apply in classrooms when is use. Do not apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly, or infirm. Do not apply to institutions (including libraries, sports facilities, etc.) in the immediate area when occupants are present.

FOR SPOT TREATMENT:

TO KILL COCKROACHES [Brown Banded Cockroach, Asian Cockroach, German Cockroach, American Cockroach, Australian Cockroach] Water Bugs, Palmetto Bugs, Crickets, Black Widow Spiders, Firebrat, Silverfish, Scorpions, Spiders, Centipedes and Sowbugs: Contact as many insects as possible with this spray in addition to thoroughly spraying areas suspected of harboring these pests. Special attention should be paid to hiding places such as cracks and crevices, behind and beneath sinks, stoves, refrigerators, around garbage cans, cabinets, along baseboards, door and window sills, door and window frames and floors, around drains, pipes, plumbing, behind bookcases, storage and other utility installation areas hitting insects with spray whenever possible.

TO KILL FLEAS AND TICKS: Prior to application, thoroughly vacuum all carpeting, upholstered furniture, along baseboards, under furniture and in closets. Put vacuum bag into a sack and dispose of in outside trash. Thoroughly apply as a spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames, and localized areas of floor and floor covering where these pests may be present. Pet's old bedding should be removed and replaced with clean, fresh bedding after treatment. DO NOT TREAT PETS WITH THIS PRODUCT. Also, treat your yard with a product registered for yard application.

FOR USE IN VEHICLES: If flea-infested animals are transported in vehicles, use as directed above to control infestation.

To protect your pet against and to minimize reintroduction of adult fleas from outdoors, use an EPA registered flea and tick product, pet powder, and pet dip, in conjunction with this application and prior to re-entry. As part of a complete flea control program use an EPA registered spray.

EXPOSED STAGES of Confused Flour Beetles, Indian Meal Moths, Rice Weevils, Saw-toothed Grain Beetles: Find and dispose of infested packaged goods. Remove all other items from pantry, shelves and drawers and clean thoroughly. Spray into cracks and crevices, shelves, drawers and cabinets and other areas where these insects tend to congregate. Place clean paper on the shelves and return packages after spray has dried.

CARPET BEETLES: Directly spray as many insects as possible. Treat shelves, closets, and areas under furniture, floors, walls, windowsills, baseboards and wherever these insects are seen or suspected.

ANTS: Treat doors, around window frames, ant trails and hills, cracks and crevices and other areas of entry. Repeat as necessary.

FOR CRACK AND CREVICE TREATMENT: Apply spray in small amounts directly into cracks and crevices, points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where pests may hide.

Care should be taken to avoid depositing this product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food handling surfaces.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place. Keep container closed.

Do Not Puncture or Incinerate!

DISPOSAL:

If Empty:

Place in trash or offer for recycling if available.

If Partly Filled:

Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
